Lomelí, Clark A. Colahan, 2018-03 Miguel de Quintana was among those arriving in New Mexico with Diego de Vargas in 1694 He was active in his village of Santa Cruz de la Cañada where he was a notary and secretary to the alcalde mayor functioning as a quasi attorney Being unusually literate he also wrote personal poetry for himself and religious plays for his community His conflicted life with local authorities began in 1734 when he was accused of being a heretic What unfolded was a personal drama of intrigue before the colonial Inquisition In this fascinating volume Lomelí and Colahan reveal Quintana's writings from deep within Inquisition archives and provide a translation of and critical look at Quintana's poetry and religious plays The Power of Song Kristin Mann, 2010-04-08 The Power of Song explores the music and dance of Franciscan and Jesuit mission communities throughout the entire northern frontier of New Spain Its purpose is to examine the roles music played in teaching evangelization celebration and the formation of group identities There is no other work which looks comprehensively at the music of this region and time period or which utilizes music as a way to study the cultural interactions between Indians and missionaries Sacred Song in America Stephen A. Marini, 2003 In Sacred Song in America Stephen A. Marini explores the full range of American sacred music and demonstrates how an understanding of the meanings and functions of this musical expression can contribute to a greater understanding of

religious culture Marini examines the role of sacred song across the United States from the musical traditions of Native Americans and the Hispanic peoples of the Southwest to the Sacred Harp singers of the rural South and the Jewish music revival to the music of the Mormon Catholic and Black churches Including chapters on New Age and Neo Pagan music gospel music and hymnals as well as interviews with iconic composers of religious music Sacred Song in America pursues a historical musicological and theoretical inquiry into the complex roles of ritual music in the public religious culture of contemporary America

Transforming Saints Charlene Villaseñor Black, 2022-07-15 Transforming Saints explores the transformation and function of the images of holy women within wider religious social and political contexts of Old Spain and New Spain from the Spanish conquest to Mexican independence The chapters here examine the rise of the cults of the lactating Madonna St Anne St Librada St Mary Magdalene and the Suffering Virgin Concerned with holy figures presented as feminine archetypes images that came under Inquisition scrutiny as well as with cults suspected of concealing Indigenous influences Charlene Villaseñor Black argues that these images would come to reflect the empowerment and agency of women in viceregal Mexico Her close analysis of the imagery additionally demonstrates artists innovative responses to Inquisition censorship and the new artistic demands occasioned by conversion The concerns that motivated the twenty first century protests against Chicana artists Yolanda Lopez in 2001 and Alma Lopez in 2003 have a long history in the Hispanic world in the form of anxieties about the humanization of sacred female bodies and fears of Indigenous influences infiltrating Catholicism In this context Black also examines a number of important artists in depth including El Greco Murillo Josepe de Ribera Pedro de Mena Baltasar de Echave Ibañeta Juan Correa Cristóbal de Villalpando and Miguel Cabrera

Aesthetic Theology in the Franciscan Tradition Xavier Seibert, Oleg Bychkov, 2019-10-30 The book investigates the aesthetic theology embedded in the Franciscan artistic tradition The novelty of the approach is in applying concepts gleaned from Franciscan textual sources to create a deeper understanding of how art in all its sensual forms was foundational to the Franciscan milieu Chapters range from studies of statements about aesthetics and the arts in theological textual sources to examples of visual auditory and tactile arts communicating theological ideas found in texts The essays cover not only European art and textual sources but also Franciscan influences in the Americas found in both texts and artifacts
