The Activity Of God:

Metaphysics and God Kevin Timpe, 2009-05-07 This volume focuses on contemporary issues in the philosophy of religion through an engagement with Eleonore Stump's seminal work in the field. Topics covered include the metaphysics of the divine nature, the nature of love, and God's relation to human happiness and the issue of human agency. **SCM Core Text:**

Christian Doctrine Mike Higton, 2013-01-25 The SCM Core Text *Christian Doctrine* offers an up-to-date accessible introduction to one of the core subjects of theology. Written for second and third year university students, it shows that Christian Doctrine is not a series of impossible claims to be clung to with blind faith. Mike Higton argues that it is rather a set of claims that emerge in the midst of Christian life as Christian communities try to make enough sense of their lives and of their world to allow them to carry on. Christian communities have made sense of their own life and the life of the wider world in which they are set as life created by God to share in God's own life. They have seen themselves and their world as laid hold of God's life in Jesus of Nazareth and as having the Spirit of God's own life actively at work within them. This book explores these and other central Christian doctrines and in each case shows how the doctrine makes sense and how it is woven into Christian life. It will help readers to see what sense it might make to say the things that Christian doctrine says and how that doctrine might affect the way that one looks at everything: the natural world, gossip, culture, speaking in tongues, politics, dieting, human freedom, love, High Noon, justice, computers, racism, the novels of Jane Austen, parenthood, death, and fashion.

We Have Been Believers James H. Evans, 1992 In this, the first full-scale black systematic theology in twenty years, James Evans emerges as a major and distinctive voice in American theology. Seeking to overcome the chasm between church practice and theological reflection, Evans situates theology squarely in the nexus of faith with freedom. There, with a sure touch, he uplifts revelatory aspects of black religious experience that reanimate classical areas of theology and he creates a theology with a heart, a soul, and a voice that speaks directly to our condition. *The Abingdon Preaching Annual 2023*, 2022-04-05 The local pastor's go-to resource for weekly sermon planning, *The Abingdon Preaching Annual 2023* is lectionary-based and follows the calendar year, January–December. It includes special days like Maundy Thursday and Ash Wednesday and indexes for scriptures and themes to assist preachers with non-lectionary sermons. Each entry begins with a preacher's prayer for preparation, then moves to the key feature: a commentary on one or more texts for the week, exploring themes and storylines, theological reflections, and thoughts about how the text and topic relate to our lives today. Also included are ideas for bringing the text to life, stories, illustrations, ideas for further reading, questions the preacher might pose to the congregation, and suggestions for a call to action in response to the message. Finally, for the preacher's ongoing enrichment, the Annual includes excerpts from new books on preaching and homiletics. This helpful resource is written by every week's preachers, whose aim is to come alongside you, offering a reliable starting point for your sermonic planning, writing, and delivery.
