Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need Shattered Voices explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a

new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful Shattered Voices contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions Shattered Voices offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed *The Town of Vichy and the Politics of Identity* Kirrily Freeman, 2022-01-31 This book explores the contours of civic identity in the town of Vichy France Over the course of its history Vichy has been known for three things its thermal spa resort its products especially Vichy water and Vichy cosmetics and its role in hosting the Vichy regime France's collaborationist government in the Second World War This last association has become an obsession for the residents of Vichy who feel stigmatized and victimized by the widespread habit of referring to France's wartime government as the Vichy regime This book argues that the stigma victimhood and decline suffered by Vichyssois are best understood by placing Vichy's politics of identity in a broader historical context that considers corporate as well as social and cultural history World War II Spencer C. Ignorance Michèle Roberts, 2013-01-22 In every war there are stories that do not surface You can try to forget but sometimes the past can return in the scent of a bar of soap in whispers darting through a village after mass in the color of an undelivered letter Jeanne Nerin and Marie Ang le Baudry grow up side by side in the Catholic village of Ste Madeleine but their worlds could not be more different Marie Ang le is the grocer s daughter inflated with ideas of her own piety and rightful place in society Jeanne s mother washes clothes for a living She used to be a Jew until this became too dangerous Jeanne does not think twice about stealing food when she is hungry nor about grasping the slender chances life throws at her Marie Ang le does not grasp she aspires to a life of comfort and influence When war falls out of the sky the forces that divide the two girls threaten to overwhelm those that bind them together In this dizzying new order the truth can be buried under a pyramid of recriminations Mich le Roberts s new novel is a mesmerizing exploration of guilt faith desire and judgment bringing to life a people at war in a way that is at once lyrical and shocking
