Fred I. Greenstein

The Agenda Inside The Clinton White House:

The Agenda Bob Woodward,1994 From the New York Times bestselling author of All the President s Men comes an in depth behind the scenes look at the Clinton administration C and New York City *Agenda* Bob Woodward,2011-08-01 The Agendais a day by day often minute by minute account of Bill Clinton s White House Drawing on hundreds of interviews confidential internal memos diaries and meeting notes Woodward shows how Clinton and his advisers grappled with questions of lasting importance the federal deficit health care welfare reform taxes jobs One of the most intimate portraits of a sitting president ever published this edition includes an afterword on Clinton s efforts to save his presidency Inside the Clinton White House Russell L. Riley,2016-09-12 Inside the Clinton White House uses never before seen interviews with Bill Clinton s administration and colleagues to provide a nuanced look at politics and life during the 42nd presidency *The Shadow Welfare State* Marie Gottschalk,2000 Why in the recent campaigns for universal health care did organized labor maintain its support of employer mandated insurance Did labor s weakened condition prevent it from endorsing national health insurance Marie Gottschalk demonstrates here that the unions surprising stance was a consequence of the peculiarly private nature of social policy in the United States Her book combines a much needed account of labor s important role in determining health care policy with a bold and incisive analysis of the American welfare state Gottschalk stresses that in the United States the social welfare system is anchored in the private sector but backed by government policy As a result the private sector is a key political battlefield where business labor the state and employees hotly contest matters such as health care She maintains that the shadow welfare state of job based benefits shaped the manner in which labor defined its policy interests and strategies As evidence Gottschalk examines the influence of the Taft Hartley health and welfare funds the Employee Retirement Income Security Act E R I S A and experience rated health insurance showing how they constrained labor from supporting universal health care Labor Gottschalk asserts missed an important opportunity to develop a broader progressive agenda She challenges the movement to establish a position on health care that addresses the growing ranks of Americans without insurance the restructuring of the U S economy and the political travails of the unions themselves The POTUS Chronicles Robert Haught,2008-03 The POTUS Chronicles is a merry romp through some of the most eventful times in the nation s political history It s a sometimes bumpy roller coaster ride prudently recreating with George H W Bush wondering what s next for Bubba Bill Clinton and his co president wife and misunderestimating George Dubya Bush Like pages from a reporter s notebook satirical glimpses of three administrations are captured with the freshness of today s headlines Besides presenting a breezy account of war and peace and partying at the dawn of a new century the pages of The POTUS Chronicles contain answers to many questions that trouble the minds of conscientious citizens such as Which president had to prove his identity to a skeptical third grader What advice did the Bush dog Millie give the Clinton cat Socks Whose presidential inauguration involved an official road kill patrol Who is the former first lady who revealed she has

conversations with Eleanor Roosevelt How did the White House staff react when a president choked on a pretzel What happened to Dick Cheney after a Republican senator switched parties Relive a memorable era in the nations capital as seen through the lens of a seasoned Washington observer tongues in cheek The Presidential Difference Fred I. Greenstein,2009-08-30 Compares thirteen presidential roles from Franklin Roosevelt to William Clinton and focuses on their political skill communication style organizational ability and much more The Gatekeepers Kevin Lyles,1997-10-28 There are more than 600 Federal district judges serving today and they decide some 230 000 civil cases each year About 90% of the decisions they reach are final Lyles argues that these lower court judges not only influence the flow of information to the judicial hierarchy but they formulate questions that influence how higher courts including the Supreme Court respond As such they are key elements in the formulation and implementation of public policy To cite a few examples they desegregate school districts run mental institutions and prisons break up monopolies and reapportion legislatures Lyles begins by examining the structure and function of federal courts and detailing the history operation and purpose of the district courts He then turns to the selection nomination and appointment of district judges Lyles then analyzes the extent to which presidents might advance policy objectives through their judicial appointments to the district courts After examining how African American Latino and white judges male and female view their roles as policy actors Lyles concludes with a discussion of the implications of the study Important for students and scholars of contemporary public policy and the court system

American Foreign Policy Since the Vietnam War Richard A Melanson,2019-07-23 A revealing look at presidential politics and foreign policy making from the aftermath of Vietnam to the NATO intervention in Kosovo The book illuminates the relationship between presidents domestic and foreign policy priorities and the key role of public opinion in constraining presidential initiatives particularly the ability of a president to use military force overseas In case studies ranging from the invasion of Grenada through the Gulf War and the dilemmas of Somalia Haiti Bosnia and Kosovo Melanson provides compelling portraits of presidents Nixon Carter Reagan Bush and Clinton and their different efforts to forge a foreign policy consensus *Deadlock and Disillusionment* Gary W. Reichard,2016-04-04 *Deadlock and Disillusionment* American Politics Since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era Rejects conventional wisdom that the dominant force shaping recent American politics in the last half century has been the rise of the Right Considers the achievements and frustrations of each administration from Nixon to Obama in its assessment of contemporary U S politics Features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent American politics Offers a concise comprehensive and thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay an aid to student research Predicting the Presidency George C. Edwards, III,2016-03-22 Millions of Americans including many experienced politicians viewed Barack Obama through a prism of high expectations based on a belief in the power of

presidential persuasion Yet many who were inspired by candidate Obama were disappointed in what he was able to accomplish once in the White House They could not understand why he often was unable to leverage his position and political skills to move the public and Congress to support his initiatives Predicting the Presidency explains why Obama had such difficulty bringing about the change he promised and challenges the conventional wisdom about presidential leadership In this incisive book George Edwards shows how we can ask a few fundamental questions about the context of a presidency the president's strategic position or opportunity structure and use the answers to predict a president's success in winning support for his initiatives If presidential success is largely determined by a president's strategic position what role does persuasion play Almost every president finds that a significant segment of the public and his fellow partisans in Congress are predisposed to follow his lead Others may support the White House out of self interest Edwards explores the possibilities of the president exploiting such support providing a more realistic view of the potential of presidential persuasion Written by a leading presidential scholar Predicting the Presidency sheds new light on the limitations and opportunities of presidential leadership

The Agenda Inside The Clinton White House Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable.
