Cross,2025-09-23 The definitive life of the painter who forged American identity visually in art and illustration with an impact comparable to that of Walt Whitman and Mark Twain in poetry and prose yet whose own story has remained largely untold In 1860 at the age of twenty four Winslow Homer 1836 1910 sold Harper s Weekly two dozen wood engravings carved into boxwood blocks and transferred to metal plates to stamp on paper One was a scene that Homer saw on a visit to Boston his hometown His illustration shows a crowd of abolitionists on the brink of eviction from a church at their front is Frederick Douglass declaring the freedom of all mankind Homer born into the Panic of 1837 and raised in the years before the Civil War came of age in a nation in crisis He created multivalent visual tales both quintessentially American and quietly replete with narrative for and about people of all races and ages Whether using pencil watercolor or most famously oil Homer addressed the hopes and fears of his fellow Americans and invited his viewers into stories embedded with universal timeless questions of purpose and meaning Like his contemporaries Twain and Whitman Homer captured the landscape of a rapidly changing country with an artist s probing insight His tale is one of America in all its complexity and contradiction as he evolved and adapted to the restless spirit of invention transforming his world In Winslow Homer American Passage William R Cross reveals the man behind the art It is the surprising story of a life led on the front lines of history In that life this Everyman made archetypal images of American culture endowed with a force of moral urgency through which they speak to all people today Includes Color Images and Maps *The Great Experiment in Conservation* William F. Porter,Jon D. Erickson,Ross S. Whaley,2025-09-15 The Adirondack region of New York State is in many respects America s cauldron of conservation It was there more than a century ago that wanton exploitation of forests first aroused concern about human impact on the environment It was there that Americans first began to set aside lands proclaimed as forever wild The establishment of the Adirondack Park created an immense landscape of 6 million acres composed of a mixture of public and private lands in nearly equal proportion This unprecedented blend of human communities within wild lands makes the Adirondack Park perhaps one of the greatest case studies in conservation and development in U S history Representing a remarkable achievement in environmental scholarship and drawn from decades of research The Great Experiment in Conservation captures the wisdom born of the last thirty years of the park s evolution The editors bring together leading scholars activists and practitioners those who know the Park s origin and the realities of living in a protected area to narrate this history Organized into three sections contributors explore the ecological cultural and economic aspects of the region drawing lessons from successes and failures as they struggle to find the right balance of private interests and public controls With keen insight and deep passion the authors reveal the Adirondack Park s rich natural and cultural history in shaping conservation policy providing vital contributions to the future study of land

preservation Contributors include Herman Daly Bill McKibben Barbara McMartin Philip G Terrie Amy Vedder and Bill Weber
