Tropisms, and The Age of Suspicion Nathalie Sarraute,1967

When the Old Left Was Young Robert Cohen,1993 This text explores

the first mass student movement in American history a crusade led largely by young Communists in the Depression era Caused by the economic crisis of the 1930 s it was both an anti war campaign and a movement championing an egalitarian vision of the welfare state *The Age of Suspicion* James Artur Wechsler,1971 *Tropisms and the Age of Suspicion*

Nathalie Sarraute,1963

Early Modern French Thought Michael Moriarty,2003 This book is an examination of three

major French thinkers of the seventeenth century Descartes Pascal and Malebranche of whom the latter two are comparatively little studied in the English speaking world It deals with a common attitude of suspicion towards everyday experience which they see as dominated and obscured by sensation imagination and the presence of the body This attitude however obliges them to develop detailed and sophisticated accounts of the shaping of experience not only by the body but by interpersonal and social relationships and of the tension between human nature as it is and as we experience it The treatment of Descartes thus challenges the interpretation that sees him as eliminating the body from subjectivity while that of Pascal and Malebranche shows how their critical attitude towards experience a fertile source for twentieth century

French thinkers is linked with their religious doctrines especially their Augustinian emphasis on Original Sin *Nathalie*

Sarraute Ann Jefferson,2023-05-02 A leading exponent of the Nouveau Roman Nathalie Sarraute 1900 1999 was also one of France s most cosmopolitan literary figures and her life was bound up with the intellectual and political ferment of 20th century Europe Ann Jefferson s work is an authoritative biography of this major writer Fighting Authoritarianism Britt

Haas,2021-05-20 This engaging study of progressive youth organizations charts their origins their quest to fashion an America true to its ideals and their demise Phillip Deery Victoria University Melbourne During the Great Depression young radicals in New York developed a vision of and for America molded by their understanding of the Great War and global economic collapse as well as other events unfolding both at home and abroad They worked to make their vision of a free equal democratic society based on peaceful coexistence a reality Their attempts were ultimately unsuccessful but their voices were heard on a number of issues including free speech racial justice and peace A major contribution to the historiography of the era *Fighting Authoritarianism* provides an important new examination of US youth activism of the 1930s including the limits of the New Deal and how youth activists pushed FDR Eleanor Roosevelt and other New Dealers to do more to address economic distress and social inequality and promote more inclusionary politics Britt Haas questions the interventionist versus isolationist paradigm and also explores the era not as a precursor to WWII but as a moment of hope about institutionalizing progress in freedom equality and democracy *Fighting Authoritarianism* corrects misconceptions about these activists vision heavily influenced by the American Dream they d been brought up to revere For them that meant embracing

radical ideologies especially the socialism and communism widely discussed debated and promoted on the city's college campuses They didn't believe they were turning their backs on American values instead they thought such ideologies were the only way to make America live up to its promises This study also outlines the careers of Molly Yard Joseph Lash and James Wechsler how they retracted and for Yard and Lash reclaimed their radical past and how New York continued to hold a prominent platform in their careers Lash and Wechsler worked for the New York Post the latter as editor until 1980 Examining the decade from this perspective highlights the promise of America as young people understood it a historic moment when anything seemed possible The Age of Ideology John Schwarzmantel, 1998-03 Assesses the major ideologies of modern times including liberalism socialism and conservatism and traces their relationships with one another with the ambiguous ideology of nationalism and to the emergence of modern societies democratic politics and Enlightenment ideas Overviews key themes
