The Hidden History of Earth Expansion Stephen W. Hurrell, 2020-05-14 For more than half a century the theory of continental drift was widely derided Innovators developing the radical theory were labelled as unscientific by well known science authorities But then in the space of a few years virtually all opposition dramatically collapsed Continental drift transformed into plate tectonics and became widely acknowledged as one of the most profound scientific revolutions of the twentieth century Yet a number of science innovators who had been closely involved with creating this new theory of the Earth continued to research an even more radical theory They saw evidence that the new geological theory was incomplete arguing that continental drift was caused by the Earth expanding in size These science innovators give us a unique insight into their experiences They relate their personal histories of Earth expansion in 14 original essays The Hidden History of Earth Expansion presents the unique personal histories of British American Australian German Polish Romanian Indian Albanian and Jamaican science innovators as they strived to produce a modern theory of the Earth It includes chapters expressly written for the book by some of the most well known researchers into Earth expansion Hugh G Owen Cliff Ollier Karl Heinz Jacob James Maxlow Jan Koziar Stefan Cwojdziski Carl Strutinski Stephen W Hurrell John B Eichler William C Erickson David Noel Zahid A Khan Ram Chandra Tewari Vedat Shehu and Richard Guy In addition to furnishing us with their personal histories of Earth expansion and the seemingly overwhelming evidence for its confirmation the authors highlight areas where further research is required

Liberal Modernity and Its Adversaries Milan Zafirovski, 2007 This is a book about modern liberal society and its adversaries The book rediscovers and rehabilitates much maligned especially in America liberalism as the ideal system of liberty in relation to anti liberalism as one of un freedom It rediscovers liberal modernity as a free equal and just social system and time thus most compatible with and enhancing of human civilization ushering in the 21st century It exposes anti liberal adversaries especially conservatism as ideologies and systems most inappropriate with and destructive of civilization The book rediscovers liberal modernity as the master process and destination of Western civilization and its anti liberal adversaries notably conservatism as the ghosts of a dead past The anti liberal rumors of the death of liberalism are greatly exaggerated

The Building in the Text Roy Eriksen, 2001 In *The Building in the Text* Roy Eriksen shows that Renaissance writers conceived of their texts in accordance with architectural principles His approach opens the way to wide ranging discussions of the structure and meaning of a variety of literary texts and also provides new insights into the famed architectural ekphrases of Alberti and Vasari Analyzing such words as plot topos fabrica and stanza Eriksen discloses the fundamental spatial symmetries and complexities in the writings of Ariosto Shakespeare and Milton among other major figures Ultimately his book uncovers and clarifies a tradition of literary architecture that is rooted in antiquity and based on correspondences regarded as ordering principles of the cosmos Eriksen

s book will be of interest to art historians historians of literature and those concerned with the classical heritage rhetoric music and architecture

Theatre in the Expanded Field Alan Read, 2013-12-05 Theatre in the Expanded Field is a fiercely original bold and daring exploration of the fields of theatre and performance studies and the received narratives and histories that underpin them Rich with interdisciplinary reference international eclectic and broad ranging in its examples it offers readers a compelling and provocative reassessment of the disciplines one that spans pre history to the present day Sixty years ago in 1962 Richard Southern wrote a remarkable book called The Seven Ages of the Theatre It was unusual in its time for taking a trans disciplinary new historical and avowedly internationalist approach to its subject nothing less than a totalizing view of its field Theatre in the Expanded Field does not attempt to mimic Southern s work but rather takes his spirit of adventure and ambition as its frame for the contemporary moment of performance and its diverse pasts Identifying seven ways of exploring the performance field from pre history to postdramatic theatre the book presents studies of both contemporary and historical works not as a chronological succession but in keeping with their coeval qualities as movements or generations of connection and interaction dissensus and interruption It does this with the same purpose as Richard Southern s original work to provide for the planning of responsive performance spaces now Illustrated throughout with line drawings Theatre in the Expanded Field is as richly rewarding as it is ambitious and expansive in its vision

Social Work with the Aged and Their Families Roberta R. Greene, 2017-07-12 In recent years theoreticians researchers and practitioners have become increasingly interested in older adults and the aging process This volume draws on related disciplines to better understand the biological psychological and social aspects of aging Social Work with the Aged and Their Families covers areas of central interest to those coping with the needs of an aging population Among the topics addressed are assessment of the aging taking into account biological age psychological age and socio cultural and spiritual age Greene also considers the importance of the family system family roles and development functional age individual and family intervention and group and community interventions The scientific and systematic study of aging is known as gerontology Geriatric social workers are those who have applied established social work theories in an attempt to find suitable techniques for working with their elderly clients The need for specialized services has given birth to various services and programs For example meals on wheels and home health care services have been designed to meet specific physical needs of older adults However mental health services have lagged far behind as practitioners struggled to adapt such specialties as family therapy to families of later years A major contribution of this book now in its third edition is the functional age model of intergenerational treatment FAM which is an outgrowth of that demand The functional age model of intergenerational treatment is an integrative theoretical framework for social workers interested in clinical social work practice with older adults and their families Since its initial construction in 1986 the model has been augmented by more recent concepts related to successful aging spirituality and resiliency These additions together with the original assessment and intervention

strategies present the major converging conceptual trends that constitute a model for twenty first century social work practice in the field of aging **The Sasanian World through Georgian Eyes** Dr Stephen H Rapp Jr,2014-09-28 Georgian literary sources for Late Antiquity are commonly held to be later productions devoid of historical value As a result scholarship outside the Republic of Georgia has privileged Graeco Roman and even Armenian narratives However when investigated within the dual contexts of a regional literary canon and the active participation of Caucasias diverse peoples in the Iranian Commonwealth early Georgian texts emerge as rich repositories of late antique attitudes and outlooks
