The Adirondack Rebellion A Political Economic And Social Expose Of The Adirondack State Park 1880 198:

The Adirondack Park Frank Graham, Jr.,1991-10-01 *The Adirondack Rebellion* Anthony N. D'Elia,1979 *A Wild Idea* Brad Edmondson,2021-05-15 A Wild Idea shares the complete story of the difficult birth of the Adirondack Park Agency APA The Adirondack region of New York s rural North Country forms the nation s largest State Park with a territory as large as Vermont Planning experts view the APA as a triumph of sustainability that balances human activity with the preservation of wild ecosystems The truth isn t as pretty The story of the APA told here for the first time is a complex troubled tale of political dueling and communities pushed to the brink of violence The North Country s environmental movement started among a small group of hunters and hikers rose on a huge wave of public concern about pollution that crested in the early 1970s and overcame multiple obstacles to save the Adirondacks Edmondson shows how the movement s leaders persuaded a powerful Governor to recruit planners naturalists and advisors and assign a task that had never been attempted before The team and the politicians who supported them worked around the clock to draft two visionary land use plans and turn them into law But they also made mistakes and their strict regulations were met with determined opposition from local landowners who insisted that private property is private A Wild Idea is based on in depth interviews with five dozen insiders who are central to the story Their observations contain many surprising and shocking revelations This is a rich exciting narrative about state power and how it was imposed on rural residents It shows how the Adirondacks were saved and also why that campaign sparked a passionate rebellion **A History of the Adirondacks** Alfred Lee Donaldson,1921 **The Great Experiment in Conservation** William F. Porter,Jon D. Erickson,Ross S. Whaley,2025-09-15 The Adirondack region of New York State is in many respects America s cauldron of conservation It was there more than a century ago that wanton exploitation of forests first aroused concern about human impact on the environment It was there that Americans first began to set aside lands proclaimed as forever wild The establishment of the Adirondack Park created an immense landscape of 6 million acres composed of a mixture of public and private lands in nearly equal proportion This unprecedented blend of human communities within wild lands makes the Adirondack Park perhaps one of the greatest case studies in conservation and development in U S history Representing a remarkable achievement in environmental scholarship and drawn from decades of research The Great Experiment in Conservation captures the wisdom born of the last thirty years of the park s evolution The editors bring together leading scholars activists and practitioners those who know the Park s origin and the realities of living in a protected area to narrate this history Organized into three sections contributors explore the ecological cultural and economic aspects of the region drawing lessons from successes and failures as they struggle to find the right balance of private interests and public controls With keen insight and deep passion the authors reveal the Adirondack Park s rich natural and cultural history in shaping conservation policy providing vital contributions to the future study of land preservation Contributors include Herman Daly Bill McKibben Barbara McMartin Philip G Terrie Amy Vedder and Bill Weber
