Sonnenfeld, 2012-06-25 Food is increasingly traded internationally thereby transforming the organization of food production and consumption globally and influencing most food related practices This transition is generating unfamiliar challenges related to sustainability of food provision the social impacts of international trade and global food governance Distance in time and space between food producers and consumers is increasing and new concerns are arising These include the environmental impact of food production and trade animal welfare the health and safety of food and the social and economic impact of international food trade This book provides an overview of the principal conceptual frameworks that have been developed for understanding these changes It shows how conventional regulation of food provision through sovereign national governments is becoming elusive as the distinctions between domestic and international and between public and private spheres disappear At the same time multi national companies and supranational institutions put serious limits to governmental interventions In this context other social actors including food retailers and NGOs are shown to take up innovative roles in governing food provision but their contribution to agro food sustainability is under continuous scrutiny

The authors apply these themes in several detailed case studies including organic fair trade local food and fish. On the basis of these cases, future developments are explored with a focus on the respective roles of agricultural producers, retailers, and consumers.

Handbook on the Globalisation of Agriculture Guy M. Robinson, Doris A. Carson, 2015-06-29. This Handbook provides insights to the ways in which globalisation is affecting the whole agri food system from farms to the consumer. It covers themes including the physical basis of agriculture, the influence of trade policies, the nature of globalisation. **The Nutrition Transition**, 2002-08-30. This book deals with the dramatic changes in diet and lifestyle that are occurring in the developing world as a result of globalization and their impact on human health. The Editors have assembled a leading group of scientists in the fields of economics, population sciences, international health, medicine, nutrition, and food sciences to address each of the key issues related to the changes in demographic trends, food production and marketing, and disease patterns in the developing world. The Nutrition Transition provides essential information to understand the far-reaching effects that global economic, social, and cultural trends are having on diet-related disease patterns in countries of transition. Contains numerous illustrative figures and tables. Two case studies included on China and Brazil. In the field of global agricultural development, the unequal recognition and acknowledgment of women's indispensable role in shaping the sector has become a pressing concern. While women have long been the backbone of agricultural progress, their multifaceted contributions often remain overlooked, hindering the pursuit of sustainable and equitable solutions in an ever-evolving world. As we confront the pressing need for inclusivity and resilience in agriculture, it becomes important to examine and celebrate the transformative influence of women. **Impact of Women in Food and Agricultural Development** serves as an illuminating exploration delving into the uncharted roles that women play, from tilling the soil to navigating complex supply chains and championing sustainable practices. It is a compelling response to the urgent call for recognizing and addressing the challenges faced by women in this crucial sector. **Impact of Women in Food and Agricultural Development** endeavors to shed light on the challenges women face, the triumphs they achieve, and the profound changes they instigate within the agricultural sector. Drawing on a rich tapestry of stories, data, and expert insights, this book seeks to provide a deep understanding of how women contribute to and are impacted by global agricultural development. As we navigate an era marked by climate uncertainties, technological advancements, and the urgent need for sustainable practices, understanding the dynamic role of women in agriculture is not just an academic pursuit but a crucial step towards building a more resilient and equitable future. Through the lens of this book, we embark on a journey that illuminates the untold stories of women who, against various odds, have
