The Ethics Class:

The Ethics Class Bob Hausladen, 2003 Within the United States and throughout the world there is an abundance of rhetoric about the importance of education The idea that education is vitally important seems obvious However often missing in the rhetoric is a true appreciation of the depth and complexity of what it actually means to be educated How does education happen The Ethics Class offers no clear cut answers What it does offer is an open ended exploration of this depth and complexity through conversation poetry and metaphor It is simply one possible exploration Topics include among others responsibility character indoctrination acting vs being emotion spirituality relationship and rationality At this moment in human history basic questions about humanity and the state of the world seem particularly poignant Addressing these questions intelligently may be necessary for all of our survival The Ethics Class ponders what it might mean to intelligently address

A Companion to Atheism and Philosophy Graham Oppy, 2019-03-22 PROSE 2020 Single Volume Reference Finalist

Philosophers throughout history have debated the existence of gods but it is only in recent years that the absence of such a belief has become a significant topic of philosophical analysis in particular for philosophers of religion Although it is difficult to trace the historical contours of atheism as the lack of belief in a higher power the reasoned reflective and thoughtful rejection of theism has become commonplace in many modern intellectual circles including academic philosophy where disciplinary data indicates that a large majority of philosophers self identify as atheists As the first book of its kind to bring together a collection of writing on the philosophical aspects of atheism both historical and contemporary the Companion to Atheism and Philosophy stages an explicit constructive and comprehensive conversation between philosophy and atheism to examine the ways in which atheist thought intersects with ideas and positions from a variety of philosophical and theological sub disciplines The Companion begins by addressing the foundational questions and lingering controversies which underpin philosophical thought about atheism exploring the implications of major developments in the history of philosophy for the modern atheistic worldview Divided into eight distinct sections essays consider a range of thinkers who were widely believed to have been atheists including David Hume Mary Wollstonecraft Karl Marx and Elizabeth Cady Stanton and survey different kinds of objections to theism and atheism including logical evidential normative and prudential Later chapters trace the relationship between atheism and metaphysics epistemology ethics and political philosophy oriented around topics such as pragmatism postmodernism freedom education violence and happiness Deftly curated and thoughtfully composed A Companion to Atheism and Philosophy is the most ambitious and authoritative account of philosophical thinking on atheism available and is a first rate resource for academics professionals and students of philosophy religious studies and theology
