Author Michaela Fierov works with three metaphysical expectations which are shared in discourses of graphology and forensic analysis. The first expectation tends to reveal the signer's soul: a handwritten signature naturally mirrors the unique psychological qualities of the signer. The second expectation tends to guarantee the originality of the signer's trace: a handwritten signature proves physical contact between the signed document and the writing tool authentically moved by the signer's hand. The third expectation tends to recognize the signer's legal identity: a handwritten signature is expected to reproduce the signer's personal style which enables identification by legal authorities. In a methodologically inventive and semiotically based dialogue with Derrida's deconstruction, Fierov situates this triple expectation in the interval between life and law. Challenging coverage of this topic finally shows that none of the metaphysical expectations will ever be fulfilled in the event of manual signing. Legal uses of handwritten signature are characterized by the complex aporia of repeating the unrepeatable.

The Hidden Third Secret of Fatima Manfred Kolb, 2025-07-02. The third secret of Fatima was to be published by the Vatican in 1960 according to the visionary Lucia. However, this was not done. It was not until 2000 that it was announced in Rome in the form of a symbolic vision, the interpretation of which was also supplied. Experts immediately objected that the secret had only been partially revealed and that there must still be an unpublished text. Allegedly, the Vatican's claim that the third secret had been fully revealed has been confirmed by Sister Lucia. The consecration of Russia would also have been valid in 1984. The latter must be contradicted today in view of the world situation. Was there a double involved? And if the true third secret has not been revealed, what is its probable content? Did it warn in time against an ill-fated Council? Were the Second Vatican Council and the liturgical reform that followed it the cause of the decline in Christian life? Is scientific theology undermining faith? Where is the church heading? Who will be the last pope in history? Such questions are examined in detail in this book on the basis of a wealth of information. Topics related to the Fatima message in Church theology, faith, and politics are also dealt with. This book contains the events and messages and how they are dealt with in the Church and the world in chronological order. It presents facts, events, considerations, and remarks that enable conclusions to be drawn on the Fatima issue and can contribute to orientation in these confusing times.

Secrets Of Occult Science L. R. Chawdhri, 1990-12. God has created this world and everything in it has a meaning. It is for man to discover these hidden meanings or messages and decipher them for his own good. Ancient civilisations like those of the Hindus, Greeks, Romans, Chaldeans, Chinese, and Sumerians considered these hidden meanings to be of vital significance in the context of the destiny and personality of human beings. Dreams, omens, moles on a person's body, twitching of certain parts of the body, handwriting, all have a hidden meaning for us to discover. What sun sign we are born under and how it affects our personality and life, the use of lucky charms and Tantric articles to mitigate evil influences and attain good health, wealth, and happiness, modern yantras like Crystal Ball Gazing and the Mystic Eye are all dealt with in this book in a simple and interesting manner for the uninitiated reader as well as for astrologers, palmists, and others.
