**Autobiography and Natural Science in the Age of Romanticism** Bernhard Kuhn, 2016-04-15 Set against the backdrop of a rapidly fissuring disciplinary landscape where poetry and science are increasingly viewed as irreconcilable and unrelated Bernhard Kuhn s study uncovers a previously ignored fundamental connection between autobiography and the natural sciences Examining the autobiographies and scientific writings of Rousseau Goethe and Thoreau as representative of their ages Kuhn challenges the now entrenched thesis of the two cultures Rather these three writers are exemplary in that their autobiographical and scientific writings may be read not as separate or even antithetical but as mutually constitutive projects that challenge the newly emerging boundaries between scientific and humanistic thought during the Romantic period Reading each writer s life stories and nature works side by side as they were written Kuhn reveals the scientific character of autobiographical writing while demonstrating the autobiographical nature of natural science He considers all three writers in the context of scientific developments in their own times as well as ours showing how each one marks a distinctive stage in the growing estrangement of the arts and sciences from the self assured epistemic unity of Rousseau s time to the splintering of disciplines into competing ways of knowing under the pressures of specialization and professionalization during the late Romantic age of Thoreau His book thus traces an unfolding drama in which these writers and their contemporaries each situated in an intellectual landscape more fragmented than the last seek to keep together what modern culture is determined to break apart [Handbook of Plant and Crop Physiology](#) Mohammad

**Mastery of Non-Mastery in the Age of Meltdown** Michael Taussig, 2020-07-15 For centuries humans have excelled at mimicking nature in order to exploit it Now with the existential threat of global climate change on the horizon the ever provocative Michael Taussig asks what function a newly invigorated mimetic faculty might exert along with such change Mastery of Non Mastery in the Age of Meltdown is not solely a reflection on our condition but also a theoretical effort to reckon with the impulses that have fed our relentless ambition for dominance over nature Taussig seeks to move us away from the manipulation of nature and reorient us to different metaphors and sources of inspiration to develop a new ethical stance toward the world His ultimate goal is to undo his readers sense of control and engender what he calls mastery of non mastery This unique book developed out of Taussig s work with peasant agriculture and his artistic practice which brings performance art together with aspects of ritual Through immersive meditations on Walter Benjamin D H Lawrence Emerson Bataille and Proust Taussig grapples with the possibility of collapse and with the responsibility we bear for it

**Soul of the Age** Jonathan Bate, 2009-04-07 One man in his

time plays many parts His acts being seven ages In this illuminating innovative biography Jonathan Bate one of today s most accomplished Shakespearean scholars has found a fascinating new way to tell the story of the great dramatist Using the Bard s own immortal list of a man s seven ages in *As You Like It* Bate deduces the crucial events of Shakespeare s life and connects them to his world and work as never before Here is the author as an infant born into a world of plague and syphilis diseases with which he became closely familiar as a schoolboy a position he portrayed in *The Merry Wives of Windsor* in which a clever cheeky lad named William learns Latin grammar as a lover married at eighteen to an older woman already pregnant perhaps presaging Bassanio who in *The Merchant of Venice* won a wife who could save him from financial ruin Here too is Shakespeare as a soldier writing Henry the Fifth s St Crispin s Day speech with a nod to his own monarch Elizabeth I s passionate addresses as a justice revealing his possible legal training in his precise use of the law in plays from *Hamlet* to *Macbeth* and as a pantaloon an early retiree because of Bate postulates either illness or a scandal Finally Shakespeare enters oblivion with sonnets that suggest he actively sought immortality through his art and secretly helped shape his posthumous image more than anyone ever knew Equal parts masterly detective story brilliant literary analysis and insightful world history *Soul of the Age* is more than a superb new recounting of Shakespeare s experiences it is a bold and entertaining work of scholarship and speculation one that shifts from past to present reality to the imagination to reveal how this unsurpassed artist came to be

**In the Age of Prose** Erich Heller,1984 The guiding theme of these essays is the fate of the imagination and the condition of art in the modern world where both appear to be enfeebled by scientific hubris undermined by psychological self questioning and compromised by political disaster Erich Heller traces this predicament with subtlety and profundity from Hegel s and Nietzsche s diagnoses to the various truces and manoeuvres through which remarkable victories have nonetheless been achieved such as the comic triumphs of Wilhelm Busch As elsewhere in Professor Heller s work Thomas Mann s attempt to outwit and redeem his circumstances through art despite them as he said himself occupies a central place Three of the present essays are devoted to him Others consider Kleist Fontane Hamsun Karl Kraus and the crucial figures of Hlderlin who plays such a central role in Heidegger s later philosophical writings and Rilke Written with feeling and the distinctive elegance and wit that have characterized all of Professor Heller s work the essays here reaffirm the vital interdependence of literature and human values

*Artmaking in the Age of Global Capitalism* Bryant Jan Bryant,2019-09-11 Jan Bryant looks at the strategies visual artists and filmmakers are using to criticise the social and economic conditions shaping our historical moment She then assesses how the world is being positively re imagined through their work today Located at the intersection of practice and theory Bryant argues that an effective contemporary political aesthetics encompasses more than just analysis of a work s conceptual or aesthetic reality It should also consider the impact the artwork has at the point of reception the methods adopted by the artists and the relationships they engender with communities

*Color in the Age of Impressionism* Laura Anne Kalba,2017-04-21 This study analyzes the impact of color

making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process. Focusing on Impressionist art, Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas, Pierre-Auguste Renoir, and Claude Monet. The proliferation of vibrant new colors in France during this time challenged popular understandings of realism, abstraction, and fantasy in the realms of fine art and popular culture. More than simply adding a touch of spectacle to everyday life, Kalba shows these bright, varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color. Impressionism, emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification, mirrored and mediated this change, shaping the ways in which people made sense of both modern life and modern art. Demonstrating the central importance of color history and technologies to the study of visuality, *Color in the Age of Impressionism* adds a dynamic new layer to our understanding of visual and material culture.
