Anti-Sport Sentiments in Literature John Bale, 2007-11-05 This book draws on literature specifically on the writings of selected novelists and poets to widen an existing anti sport discourse to include hitherto excluded voices from the world of literature The book commences with a review of exiting pro and anti sport discourses and then proceeds to examine in turn the written works of five eminent authors excavating from their writings their anti sports rhetorics These writers are Lewis Carroll Charles Dodgson Charles Hamilton Sorley Jerome K Jerome John Betjeman and Alan Sillitoe In its conclusion the book draws together the broad themes discussed in the preceding chapters Innovative in its approach to sport and literature and remarkable for its not having been previously explored in any depth this book will be of interest to readers from both social

sciences and humanities backgrounds **Sport in American Culture** Joyce D. Duncan, 2004-11-19 A unique and timely exploration of the cultural impact of sport on American society including lifestyles language and thinking Sport in American Culture is the first and only reference work to provide an in depth and up to date exploration of sport and its impact on American culture Essays from more than 200 scholars professionals and sports enthusiasts address how sport has changed our lifestyles language and thinking Arranged alphabetically the work introduces key sport figures and national icons with a focus on their cultural impact examines individual sports and how they have influenced society and discusses such phenomena as the billion dollar athletic apparel industry sport as big business and the effect of sport on gender racial views pride and nationalism In addition to expected topics the work also includes less studied areas such as myths audience rituals Wheaties comic books the hula hoop and religion **Sport and the Christian Religion** Andrew Parker, Nick J. Watson, 2014-04-11 This book provides a systematic and interdisciplinary analysis of the published literature and practical initiatives on the sports Christianity interface from both Protestant and Catholic perspectives Within the context of this relatively new and rapidly expanding area of inquiry this text offers an original contribution to the current literature for both undergraduate and postgraduate students and serves as a point of reference for academics from a wide range of related fields including theology and religious studies psychology history sociology philosophy psychology health religion studies and sports studies The book will also be of interest to sports chaplains those involved in sports ministry organizations physical educators and sports coaches who wish to adopt a more critical and holistic approach to their work As modern day sports are often entwined with commercial and political agendas the book also provides an important response to the win at all costs and business orientated philosophy which characterises much of contemporary sport practice yet which cannot always be fully understood through secular inquiry **Christianity and Social Scientific Perspectives on Sport** Tom Gibbons, Stuart Braye, 2020-06-29 There has been a dramatic increase in academic research activity and practical initiatives on the topic of sports and Christianity and its cultural significance during the past decade The Faculty of Health and Life Sciences at York St John University York UK hosted the Inaugural Global Congress on Sports and Christianity IGCS 24 28th August 2016 in collaboration with the Bible Society at which there were 180 delegates from 22 countries in attendance For the area of sports studies the social scientific study of sport there was a thematic strand at the congress titled Christian sociological perspectives on sport from which a special edition of the journal Sport in Society partially emanated This book is based upon this journal special edition The papers selected for inclusion in the special edition were purposely eclectic in order to demonstrate the diversity of current research occurring in the area of Christianity and social scientific perspectives on sport The goal was to bridge divisions between various social science disciplines and theology or religious studies through varied novel and interesting explorations of sport in its various forms We hope this collection inspires further studies into this area The chapters in this book were originally published in a special issue in Sport in Society The Visual Focus of

American Media Culture in the Twentieth Century Wiley Lee Umphlett, 2004 This is a sociocultural history of the visually oriented mass media forms that beguiled American society from the 1890s to the end of World War II The purpose of the work is to show how revolutionary technological advances during these years were instrumental in helping create a unique culture of media made origins By focusing on the communal appeal of both traditional and new modes of visual expression as welcome diversions from the harsh realities of life this book also attends to the American people's affinity for those special individuals whose talent vision and lifestyle introduced daring new ways to avoid the ordinariness of life by fantasizing it Also examined is the sociocultural impact of an ongoing democratization process that through its nurturing of a responsive media culture gradually eroded the polar postures of the elite and mass cultures so that by the mid 1940s signs of a coming postmodern alliance were in the air Illustrated Before his retirement Wiley Lee Umphlett served as an administrator professor at the University of West Florida for more than twenty five years **Books and Beyond** Kenneth

While placing particular emphasis on the hero in American sports poetry the study proves that a considerable body of sports poetry exists in American culture and that it is worthy of serious analysis The study opens with the analysis done so far on sports poetry articulates methods of approach and gives a brief history of sports poetry beginning with victory chants around the tribal campfire From Thayer's Casey at the Bat to Gibb's Listening to the Ballgame the body of the work is organized thematically by sport baseball football basketball women's sports and minor sports such as golf racquet sports and boxing The study concludes with a chapter on poems about fans and spectators and a summary of the study's arguments Each section gives detailed readings of many poems

An Unholy Alliance Robert J. Higgs, Michael Braswell, 2004 An Unholy Alliance offers a dissenting view to the claim by a growing number of scholars that Sports are a new religion The last few years have seen a spate of books that might be classified by a genre called Sports Apologetics that is arguments defending or celebrating in one way or another the familiar and ongoing alliance in America between sports and religion Recently claims have been made by scholars that sports are an authentic religion in and of themselves They make this startling assertion not by showing connections with the teachings of Buddha Jesus Mohammed or Moses but by parallels between the rites of modern games and those of preliterate man that were religious in nature because they were designed to propitiate powers and to ward off evil for the tribes employing them In this evocative book Higgs and Braswell suggest that while sports may often be good things they are not inherently divine They do not focus on wide spread abuse in sports as evidence for their counterargument Rather they question the use of mythological parallels from prehistory as justification for viewing sports as a religion
