Chesterton, 2012-04-26 Father Brown an ordinary priest whose unremarkable exterior conceals extraordinary crime solving ability is celebrated for his solutions to metaphysical mysteries a genre perfected by his creator G K Chesterton More than lighthearted comedies built around puzzling crimes these superbly written tales contain deeply perceptive philosophical reflections The Innocence of Father Brown 1911 was the first collection of stories featuring the ecclesiastical sleuth and is widely considered the best In this annotated edition of the collection the Chesterton scholar Martin Gardner provides detailed notes and background information on various aspects of such stories as The Blue Cross The Secret Garden The Invisible Man The Hammer of God The Eye of Apollo and seven more as well as an informative introduction and an extensive bibliography Included also are eight illustrations reproduced from the first edition The result is an indispensable companion for all Chesterton enthusiasts and a perfect introduction for anyone who has yet to meet the incomparable Father Brown [The Dark Side of G.K. Chesterton](#) John C. Tibbetts, 2021-10-18 This is a critical study of the great British man of letters G K Chesterton devoted to the novels stories and essays that explore the darker fringes of his wild imagination Everything is different in the dark wrote Chesterton perhaps you don't know how terrible a truth that is Chesterton's use of the theme of gargoyles provides the thematic structure of the book It covers the detective stories of Father Brown and others the locked rooms and miracle crimes in his writing his status as a science fiction writer and the riddles and paradoxes of three works Job The Man Who Was Thursday and the play The Surprise This volume also includes an interlude about Chesterton and Jorge Luis Borges and a robust appendix including interviews about the formation of Ignatius Press's Collected Chesterton **The Amazing Adventures of Bob Brown** Craig Saper, 2016-05-12 Contemporary publishing e media and writing owe much to an unsung hero who worked in the trenches of the culture industry for pulp magazines Hollywood films and advertising and caroused and collaborated with the avant garde throughout the first half of the twentieth century Robert Carlton Brown 1886 1959 turned up in the midst of virtually every significant American literary artistic political and popular or countercultural movement of his time from Chicago's Cliff Dweller's Club to Greenwich Village's bohemians and the Imagist poets from the American vanguard expatriate groups in Europe to the Beats Bob Brown churned out pulp fiction and populist cookbooks created the first movie tie ins and invented a surreal reading machine more than seventy five years ahead of e books He was a real life Zelig of modern culture With The Amazing Adventures of Bob Brown Craig Saper disentangles for the first time the many lives and careers of the intriguing figure behind so much of twentieth century culture Saper's lively and engaging yet erudite and subtly experimental style offers a bold new approach to biography that perfectly complements his multidimensional subject Readers are brought along on a spirited journey with Bob and the Brown clan Cora his mother Rose his wife and Bob a creative team who sometimes went by the name of CoRoBo

through globetrotting fortune making and fortune spending culture creating and culture exploring adventures Along the way readers meet many of the most important cultural figures and movements of the era and are witness to the astonishingly prescient vision Brown held of the future of American cultural life in the digital age Although Brown traveled and lived all around the world he took Manhattan with him and his New York City had boroughs around the world **Robert Smithson** Ann Reynolds,2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture Cumulative Paperback Index, 1939-1959 R. Reginald,2009-12-01 This was the first bibliography and guide to the American mass market paperback book and it remains one of the most definitive The major index is by author and lists author title publisher book number year of publication and cover price The title index lists titles and authors only The publisher index provides a history of that imprint with addresses number ranges and general physical description of the books issued This is the place that all study of the American paperback must begin *Robert Smithson, Land Art, and Speculative Realities* Rory O'Dea,2023-10-23 This book explores the ways Robert Smithson s art revealed and defamiliarized the constructs of rational reality in order to allow radically speculative alternatives to emerge In this way his art is conceived as a true fiction that eradicates a false reality By tracing the web of correspondences between Smithson and science fictional speculative and mystical modes of thought Rory O Dea explores the aesthetic encounters engendered by his art as a means to warp the contours of reality and loosen the boundaries of being human Given the current and impending catastrophes of the Anthropocene which represents the ever expanding planetary shadow cast by humanism the possibility of being other than human posited by Smithson s art is a matter of urgent concern

The book will be of interest to scholars working in art history contemporary art American studies and environmental humanities *Look Away!* Jon Smith, Deborah Cohn, 2004-07-21 Examines what happens to our paradigms of the American south if we understand the south hemispherically to include Latin America and the Caribbean **The Greatest Adventures of Arsène Lupin (Boxed-Set)** Maurice Leblanc, 2023-11-13 In *The Greatest Adventures of Arsène Lupin* Maurice Leblanc compiles a thrilling anthology of the escapades of his iconic gentleman burglar The stories seamlessly blend elements of mystery adventure and the clever twists typical of early 20th century detective fiction showcasing Leblanc's masterful storytelling and intricate plotting With a keen eye for detail and character development Leblanc crafts a nuanced portrayal of Lupin highlighting his wit and charm alongside his morally ambiguous nature set against the backdrop of a changing France in the Belle époque era Maurice Leblanc a prominent French author born in 1864 drew inspiration from the socio political landscape around him particularly the notions of justice and class disparity His unique position in the literary world often juxtaposed against contemporaries like Arthur Conan Doyle led him to create Lupin an anti hero who captivated readers with his audacity and intellect This boxed set not only serves as a gateway to Leblanc's creative world but also reflects his literary technique of intertwining social commentary with adventurous plots For readers and enthusiasts of vintage detective fiction this collection is a must read It offers a comprehensive introduction to Lupin's thrilling escapades making it an essential addition to both casual readers and scholarly collections Immerse yourself in the ingenious escapades of Arsène Lupin and rediscover the charm of early crime literature **The Reading Teacher**, 1965
