The Eyes of the Pineapple Roeland A. Burgler, 1990 Studie over de Rode Khmer waarin de auteur beschrijft hoe deze groep de macht kon grijpen en waarom zij een gewelddadig regime voert

The Emergence of Global Maoism Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

A History of Cambodia David Chandler, 2018-05-04 In this clear and concise volume author David Chandler provides a timely overview of Cambodia a small but increasingly visible Southeast Asian nation Praised by the Journal of Asian Studies as an original contribution superior to any other existing work this acclaimed text has now been completely revised and updated to include material examining the early history of Cambodia whose famous Angkorean ruins now attract more than one million tourists each year the death of Pol Pot and the revolution and final collapse of the Khmer Rouge The fourth edition reflects recent research by major scholars as well as Chandler's long immersion in the subject and contains an entirely new section on the challenges facing Cambodia today including an analysis of the current state of politics and sociology and the increasing pressures of globalization This comprehensive overview of Cambodia will illuminate for undergraduate students as well as general readers the history and contemporary politics of a country long misunderstood

Intervention & Change in Cambodia Sorpong Peou, 2000 This book contributes to the ongoing debate on the complex transition in weak states from war to peace and from authoritarianism to liberal democracy The analysis assesses the impact of foreign intervention on Cambodia's state and societal structures during the period 1954-98 Three forms of intervention are discussed competitive cooperative and co optative None of them contributed to the emergence of what is called a hurting balance of power a necessary if not sufficient condition for democratic compromise and maturation none has the capacity to allow democratization to emerge and mature in the immediate term While competitive intervention perpetuated hegemonic instability cooperative and co optative

intervention seemed to lead the country in the direction of illiberal democracy in which greater hegemonic stability exists and may persist for some time

The Cinema of Rithy Panh Leslie Barnes, Joseph Mai, 2021-07-16 The essays in this groundbreaking collection examine how celebrated Cambodian director Rithy Panh counters the abstraction of mass violence with a cinema anchored in the body the physical trace the direct testimony and the living landscape They explore his unique aesthetic sensibility examining the dynamic and sensuous images through which he suggests that everything has a soul

China, Cambodia, and the Five Principles of Peaceful Coexistence Sophie Richardson, 2009-12-10 Why would China jeopardize its relationship with the United States the former Soviet Union Vietnam and much of Southeast Asia to sustain the Khmer Rouge and provide hundreds of millions of dollars to postwar Cambodia Why would China invest so much in small states such as those at the China Africa Forum that offer such small political economic and strategic return Some scholars assume pragmatic or material concerns drive China's foreign policy while others believe the government was once and still is guided by Marxist ideology Conducting rare interviews with the actual policy makers involved in these decisions Sophie Richardson locates the true principles driving China's foreign policy since 1954's Geneva Conference Though they may not be right in a moral sense China's ideals are based on a clear view of the world and the interaction of the people within it a philosophy that even in an era of unprecedented state power remains tied to the origins of the PRC as an impoverished undeveloped state The Five Principles of Peaceful Coexistence mutual respect for territorial integrity and sovereignty nonaggression noninterference equality and mutual benefit and peaceful coexistence live at the heart of Chinese foreign policy and set the parameters for international action In this model of state to state relations the practices of extensive diplomatic communication mutual benefit and restraint in domestic affairs become crucial to achieving national security and global stability

Irrational Publics and the Fate of Democracy Stephen J.A. Ward, 2024-10-15 Across cultures democracies struggle with intolerant groups misinformation social media conspiracies and extreme populists Egalitarian cultures cannot always withstand this swing towards the irrational In *Irrational Publics and the Fate of Democracy* Stephen Ward combines history and evolutionary psychology for a comprehensive view of the problem arguing that social irrationality is likely to occur when social tensions trigger a person's enemy stance ancient extreme traits in human nature such as aggressiveness desire for domination paranoia of the other and us versus them tribalism Analyzing eruptions of public irrationality from apocalyptic medieval crusades and Nazi doctors in extermination camps to suicidal cults Ward presents his evolutionary theory of public irrationalism demonstrating that human nature has both extreme Darwinian traits promoting competition and sociable traits of cooperation and empathy The issue is which set of traits will be activated by the social ecology Extreme traits once adaptive when humans were hunter gatherers have become maladaptive and dangerous Catalyzed by intolerant media and demagogues the swing towards the irrational weakens democracy and may lead to human extinction through nuclear holocaust *Irrational Publics and the Fate of Democracy* concludes with practical recommendations

on what society should do to resist the engines of unreason within and without us *Not Just Victims* Audrey U. Kim, 2003

Not Just Victims contains twelve oral histories based on conversations with Cambodian community leaders in eight American cities Long Beach Philadelphia Washington D C Seattle Portland Tacoma and the Massachusetts towns of Fall River and Lowell Unlike the dozens of autobiographies published by Cambodians that focus largely on their victimization these narratives describe how Cambodian refugees have adapted to life in the United States Sucheng Chan's extensive introduction provides a historical framework she discusses the civil war 1970-75 the bloody Khmer Rouge revolution 1975-79 the border war during the Vietnamese occupation of Cambodia 1979-89 and the additional travails faced by those who escaped to holding camps in Thailand The book also includes an essay on oral history and a substantial bibliography **Reigns of Terror** Patricia Marchak, 2003-11-10 Marchak departs significantly from mainstream explanations of genocide rejecting racism as a fundamental cause and disputing a wide range of other explanations that cite racist and religious ideologies perception of threat authoritarianism and unique historical circumstances as primary causes She argues that while these variables may be contributing factors states move toward human rights crimes because their governments can no longer sustain a particular social hierarchy Reasons for their paralysis may be economic environmental demographic or purely political In an attempt to re-establish the former status quo they turn against groups low on the hierarchical scale some of which may be defined in ethnic terms If governments come into power as revolutionary forces they may commit such crimes in order to establish a new social hierarchy Other necessary but insufficient conditions for state crimes include the military capacity for committing mass murder the creation of ideology that justifies such action and the failure of independent institutions such as the mass media and universities to counter ideological and military forces *Reigns of Terror* is highly accessible and aimed at an audience of senior undergraduates graduate students and faculty in the social sciences as well as a more general reading public concerned about the many state sponsored crimes against humanity still occurring in the world *Khmer Women on the Move* Annuska Derks, 2008-04-11 This is a fascinating ethnography about young Khmer women moving to the city to work in the garment factories in prostitution and as street sellers The author makes good use of new theoretical approaches in anthropology that focus on negotiation and creativity in situations of rapid change The result is not only a welcome new book on post war Cambodia but an important addition to the literature on women migration and labor in Southeast Asia and the world Judy Ledgerwood Northern Illinois University *Khmer Women on the Move* offers a fascinating ethnography of young Cambodian women who move from the countryside to work in Cambodia's capital city Phnom Penh Female migration and urban employment are rising triggered by Cambodia's transition from a closed socialist system to an open market economy This book challenges the dominant views of these young rural women that they are controlled by global economic forces and national development policies or trapped by restrictive customs and Cambodia's tragic history The author shows instead how these women shape and influence the processes of change taking place in

present day Cambodia Based on field research among women working in the garment industry prostitution and street trading the book explores the complex interplay between their experiences and actions gender roles and the broader historical context The focus on women involved in different kinds of work allows new insight into women s mobility highlighting similarities and differences in working conditions and experiences Young women s ability to utilize networks of increasing size and complexity allows them to move into and between geographic and social spaces that extend far beyond the village context Women s mobility is further expressed in the flexible patterns of behavior that young rural women display when trying to fulfill their own modern aspirations along with their family obligations and cultural ideals
