**A Convex Mirror** Marco Segala, 2024 Schopenhauer is most recognizable as the philosopher of pessimism the author of a system that teaches how art and morality can help human beings navigate life in the worst of all possible worlds This dominant image of Schopenhauer neglects a vital branch of his philosophy the metaphysics of nature and its dialogue with contemporary science The evolving relationship of Schopenhauer's philosophy to science provides a powerful interpretive tool which A Convex Mirror uses to reflect the complexity of his philosophical system and shed light on its core concepts
