The Entrepreneurial Mind:

The Entrepreneurial Mind Jeffry A. Timmons, 1989 THE ENTREPRENEURIAL MIND Jeffry A Timmons Harvard Business School A well written how to form build planning the pros cons of family businesses Particular attention is also given to the need for ethical standards Recommended Library Journal A close look at the psychology of the entrepreneur how that type of personality reacts with people the world at large Timmons does a good job of exploding myths misconceptions offering a wealth of insight into success failure the hard work it takes to succeed in starting up a business or taking over the reins of an established or family owned enterprise The pitfalls of entrepreneurial life are analyzed but more importantly the positive attributes of the entrepreneur are emphasized Numerous real life case studies supplement the coverage Booklist *The Entrepreneurial Mindset* Rita Gunther McGrath, Ian MacMillan, 2000-10-11 The Entrepreneurial Mindset offers a refreshingly practical blueprint for thinking and acting in environments that are fast paced rapidly changing and highly uncertain It provides both a guide to energizing the organization to find tomorrow s opportunities and a set of entrepreneurial principles you can use personally to transform the arenas in which you compete The authors present simple but powerful ways to stop thinking and acting by the old rules and start thinking with the discipline of a habitual entrepreneur They show how to eliminate paralyzing uncertainty by creating an entrepreneurial frame that shapes a shared understanding of what is to be accomplished create a richly stocked opportunity register to redesign existing products find new sources of differentiation resegment existing markets reconfigure market spaces and seize the huge upside potential of breakthroughs build a dynamic portfolio of businesses and options that continuously move your organization toward the future while simultaneously leaving the past behind execute dynamically your ideas so that you can move fast with confidence and without undue risk and develop your own way of leading with an entrepreneurial mindset to create a vibrant entrepreneurial climate within your organization **Understanding the Entrepreneurial Mind** Alan L. Carsrud, Malin Brännback, 2009-07-30 Interest in the functioning of the human mind can certainly be traced to Plato and Aristotle who often dealt with issues of perceptions and motivations While the Greeks may have contemplated the human condition the modern study of the human mind can be traced back to Sigmund Freud 1900 and the psychoanalytic movement He began the exploration of both conscious and unconscious factors that propelled humans to engage in a variety of behaviors While Freud s focus may have been on repressed sexuality our focus in this volume lies elsewhere We are concerned herein with the expression of the cognitions motivations passions intentions perceptions and emotions associated with entrepreneurial behaviors We are attempting in this volume to expand on the work of why entrepreneurs think differently from other people Baron 1998 2004 During the decade of the 1990s the field of entrepreneurship research seemingly abandoned the study of the entrepreneur This was the result of earlier research not being able to demonstrate some unique entrepreneurial personality trait or characteristic Brockhaus and Horwitz 1986 It was both a naive and simplistic search for the holy grail of what made entrepreneurs the way

they are However many of the researchers in this volume have never gave up the belief that a better und standing of the mind of the entrepreneur would give us a better understanding of the processes that lead to the creation of new ventures

Revisiting the Entrepreneurial Mind Malin Brännback,Alan L. Carsrud,2017-02-08 The book explores various aspects of cognitive and motivational psychology as they impact entrepreneurial behavior Building upon the 2009 volume *Understanding the Entrepreneurial Mind* the editors and contributors explore the cognitions motivations passions intentions perceptions and emotions associated with entrepreneurial behaviors in each case preserving their original chapters and enhancing them with thoughtful and targeted updates reflecting on the most recent developments in theory and practice telling the story of what has transpired in the last decade in the field of entrepreneurial psychology The volume addresses such questions as Why do some people start business and others do not Is entrepreneurship a natural quality or can it be taught Do entrepreneurs think differently from others While there is a great deal of literature exploring the dynamics of new firm creation policies to promote innovation and technology transfer and the psychology of creativity research on entrepreneurial mindset or cognition is relatively new and draws largely from such related fields as organizational behavior cognitive and social psychology career development and consumer research In this book editors Br nnback and Carsrud have reassembled the contributors to *Understanding the Entrepreneurial Mind* to discuss new research paradigms given their vantage point years after the original volume was published Featuring the most current literature references *Revisiting the Entrepreneurial Mind* continues to challenge conventional approaches to entrepreneurship and articulate an agenda for future research
