The Alliterative Tradition In The Fourteenth Century:

The Alliterative Tradition in the Fourteenth Century Bernard S. Levy, Paul E. Szarmach, 1981 **The Alliterative Tradition in the Fourteenth Century** Bernard S. Levy, Paul E. Szarmach, 1981 **Medieval Dream-Poetry** A. C. Spearing, 1976-11-11 This 1976 book is a study of the medieval English dream poem set against classical and medieval visionary and religious writings *The Alliterative Tradition in the Fourteenth Century* Paul E. Szarmach, Bernard S. Levy, 1979 **Discourse and Dominion in the Fourteenth Century** Jesse M. Gellrich, 1995-03-06 This wide ranging study of language and cultural change in fourteenth century England argues that the influence of oral tradition is much more important to the advance of literacy than previously supposed In contrast to the view of orality and literacy as opposing forces the book maintains that the power of language consists in displacement the capacity of one channel of language to take the place of the other to make the source disappear into the copy Appreciating the interplay between oral and written language makes possible for the first time a way of understanding the high literate achievements of this century in relation to momentous developments in social and political life Part I reassesses the nominalism of Ockham and the realism of Wyclif through discussions of their major treatises on language and government Part II argues that the chronicle histories of this century are tied specifically to oral customs and Part III shows how Sir Gawain and the Green Knight and Chaucer's Knight's Tale confront outright the displacement of language and dominion Informed by recent discussions in critical theory philosophy and anthropology the book offers a new synoptic view of fourteenth century culture As a critique of the social context of medieval literacy it speaks directly to postmodern debate about the politics of historicism today *Sir Gawain and the Classical Tradition* E.L. Ridsden, 2018-03-09 The 14th century English alliterative poem Sir Gawain and the Green Knight is admired for its morally complex plot and brilliant poetics A chivalric romance placed in an Arthurian setting it has since received acclaim for its commentary regarding important socio political and religious concerns The poem's technical brilliance blends psychological depth and vivid language to produce an effect widely considered superior to any other work of the time Although the poem is a combination of English alliterative meter romanticism and a wide ranging knowledge of Celtic lore continental materials and Latin classics the extent to which Classical antecedents affected or directed the poem is a point of continued controversy among literary scholars This collection of essays by scholars of diverse interests addresses this puzzling and fascinating question The introduction provides an expansive background for the topic and subsequent essays explore the extent to which classical Greek Roman Arabic Christian and Celtic influences are revealed in the poem's opening and closing allusions themes and composition Essays discuss the way in which the anonymous author of Sir Gawain employs figural echoes of classical materials cultural memoirs of past British tradition and romantic re-textualizations of Trojan and British literature It is argued that Sir Gawain may be understood as an Aeneas Achilles or Odysseus figure while the British situation in the 14th century may be understood as analogous to that of ancient Troy *The Knight on His Quest*

Piotr Sadowski, 1996 This book offers an integrated interpretative analysis of the major thematic aspects of the English fourteenth century romance *Sir Gawain and the Green Knight* The chief aim of author Piotr Sadowski is to look at the contents of the narrative in their entirety and to take full advantage of the poem's exceptional and widely praised harmony of structure and design Within that design Sadowski focuses on the poem's presentation of the main protagonist and his adventures seen first of all as a generalized metaphor of the human life understood as a spiritual quest and in a more historical sense as an expression and critique of certain ideals values and anxieties that characterized the late medieval institutions of the court chivalry and the Church Sadowski built the interpretive framework of *Sir Gawain* from an eclectic theoretical base that he believes is most valuable and useful in approaching medieval literature The main focus of the study remains the literary text itself created by an author who communicates his view of the world through the poem **The**

Oxford History of Poetry in English Julia Boffey, Anthony Stockwell Garfield Edwards, 2023 This volume explores a range of English verse from 1400 to 1500 It studies specific genres and modes of fifteenth century verse the contexts for its creation the material forms of its transmission and some of its individual practitioners **Signes and Sothe** Helen

Barr, 1994 An exploration through language of the literary historical and social tradition of poetry inspired by *Piers Plowman*

The Historical Literature of the Jack Cade Rebellion Alexander L. Kaufman, 2016-03-16 Accounts of Jack Cade's 1450 Rebellion an uprising of some 30 000 middle class citizens protesting Henry VI's policies and resulting in hundreds of deaths as well as the leader's execution form the dominant entry in a group of quasi historical documents referred to as the London chronicles of the Fifteenth Century However each chronicle is inherently different and highly subjective In the first study of the primary documents related to the Cade Rebellion Alexander L Kaufman shows that the chroniclers produced multiple representations of the event rather than a single unified narrative Aided by contemporary theories of historiography and historical representation Kaufman scrutinizes the differing representations and distinguishes the writers' objectiveness their underrated literary skills and their ideological positions on the rebellion and fifteenth century politics He demonstrates how the use of figurative language is related to writing about trauma and how descriptions of Cade's procession through London are a violent parody of midsummer festivals In an exploration of authenticity in the descriptions of Cade Kaufman also examines the characterization and plot devices that push Cade towards the realm of myth showing that representations of Cade are influenced by popular fifteenth century stories of Robin Hood
