The Afro Asian Dimension Of Brazilian Foreign Policy 1956 1972:

The Afro-Asian Dimension of Brazilian Foreign Policy, 1956 - 1968 Wayne A. Selcher,1970 The central problem of the study is the determination of Brazil s reactions to the emerging states of Africa Asia and the Middle East and its quantification in transaction flow terminology with an analysis and evaluation of these relations in comparison to Brazil s older strongly established ties to Western Europe the United States and Latin America This involves a chronological account of relations during the period an inquiry into the images which different sectors of national opinion have held about Afro Asia and Brazil s role there and the application of statistical measures of interaction between nations from the Dimensionality of Nations Project to ascertain the relative importance of Afro Asia in the global range of Brazilian foreign policy through time and to isolate three of the most salient states Japan Israel and India for case studies Economic relations with Afro Asia are covered in trade analysis and studies of interaction in UNCTAD and competition in coffee and cocoa Political conflicts with Afro Asia are explored in policy differences over anti colonialism Portuguese Africa and South Africa Changing policy toward Afro Asia is explained in terms of changes in regime conflicting images of the role of Brazil in the global system and cross pressures arising from Brazil s cross cutting and only partially inclusive multiple memberships in five political economic and cultural groups Latin America Western Hemisphere Western Community Group of 11 and the Luso Brazilian Community Overlapping conflicts and contradictory demands arising from these several memberships result in what may appear to be vacillation or incoherence when judged from a single standard but which is explained by the fact that Brazil is neither fully committed to any single membership nor highly polarized by only highly congruent memberships Brazilian political and economic interests thus converge with and diverge from those upon which the Afro Asian bloc has struck a consensus in much more subtle ways than the mere grouping of Brazil with Afro Asia as a developing Southern or Third World state would suggest Within limits of priority imposed by the relatively low salience which Afro Asia has for Brazil a summary of current Brazilian goals in these developing regions outside the Western Hemisphere can be drawn up as follows 1 Increase in trade relations involving preferably the exchange of manufactured products for raw materials to be used in Brazil s new industries otherwise the general expansion of all types of sales to new markets 2 Defense of national economic interests in competition in primary commodities notably coffee cocoa sugar and cotton including persuasion for African states associated with the Common Market to either yield or universalize their tariff preferences there 3 Encouragement of solidarity among developing countries to negotiate as a group with the developed states for the reversal of unfavorable terms of trade and other economic concessions sought by the Group of 11 4 Preservation of Portuguese language and culture in Africa to serve as a facilitator for a future Brazilian presence on that continent under the supposition that the Portuguese territories will eventually achieve independence and that Brazil while not meddling in Lisbon s internal affairs should do everything possible to make this emancipation relatively painless and of a nature to ensure the continuation of Portuguese language and culture rather than

alienation from them on the part of the Africans 5 Enhancement of national prestige as a leader among developing states a rising middle power with a worldwide diplomatic network utilizing the projected image of a pacific multiracial rapidly industrializing tropical civilization 6 Exchange of technical knowledge in fields such as nuclear power tropical medicine tropical agriculture and cattle raising civil aviation and architecture **The Afro-Asian Dimension of Brazilian Foreign Policy, 1956-1972** Wayne A. Selcher,1974 **Brazil-Africa Relations** Gerhard Seibert,Paulo Gilberto Fagundes Vizentini,2019 Fills an important gap in the study of Africa s international relations and its engagement with rising economies in the Global South *Brazil In The International System* Wayne A. Selcher,2019-03-13 In recent years Brazil has grown greatly in international status and all indications are that it will continue to do so The authors of this book evaluate Brazil from a Brazil in the world viewpoint placing the country in the current international system in relation to its capabilities effects and interest positions On the basis of their co **A History of Brazil** Joseph Smith,2014-04-23 A clearly structured and well informed synthesis of developments and events in Brazilian history from the colonial period to the present this volume is aimed at non specialized readers and students seeking a straightforward introduction to this unique Latin American country Divided chronologically into five main historical periods Colonial Brazil Empire the First Republic the Estado Novo and events from 1964 to the present the book explores the politics economy society and diplomacy during each phase The emphasis on diplomacy is particularly original and adds an unusual dimension to the book **The Dynamics Of Latin American Foreign Policies** Jennie K Lincoln,Elizabeth G Ferris,2019-07-11 A sequel to Latin American Foreign Policies Global and Regional Dimensions Westview 1981 this collection of original essays presents a comprehensive view of the principal foreign policy issues of the nations of Latin America and lays the foundation for understanding the challenges facing those nations in the 1980s The book begins with an introduction to the major themes of conflict and cooperation in Latin American foreign policies an overview of U S Latin American relations and an assessment of contemporary research in the field The authors then analyze the economic challenges regional conflicts and security concerns of the nations of South and Central America with case studies of the foreign policies of Argentina Brazil Chile Peru Venezuela Colombia Mexico Nicaragua and Cuba A concluding section suggests future directions for research on Latin American foreign policies in the 1980s and offers a theoretical framework for the analysis of foreign policy behavior in the region Political Liberalization In Brazil Wayne A Selcher,2019-07-09 The civilian government inaugurated in Brazil in March 1985 following twenty one years of military rule is the culmination of a slow process of liberalization that has brought greater freedom of political expression organization and activity How the Sarney government responds to the challenges it faces and the institutional choices it must make will shape Brazil s political evolution for years to come Should Brazil develop a democratic system it would be the third most populous democracy in the world Political trends in Brazil are therefore of considerable significance to Latin America and the United States In this comprehensive analysis of the forces pushing democratization forward those

opposing it and the contradictions created by the ad hoc nature of the dynamics between the two the contributors examine the legacy of two decades of authoritarian rule the choices facing the civilian government and possible future developments
