The English Journey Journal Of A Visit To France And Britain In 1826:

Post-war Architecture between Italy and the UK Lorenzo Ciccarelli, Clare Melhuish, 2021-10-14 Italy and the UK experienced a radical re organisation of urban space following the devastation of many towns and cities in the Second World War The need to rebuild led to an intellectual and cultural exchange between a wave of talented architects urbanists and architectural historians in the two countries Post war Architecture Between Italy and the UK studies this exchange exploring how the connections and mutual influences contributed to the formation of a distinctive stance towards Internationalism notwithstanding the countries contrasting geographic and climatic conditions levels of economic and industrial development and social structures Topics discussed in the volume include the influence of Italian historic town centres on British modernist and Brutalist architectural approaches to the design of housing and university campuses as public spaces post war planning concepts such as the precinct the tensions between British critics and Italian architects that paved the way for British postmodernism and the role of architectural education as a melting pot of mutual influence It draws on a wealth of archival and original materials to present insights into the personal relationships publications exhibitions and events that provided the crucible for the dissemination of ideas and typologies across cultural borders Offering new insights into the transcultural aspects of European architectural history in the post war years and its legacy this volume is vital reading for architectural and urban historians planners and students as well as social historians of the European post war period

Mendelssohn R. Larry Todd, 2003-10-23 An extraordinary prodigy of Mozartean abilities Felix Mendelssohn Bartholdy was a distinguished composer and conductor a legendary pianist and organist and an accomplished painter and classicist Lionized in his lifetime he is best remembered today for several staples of the concert hall and for such popular music as The Wedding March and Hark the Herald Angels Sing Now in the first major Mendelssohn biography to appear in decades R Larry Todd offers a remarkably fresh account of this musical giant based upon painstaking research in autograph manuscripts correspondence diaries and paintings Rejecting the view of the composer as a craftsman of felicitous but sentimental saccharine works termed by one critic moonlight with sugar water Todd reexamines the composer s entire oeuvre including many unpublished and little known works Here are engaging analyses of Mendelssohn s distinctive masterpieces the zestful Octet puckish Midsummer Night s Dream haunting Hebrides Overtures and elegiac Violin Concerto in E minor Todd describes how the composer excelled in understatement and nuance in subtle coloristic orchestrations that lent his scores an undeniable freshness and vividness He also explores Mendelssohn s changing awareness of his religious heritage Wagner s virulent anti Semitic attack on Mendelssohn s music the composer s complex relationship with his sister Fanny Hensel herself a child prodigy and prolific composer his avocation as a painter and draughtsman and his remarkable polylingual correspondence with the cultural elite of his time Mendelssohn A Life offers a masterful blend of biography and musical analysis Readers will discover many new facets of the familiar but misunderstood composer and gain new

perspectives on one of the most formidable musical geniuses of all time Studies in Tectonic Culture Kenneth Frampton, 2001-08-24 Composed of ten essays and an epilogue that trace the history of contemporary form as an evolving poetic of structure and construction the book's analytical framework rests on Frampton's close readings of key French and German and English sources from the eighteenth century to the present Kenneth Frampton's long awaited follow up to his classic *A Critical History of Modern Architecture* is certain to influence any future debate on the evolution of modern architecture *Studies in Tectonic Culture* is nothing less than a rethinking of the entire modern architectural tradition The notion of tectonics as employed by Frampton the focus on architecture as a constructional craft constitutes a direct challenge to current mainstream thinking on the artistic limits of postmodernism and suggests a convincing alternative Indeed Frampton argues modern architecture is invariably as much about structure and construction as it is about space and abstract form Composed of ten essays and an epilogue that trace the history of contemporary form as an evolving poetic of structure and construction the book's analytical framework rests on Frampton's close readings of key French and German and English sources from the eighteenth century to the present He clarifies the various turns that structural engineering and tectonic imagination have taken in the work of such architects as Perret Wright Kahn Scarpa and Mies and shows how both constructional form and material character were integral to an evolving architectural expression of their work Frampton also demonstrates that the way in which these elements are articulated from one work to the next provides a basis upon which to evaluate the works as a whole This is especially evident in his consideration of the work of Perret Mies and Kahn and the continuities in their thought and attitudes that linked them to the past Frampton considers the conscious cultivation of the tectonic tradition in architecture as an essential element in the future development of architectural form casting a critical new light on the entire issue of modernity and on the place of much work that has passed as avant garde A copublication of the Graham Foundation for Advanced Studies and The MIT Press *Hidden Texts, Hidden Nation* Kathryn N. Jones, Carol Lisa Tully, Heather Williams, 2020 This book offers a fresh and timely European perspective on Wales and Welshness Uncovering rare travel texts in French and German from 1780 to now it provides a valuable case study of a culture that is often minoritized and demonstrates the value of multilingual research and a transnational approach **A Strange Business** James Hamilton, 2015-09-15 Britain in the nineteenth century saw a series of technological and social changes which continue to influence and direct us today Its reactants were human genius money and influence its crucibles the streets and institutions its catalyst time its control the market In this rich and fascinating book James Hamilton investigates the vibrant exchange between culture and business in nineteenth century Britain which became a center for world commerce following the industrial revolution He explores how art was made and paid for the turns of fashion and the new demands of a growing middle class prominent among whom were the artists themselves While leading figures such as Turner Constable Landseer Coleridge Wordsworth and Dickens are players here so too are the patrons financiers collectors and industrialists publishers

entrepreneurs and journalists artists suppliers engravers dealers and curators hostesses shopkeepers and brothel keepers quacks charlatans and auctioneers Hamilton brings them all vividly to life in this kaleidoscopic portrait of the business of culture in nineteenth century Britain and provides thrilling and original insights into the working lives of some of the era's most celebrated artists

Subnature David Gissen, 2012-03-20 We are conditioned over time to regard environmental forces such as dust mud gas smoke debris weeds and insects as inimical to architecture Much of today's discussion about sustainable and green design revolves around efforts to clean or filter out these primitive elements While mostly the direct result of human habitation these subnatural forces are nothing new In fact our ability to manage these forces has long defined the limits of civilized life From its origins architecture has been engaged in both fighting and embracing these so called destructive forces In *Subnature* David Gissen author of our critically acclaimed *Big and Green* examines experimental work by today's leading designers scholars philosophers and biologists that rejects the idea that humans can somehow recreate a purely natural world free of the untidy elements that actually constitute nature Each chapter provides an examination of a particular form of subnature and its actualization in contemporary design practice The exhilarating and at times unsettling work featured in *Subnature* suggests an alternative view of natural processes and ecosystems and their relationships to human society and architecture R Sie n's Mosquito Bottleneck house in Trinidad uses a skin that actually attracts mosquitoes and moves them through the building while keeping them separate from the occupants In his building designs the architect Philippe Rahm draws the dank air from the earth and the gasses and moisture from our breath to define new forms of spatial experience In his Underground House Mollier House and Omnisport Hall Rahm forces us to consider the odor of soil and the emissions from our body as the natural context of a future architecture Cero 9's design for the Magic Mountain captures excess heat emitted from a power generator in Ames Iowa to fuel a rose garden that embellishes the industrial site and creates a natural mountain rising above the city's skyline *Subnature* looks beyond LEED ratings green roofs and solar panels toward a progressive architecture based on a radical new conception of nature

Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the

developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

An Oxford Companion to the Romantic Age Iain McCalman, Jon Mee, Gillian Russell, Clara Tuite, 1999-07-01

For the first time in this innovative reference book the Romantic Age is surveyed across all aspects of British culture rather than in literary or artistic terms alone The Companion s two part structure presents forty two essays on major topics by leading international experts cross referenced to an extensive alphabetical section covering all the principal figures events and movements in the broad culture of the period Aimed at students and general readers as well as scholars the essays constitute an accessible pluralistic and modern social history of the epoch the alphabetical entries can either be used alongside them for deeper information on specific subjects or as a free standing reference tool The volume as a whole embraces both high and low culture and explores its subject across the whole breadth of England Scotland Wales and Ireland The book s multi disciplinary approach treats Romanticism both in aesthetic terms its meaning for painting music design architecture and above all literature and as a historical epoch of revolutionary transformations which ushered in modern democratic and industrialized society In this period Wedgwood turned taste into a commercial enterprise Pierce Egan took Britain by storm with his sensational accounts of low life in the capital and Mary Shelley created in *Frankenstein* one of the enduring myths of scientific advance The Companion revitalizes canonical Romantic figures in the context of the historical events political and linguistic debates commercial pressures and plebeian subcultures of their day as well as bringing back into historical focus individuals and events whose impact has often been muffled or forgotten With over 100 integrated illustrations bibliographies accompanying all the major essays and an index to Part 1 this is the most comprehensive volume of its kind offering a unique breadth of information to scholars and students of eighteenth and nineteenth century British culture literature and history
