The Epic In History

William Nester

The Epic In History:

The Epic in History Sydney Association for Studies in Society and Culture, 1994 Description currently unavailable

Epic and History David Konstan, Kurt A. Raaflaub, 2009-10-27 With contributions from leading scholars this is a unique cross cultural comparison of historical epics across a wide range of cultures and time periods which presents crucial insights into how history is treated in narrative poetry The first book to gain new insights into the topic of epic and history through in depth cross cultural comparisons Covers epic traditions across the globe and across a wide range of time periods Brings together leading specialists in the field and is edited by two internationally regarded scholars An important reference for scholars and students interested in history and literature across a broad range of disciplines

The History of the Epic A. Johns-Putra, 2006-07-11 This book presents a history of the epic from the classical age to the present day It deals not just with the well know epics of antiquity and the Renaissance but also pursues developments in more recent literature and film It offers an exploration of the changes that have taken place in the genre from Homer to Hollywood

The Epic History of the American West William Nester, 2025-10-30 The American West evokes powerful imagery warriors on horseback cowboys in saloons and pioneers in wagons heading westward It symbolizes freedom reinvention and the American Dream However this idealized image obscures the complex often violent history of the West which is as unjust as it is inspiring Historians debate the boundaries of the American West but it is clear that it is a dynamic concept both a place and an idea evolving over time For three centuries the frontier and western history overlapped until the frontier disappeared in 1890 Early narratives celebrated explorers settlers and entrepreneurs who developed the West portraying them as heroic figures However modern historians criticize this triumphant view highlighting the exploitation racism and ecological damage caused by Western expansion They focus on marginalized groups racial minorities women and workers while critiquing the often overlooked injustices faced by Indigenous peoples and others This revisionist perspective emphasizes the darker aspects of Western history challenging previous glorifications of development and heroism The Epic History of the American West bridges traditional and revisionist views exploring the region's complex legacy from violent struggles to ongoing cultural and ideological conflicts It reflects the West's enduring significance blending history and mythology to reveal its multifaceted nature

The Epic History of Biology Anthony Serafini, 2013-11-11 The search for our elusive human origins and an understanding of the mysteries of the human body have challenged the most inquisitive and imaginative thinkers from Egyptian times through the twentieth century In The Epic History of Biology Anthony Serafini a distinguished philosopher and historian of science regales the reader with the triumphs and failures of the geniuses of the life sciences The subtleties of the animal kingdom anatomy zoology and reproduction along with the complexities of the plant kingdom have fascinated humanity as far back as 5000 years ago Astounding ancient knowledge of the arcane curing powers of herbs as well as early experimentation with different chemical combinations for such purposes as mummification led to today's biological

technology Innovative pioneers such as Aristotle Galen Hippocrates and Vesalius challenged the limits of knowledge and single mindedly pursued their work often in the face of blind superstition In superb lyrical prose Serafini recreates the ideas and theories of these revolutionaries from ancient times through today against the backdrop of the dogma and prejudices of their time He explores the inspired revelations that gave birth to such discoveries as the controversial theory of evolution the humble origins of genetics the fantastic predictions of quantum mechanics and the infinite promise of computer technology Even today the biological sciences are undergoing rapid and kaleidoscopic changes Every new insight gives rise to a myriad of new ethical questions and responsibilities The Epic History of Biology confronts these issues head on and predicts the wondrous new directions biology will follow *The Afro-Modernist Epic and Literary History* K. Schultz,2013-11-19

Analyzing the poets Melvin B Tolson Langston Hughes and Amiri Baraka this study charts the Afro Modernist epic Within the context of Classical epic traditions early 20th century American modernist long poems and the griot traditions of West Africa Schultz reveals diasporic consciousness in the representation of African American identities **Romance and History** Jon Whitman,2015-01-08 A wide ranging account of the relationship between romance and history from the medieval to the early modern period [Return of the Epic Film](#) Andrew Elliot,2015-03-05 With the success of Gladiator both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years However this return raises important new questions which remain unanswered Why did the epic come back and why did it fall out of fashion Are these the same kinds of epics as the 1950s and 60s or are there aesthetic differences Can we treat Kingdom of Heaven 300 and Thor indiscriminately as one genre Are non Western histories like Hero and Mongol epics too Finally what precisely do we mean when we talk about the return of the epic film and why are they back The Return of the Epic Film offers a fresh way of thinking about a body of films which has dominated our screens for a decade With contributions from top scholars in the field the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty first century

Invisible Armies Max Boot,2013-01-10 New York Times Bestseller A Washington Post Notable Book Nonfiction Named one of the Best Books of the Year by Foreign Policy A New York Times Book Review Editors Choice Selection Destined to be the classic account of what may be the oldest hardest form of war John Nagl Wall Street Journal Invisible Armies presents an entirely original narrative of warfare which demonstrates that far from the exception loosely organized partisan or guerrilla warfare has been the dominant form of military conflict throughout history New York Times best selling author and military historian Max Boot traces guerrilla warfare and terrorism from antiquity to the present narrating nearly thirty centuries of unconventional military conflicts Filled with dramatic analysis of strategy and tactics as well as many memorable characters from Italian nationalist Giuseppe Garibaldi to the Quiet American Edward Lansdale Invisible Armies is as readable as a novel Michael Korda Daily Beast and a timely reminder to politicians and generals of the hard earned lessons of history Economist

African Dominion Michael A. Gomez,2019-08-27 In a radically new account of the importance of early Africa in global

history Gomez traces how Islam's growth in West Africa along with intensifying commerce that included slaves resulted in a series of political experiments unique to the region culminating in the rise of empire
