

Spotting the Signs of Elder Abuse

Each year, hundreds of thousands of adults over the age of 60 are abused, neglected, or financially exploited.

Here are signs that an older adult in your life may be experiencing abuse:

Physical

Unexplained injuries or physical signs of punishment or restraint, such as bruises, scars, or burns

Emotional

Depression, anxiety, or changes in behavior

Neglect

Preventable health problems such as bedsores or unclean living conditions

Abandonment

Leaving an older adult who needs help alone without planning for their care

Sexual

Changes in mood, becoming withdrawn, or other physical signs

Financial

Changes in banking or spending patterns

If you suspect an older adult is being abused, talk with them and report what you see to an authority.

The Etiology Of Elder Abuse By Adult Offspring:

The Etiology of Elder Abuse by Adult Offspring Georgia Jean Anetzberger,1987 Understanding Elder Abuse in Minority Populations Toshio Tatara,2021-10-30 First published in 1999 Research on elder abuse in the United States has made great strides in recent years As a result we have been able to define and discover the causes of elder abuse design tools to assess the risk of abuse develop and implement treatment and prevention strategies and evaluate programs for victims and perpetrators However this research has been derived from studies whose subjects were primarily Caucasian This is not because elder abuse does not take place in minority communities but rather because researchers wanted first to study the issue in its broadest sense

The Clinical Management of Elder Abuse Georgia J Anetzberger,2012-12-06 Learn to detect elder abuse and provide the help that your neglected or abused elderly clients need Even to clinicians experienced in managing difficult client situations elder abuse is perplexing complex and ethically charged This kind of abuse can be hard to detect with its subtle manifestations and indicators that could just as easily reflect other problems or illnesses It can seem impossible to control particularly when the victim refuses help or denies the seriousness of mistreatment Moreover decision making when dealing with interventions for elder abuse is rarely easy and is frequently clouded by ethical dilemmas The Clinical Management of Elder Abuse can help This essential guide for present and future clinicians provides you with multidisciplinary perspectives on detecting elder abuse situations and interventions that can make a real difference in the lives of clients Three case studies are presented and then examined from the professional perspectives of an attorney a physician a nurse and a social worker What these professionals have to say will leave you better informed about the dynamics and complexities of elder abuse about important steps that must be taken in the clinical management of elder abuse and about the importance and application of multidisciplinary teams in elder abuse work The handy figures lists of definitions and tables you ll find in this well referenced book make important concepts and complex information easy to access and understand The Clinical Management of Elder Abuse shows how professionals in the above disciplines can address the effects of elder abuse which may manifest as physical effects including pain and injury sleep disturbances eating problems and headaches behavioral effects including anger helplessness reduced coping abilities and suicidal actions psychological effects which can be wide ranging and include denial fear anxiety and depression social effects such as increased dependence withdrawal and lessened contact with the outside world As the baby boom generation ages incidents of elder abuse are certain to continue to increase Whether you are a student an educator an experienced clinician or a novice in the field The Clinical Management of Elder Abuse is a resource that you ll return to again and again as you work to improve the lives of this important growing population
