The Wisdom of Ifá Eric M. Bridges,Sheila Smith McKoy,LaJuan Simpson-Wilkey,2025-01-15 Edited by Eric M Bridges Sheila Smith McKoy and LaJuan Simpson Wilkey *The Wisdom of If An Ancient Paradigm for the Twenty First Century and Beyond* explores Yoruba spirituality and the complex ways in which the acknowledgement of If as a wisdom source can be used to address the needs of humanity in the twenty first century and beyond Through rituals and practices that honor nature s rhythms the contributors explore how If guides us towards sustainable coexistence with our environment recognizing that our well being is intricately linked to the health of the planet The contributors also show how in the realm of environmental stewardship If offers a holistic worldview that recognizes the interconnectedness of all life forms This book offers discussions on environmentalism gender and politics that connect across the bounds of time through the history mythology and lived realities of the tradition As an ancient wisdom tradition that has enriched West African cultures If offers a roadmap for modern civilization to charter new paths for humanity and the challenges that we face *The Architects of Existence* Teresa N. Washington,2014-02-25 *Identities in Flux* Niyi Afolabi,2021-02-01 Drawing on historical and cultural approaches to race relations *Identities in Flux* examines iconic Afro Brazilian figures and theorizes how they have been appropriated to either support or contest a utopian vision of multiculturalism Zumbi dos Palmares the leader of a runaway

slave community in the seventeenth century is shown not as an anti Brazilian rebel but as a symbol of Black consciousness and anti colonial resistance Xica da Silva an eighteenth century mixed race enslaved woman who married her master and has been seen as a licentious mulatta questions gendered stereotypes of so called racial democracy Manuel Querino whose ethnographic studies have been ignored and virtually unknown for much of the twentieth century is put on par with more widely known African American trailblazers such as W E B Du Bois Niyi Afolabi draws out the intermingling influences of Yoruba and Classical Greek mythologies in Brazilian representations of the carnivalesque Black Orpheus while his analysis of City of God focuses on the growing centrality of the ghetto or favela as a theme and producer of culture in the early twenty first century Brazilian urban scene Ultimately Afolabi argues the identities of these figures are not fixed but rather inhabit a fluid terrain of ideological and political struggle challenging the idealistic notion that racial hybridity has eliminated racial discrimination in Brazil

The African Diaspora Toyin Falola, 2013 The African diaspora is arguably the most important event in modern African history From the fifteenth century to the present millions of Africans have been dispersed many of them forcibly others driven by economic need or political persecution to other continents creating large communities with African origins living outside their native lands The majority of these communities are in North America This historic displacement has meant that Africans are irrevocably connected to economic and political developments in the West and globally Among the known legacies of the diaspora are slavery colonialism racism poverty and underdevelopment yet the ways in which these same factors worked to spur the scattering of Africans are not fully understood by those who were part of this migration or by scholars historians and policymakers In this definitive study of the diaspora in North America Toyin Falola offers a causal history of the western dispersion of Africans and its effects on the modern world Reengaging old and familiar debates and framing new ones that enrich the discourse surrounding Africa Falola isolates the thread running nearly six centuries that connects the history of slavery the transatlantic slave trade and current migrations A boon to scholars and policymakers and accessible to the general reader the book explores diverse narratives of migration and shows that the cultures that migrated from Africa to the Americas have the capacity to unite and create a new pan Africanist movement within the globalized world Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin He is the 2011 recipient of the Distinguished Africanist Award from the African Studies Association and serves as the vice president of the International Scientific Committee of the UNESCO Slave Route Project His previous books published by the University of Rochester Press include The Power of African Cultures and Nationalism and African Intellectuals
