European and Non-European Societies, 1450-1800 Robert Forster, 2019-07-16 First published in 1997 this is the first of two volumes It looks at the process of European expansion which brought into contact societies and cultures across the world which had been initially alien to one another Conflict and violent conflict was one aspect of this interaction but accommodation mutual adaptation and institutional and behavioural synthesis were also present though often biased in favour of European norms The intent of this book is to avoid treating colonization dominance and exploitation as the only focuses of attention In the first volume Robert Forster explores issues of formative influences the impact of Eurocentrism on historiography and the reaction against it and the differing approaches and perceptions of the Europeans notably the Spanish French and English In this period he distinguishes three modes of interaction that of the trading empires generally in Africa and Asia where the European control

of the encounter was slighter and those of the regions of settlement as in North America and of exploitation typified by the Caribbean where the European impact was profound The second volume focuses on the Americas and uses the topics of religion class gender and race as its points of entry **American Indians in the Lower Mississippi Valley** Daniel H. Usner, Jr., 1998-01-01 During the eighteenth and nineteenth centuries the Native peoples inhabiting the Lower Mississippi Valley confronted increasing domination by colonial powers disastrous reductions in population and the threat of being marginalized by a new cotton economy Their strategies of resistance and adaptation to these changes are brought to light in this perceptive study An introductory overview of the historiography of Native peoples in the early Southeast examines how the study of Native colonial relations has changed over the last century Daniel H Usner Jr reevaluates the Natchez Indians ill fated relations with the French and the cultural effects of Native population losses from disease and warfare during the eighteenth century Usner next examines in detail the social and economic relations the Native peoples forged in the face of colonial domination and demographic decline and he reveals how Natives adapted to the cotton economy which displaced their familiar social and economic networks of interaction with outsiders Finally Usner offers an intriguing excursion into cultural criticism assessing the effects of popular images of Natives from this region **Storied Shores** A. J. B. Johnston, 2004 Cape Breton Island has many claims to fame yet far too few people are familiar with the rich and storied past of the coastal areas of Richmond County For centuries the Mi kmaq and later the early European explorers and settlers shortened their journeys between the Bras d Or lake and the Atlantic Ocean by means of the narrow isthmus at St Peter s This portage area eventually a canal became a haul over road in the mid 1650s The portage area and the surrounding shores and waterways of Cape Breton were sites of early and prolonged interaction between the French and the Mi kmaq during a time when dreams of expansion and empire among European nations met head on with the realities of North America s aboriginal peoples The busy corridor between Chapel Island St Peter s and Isle Madame was the backdrop for a colourful and intriguing era of our shared histories Storied Shores presents a history of that time and place the story of the promise of prosperity and the hope for new lives and the story of the ravages of greed rivalry and war A J B John Johnston is a Canadian historian with many publications that deal with the histories of Louisbourg Cape Breton Acadia and Nova Scotia He is a historian with Parks Canada based in Halifax **Mississippi Forests and Forestry** James E. Fickle, 2001 From prehistory to the present people have harvested Mississippi s trees cultivated and altered the woodlands and hunted forest wildlife Native Americans the first foresters periodically burned the undergrowth to improve hunting and to clear land for farming Mississippi Forests and Forestry tells the story of human interaction with Mississippi s woodlands With forty black and white images and extensive documentation this history debunks long held myths such as the notion of the first settlers encountering virgin forests Drawing on primary materials government documents newspapers interviews contemporary accounts and secondary works historian James E Fickle describes an ongoing commerce between people and place from

Native American maintenance of the woods to white exploration and settlement to early economic activities in Mississippi's forests to present day conservation and responsible use Viewed over time issues of conservation are rarely one sided Mississippi Forests and Forestry describes how the rise of scientific forestry coincided with the efforts of some early lumber companies and industrial foresters to operate responsibly in harvesting trees and providing for reforestation Surprisingly the rise of the pulp and paper industry made reforestation possible in many parts of the state Mississippi Forests and Forestry is a history of individuals as well as industries The book looks closely at the ways the lumber industry operated in the woods and mills and at the living and working conditions of people in the industries It argues that the early industrial foresters some lumber companies and pulp and paper manufacturers practiced utilitarian conservation By the late 1950s they accomplished what some considered a miracle Mississippi's forests had been restored With the rise of environmentalism in the 1960s popular ideas concerning the proper management and use of forests changed Practices such as clear cutting single age management and manufacturing by chip mills became highly controversial Looking ahead Mississippi Forests and Forestry examines the issues that remain heated topics of conservation and use
