The Ages Of Mad:

The Ages of Mad ,1990 Writing Mad Lives in the Age of the Asylum Michael Rembis,2025-02-03 The asylum at once a place of refuge incarceration and abuse touched the lives of many Americans living between 1830 and 1950 What began as a few scattered institutions in the mid eighteenth century grew to 579 public and private asylums by the 1940s About one out of every 280 Americans was an inmate in an asylum at an annual cost to taxpayers of approximately 200 million Using the writing of former asylum inmates as well as other sources *Writing Mad Lives in the Age of the Asylum* reveals a history of madness and the asylum that has remained hidden by a focus on doctors diagnoses and other interventions into mad people s lives Although those details are present in this story its focus is the hundreds of inmates who spoke out or published pamphlets memorials memoirs and articles about their experiences They recalled physical beatings and prolonged restraint and isolation They described what it felt like to be gawked at like animals by visitors and the hardships they faced re entering the community Many inmates argued that asylums were more akin to prisons than medical facilities and testified before state legislatures and the US Congress lobbying for reforms to what became popularly known as lunacy laws Michael Rembis demonstrates how their stories influenced popular legal and medical conceptualizations of madness and the asylum at a time when most Americans seemed to be groping toward a more modern understanding of the many different forms of insanity The result is a clearer sense of the role of mad people and their allies in shaping one of the largest state expenditures in the nineteenth and early twentieth centuries and at the same time a recovery of the social and political agency of these vibrant and dynamic mad writers *The Age of Agade* Benjamin R. Foster,2015-12-14 The Age of Agade is the first book length study of the Akkadian period of Mesopotamian history which saw the rise and fall of the world s first empire during more than a century of extraordinary political social and cultural innovation It draws together more than 40 years of research by one of the world s leading experts in Assyriology to offer an exhaustive survey of the Akkadian empire Addressing all aspects of the empire including its statecraft and military territory and cities arts religion economy and production The Age of Agade considers what can be said of Akkadian political and social history material culture and daily life A final chapter also explores how the empire has been presented in modern historiography from the decipherment of cuneiform to the present including the extensive research of Soviet historians summarized here in English for the first time Drawing on contemporaneous written and artifactual sources as well as relevant materials from succeeding generations Foster introduces the reader to the wealth of evidence available Accessibly written by a specialist in the field this book is an engaging examination of a critical era in the history of early Mesopotamia **The History of Witchcraft in Europe Throughout the Ages** John Ashton,William Godwin,Howard Williams,Frederick George Lee,Walter Scott,Jules Michelet,M. The Ages of Mad Mad Magazine, E. C. Publications, 1990 **The Age of Promiscuity** Doru Pop, 2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here Screening Images of American Masculinity in the Age of Postfeminism Elizabeth Abele,, John A. Gronbeck-Tedesco, 2015-12-03 This collection of essays presents a sampling of film and television texts interrogating images of U S masculinity Rather than using postfeminist as a definition of contemporary feminism this collection uses the term to designate the period from the late 1980s on as a point when feminist thought gradually became more mainstream The movies and TV series examined here have achieved a level of sustained attention from critical acclaim to mass appeal to cult status Instead of beginning with a set hypothesis on the effect of the feminist movement on images of masculinity on film and television these chapters represent a range of responses that demonstrate how the conversations within these texts about American masculinity are often open ended allowing both male characters and male viewers a wider range of options Defining the relationship between U S masculinity and American feminist movements of the twentieth century is a complex undertaking The essays collected for this volume engage prominent film and television texts that directly interrogate images

of U S masculinity that have appeared since second wave feminism The contributors have chosen textual examples whose protagonists actively struggle with the conflicting messages about masculinity These protagonists are more often works in progress acknowledging the limits of their negotiations and self actualization These chapters also cover a wide range of genres and decades from action and fantasy to dramas and romantic comedy from the late 1970s to today Taken together the chapters of Screening Images of American Masculinity in the Age of Postfeminism interrogate the possible screened in popular movies and television series confronting the multiple and competing visions of masculinity not after or beyond feminism but rather in its very wake The Age Revealed Charles James, 1927 Machine Learning Used in Biomedical Computing and Intelligence Healthcare, Volume II Honghao Gao, Ying Li, Zijian Zhang, Wenbing Zhao, 2022-05-27
