The Failure of Liberalism Fritz Richard Stern,1992

Hermann Cohen and the Crisis of Liberalism Paul E.

Nahme,2019-03-28 A fresh look at a nineteenth century Jewish philosopher whose theology offers a beacon in an illiberal twenty first century world Recommended Choice Hermann Cohen is often held to be one of the most important Jewish philosophers of the nineteenth century Paul E Nahme in this new consideration of Cohen liberalism and religion emphasizes the idea of enchantment or the faith in and commitment to ideas reason and critique the animating spirits that move society forward Nahme views Cohen through the lenses of the crises of Imperial Germany the rise of antisemitism nationalism and secularization to come to a greater understanding of liberalism its Protestant and Jewish roots and the spirits of modernity and tradition that form its foundation Nahme s philosophical and historical retelling of the story of Cohen and his spiritual investment in liberal theology present a strong argument for religious pluralism and public reason in a world rife with populism identity politics and conspiracy theories

Fukuzawa Yukichi's Bourgeois Liberalism Minhyuk

Hwang,2019-07-23 Fukuzawa Yukichi s Bourgeois Liberalism introduces readers to the East Asian Enlightenment led by Fukuzawa Yukichi one of the most important figures in the intellectual history of modern Japan Despite his impact on political theory and modern Japanese history Fukuzawa remains under researched in Western academia and while a few English language books have been written about Fukuzawa none have dealt with his political theory This book describes Fukuzawa as a character with universal relevance and a unique view of the Enlightenment tradition Emphasizing the power of bourgeois liberalism and the debate regarding its potential for transforming the strict class caste society of Tokugawa Japan Hwang discusses Fukuzawa s belief in the significance of individual autonomy progress and liberal rule of law in developing his project of the East Asian enlightenment as well as his supposed betrayal of his early commitments due to his existential desire for Western recognition of Japan s greatness The book ends with an analysis of the complex relation between liberalism and progress in the East Asian context

Beyond the Swastika Peter O'Brien,2002-09-11 O'Brien

argues convincingly that fears of a resurgent German nationalism are exaggerated He highlights the technocratic liberalism of the elite which paradoxically hinders full rights of political participation for minorities

The Closing of the Liberal

Mind Kim R. Holmes,2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti

capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

The Oxford Handbook of the Weimar Republic Nadine Rossol, Benjamin Ziemann, 2022 The Weimar Republic was a turbulent and pivotal period of German and European history and a laboratory of modernity The Oxford Handbook of the Weimar Republic provides an unsurpassed panorama of German history from 1918 to 1933 offering an indispensable guide for anyone interested in the fascinating history of the Weimar Republic

Learning Empire Erik Grimmer-Solem, 2019-09-26 The First World War marked the end point of a process of German globalization that began in the 1870s Learning Empire looks at German worldwide entanglements to recast how we interpret German imperialism the origins of the First World War and the rise of Nazism

The Contemporary Relevance of History Salo Wittmayer Baron, 1986 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style

of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence
