The Afterlife Of Property Domestic Security And The Victorian Novel:

The Afterlife of Property Jeff Nunokawa, 1994-01-01 In *The Afterlife of Property* Jeff Nunokawa investigates the conviction passed on by the Victorian novel that a woman's love is the only fortune a man can count on to last. Taking for his example four texts: Charles Dickens's *Little Dorrit* and *Dombey and Son* and George Eliot's *Daniel Deronda* and *Silas Marner*, Nunokawa studies the diverse ways that the Victorian novel imagines women as property removed from the uncertainties of the marketplace. Along the way he notices how the categories of economics, gender, sexuality, race, and fiction define one another in the Victorian novel. If the novel figures women as safe property, Nunokawa argues, the novel figures safe property as a woman. And if the novel identifies the angel of the house, the desexualized subject of Victorian fantasies of ideal womanhood as safe property, it identifies various types of fiction, illicit sexualities, and foreign races with the enemy of such property, the commodity form. Nunokawa shows how these convergences of fiction, sexuality, and race with the commodity form are part of a scapegoat scenario in which the otherwise ubiquitous instabilities of the marketplace can be contained and expunged, clearing the way for secure possession. *The Afterlife of Property* addresses literary and cultural theory, gender studies, and gay and lesbian studies.

Women and Personal Property in the Victorian Novel Deborah Wynne, 2016-02-17 How key changes to the married women's property laws contributed to new ways of viewing women in society are revealed in Deborah Wynne's study of literary representations of women and portable property during the period 1850 to 1900. While critical explorations of Victorian women's connections to the material world have tended to focus on their relationships to commodity culture, Wynne argues that modern paradigms of consumerism cannot be applied across the board to the Victorian period. Until the passing of the 1882 Married Women's Property Act, many women lacked full property rights; evidence suggests that for women, objects often functioned not as disposable consumer products but as cherished personal property. Focusing particularly on representations of women and material culture in Charles Dickens, George Eliot, and Henry James, Wynne shows how novelists engaged with the vexed question of women's relationships to property. Suggesting that many of the apparently insignificant items that clutter the Victorian realist novel take on new meaning when viewed through the lens of women's access to material culture and the vagaries of property law, her study opens up new possibilities for interpreting female characters in Victorian fiction and reveals the complex work of thing culture in literary texts.

The Victorian Novel On File Priyanka Anne Jacob, 2024-09-16 *The Victorian Novel On File* argues that the nineteenth-century information explosion shapes the novel form. In a world teeming with data, the novel is a storage medium cluttered with detail and accumulating more than it can use. The fictional things that have been read as insignificant should be seen instead as vessels of information, embedding the text with potential. This study weaves together a formal account of the novel with media and information studies, as well as new materialist approaches to objects. Information took material form in the nineteenth century in Victorian literature: data can be located in bric-a-brac, folded-up papers, semi-precious stones, and rubbish heaps. Yet

this information may never be transmitted as knowledge Instead the novel offers indefinite storage gesturing toward the future while holding action and accountability in abeyance Fallen by the wayside of plot are documents left on file containers left unopened stock left on the shelf and secrets left untold enacting this study argues the Victorian novel's aesthetics of deferral In readings of works by Charles Dickens George Eliot Mary Elizabeth Braddon Wilkie Collins and Rudyard Kipling this study illustrates the formal effects of cultural questions about value and meaning longevity and history abundance and overwhelm and keeping and discarding It closes by showing how these same questions animate the twenty first century's information culture as well

Victorian Jewelry, Identity, and the Novel Jean Arnold, 2016-03-16 In this study of Victorian jewels and their representation Jean Arnold explores the role material objects play in the cultural cohesion of the West Diamonds and other gems Arnold argues symbolized the most closely held beliefs of the Victorians and thus can be considered prisms of culture Mined in the far reaches of the empire they traversed geographical space and cultural boundaries representing monetary value and evoking empire class lineage class membership gender relations and aesthetics Arnold analyzes the many roles material objects fill in Western culture and surveys the cross cultural history of the Victorian diamond uncovering how this object became both preeminent and representative of Victorian values Her close readings of Wilkie Collins's *The Moonstone* George Eliot's *Middlemarch* William Makepeace Thackeray's *The Great Gogarty Diamond* and Anthony Trollope's *The Eustace Diamonds* show gendered aesthetic economic fetishistic colonial legal and culturally symbolic interpretations of jewelry as they are enacted through narrative Taken together these divergent interpretations offer a holistic view of a material culture's affective attachment to objects As the assigned meanings of jewels turn them into symbols of power personal relationships and valued ideas human interactions with gems elicit emotional responses that bind the materialist culture together

Domesticated Bachelors and Femininity in Victorian Novels Jennifer Beauvais, 2020-10-23 Domestic issues chastity morality marriage and love are concerns we typically associate with Victorian female characters But what happens when men in Victorian novels begin to engage in this type of feminine discourse While we are familiar with certain Victorian women seeking freedom by moving beyond the domestic sphere there is an equally interesting movement by the domestic man into the private space through his performance of femininity This book defines the domesticated bachelor examines the effects of the blurring of boundaries between the public and private spheres and traces the evolution of the public discourse on masculinity in novels such as Bronte's *Shirley* Braddon's *Lady Audley* Eliot's *Daniel Deronda* and Stevenson's *The Strange Case of Dr Jekyll and Mr Hyde* This bachelor along with his female counterpart the New Woman opens up for discussion new definitions of Victorian masculinity and gender boundaries and blurs the rigid distinction between the gendered spaces thought to be in place during the Victorian period

Mistress of the House Tim Dolin, 2016-12-05 This exploration of gender and property ownership in eight important novels argues that property is a decisive undercurrent in narrative structures and modes as well as an important gender signature in society

and culture Tim Dolin suggests that the formal development of nineteenth century domestic fiction can only be understood in the context of changes in the theory and laws of property indeed femininity and its representation cannot be considered separately from property relations and their reform He presents original readings of novels in which a woman owns acquires or loses property focusing on exchanges between patriarchal cultural authority the woman question and narrative form and on the place of domestic fiction in a culture in which property relations and gender relations are subject to radical review Each chapter revolves around a representative text but refers substantially to other material both other novels and contemporary social legal political and feminist commentary *Dickens' Novels as Poetry* Jeremy Tambling, 2014-11-13

Focusing on the language style and poetry of Dickens novels this study breaks new ground in reading Dickens novels as a unique form of poetry Dickens writing disallows the statement of single unambiguous truths and shows unconscious processes burrowing within language disrupting received ideas and modes of living Arguing that Dickens within nineteenth century modernity sees language as always double Tambling draws on a wide range of Victorian texts and current critical theory to explore Dickens interest in literature and popular song and what happens in jokes in caricature in word play and punning and in naming Working from Dickens earliest writings to the latest deftly combining theory with close analysis of texts the book examines Dickens key novels such as *Pickwick Papers* *Martin Chuzzlewit* *Dombey and Son* *Bleak House* *Little Dorrit* *Great Expectations* and *Our Mutual Friend* It considers Dickens as constructing an urban poetry alert to language coming from sources beyond the individual and relating that to the dream life of characters who both can and cannot awake to fuller different consciousness Drawing on Walter Benjamin Lacan and Derrida Tambling shows how Dickens writes a new and comic poetry of the city and that the language constitutes an unconscious and secret autobiography This volume takes Dickens scholarship in exciting new directions and will be of interest to all readers of nineteenth century literary and cultural studies and more widely to all readers of literature *Charles Dickens and the Properties of Fiction* Ushashi Dasgupta, 2020-05-20

When Dickens was nineteen years old he wrote a poem for Maria Beadnell the young woman he wished to marry The poem imagined Maria as a welcoming landlady offering lodgings to let Almost forty years later Dickens died leaving his final novel unfinished in its last scene another landlady sets breakfast down for her enigmatic lodger These kinds of characters are everywhere in Dickens s writing *Charles Dickens and the Properties of Fiction* The Lodger World explores the significance of tenancy in his fiction In nineteenth century Britain the vast majority of people rented rather than owned their homes Instead of keeping to themselves they shared space renting lodging taking lodgers in or simply living side by side in a crowded modern city Charles Dickens explored both the chaos and the unexpected harmony to be found in rented spaces the loneliness and sociability the interactions between cohabitants the complex gender dynamics at play and the relationship between space and money *Charles Dickens and the Properties of Fiction* demonstrates that a cosy secluded home life was beyond the reach of most Victorian Londoners and considers Dickens s nuanced conception of domesticity Tenancy

maintained an enduring hold upon his imagination giving him new stories to tell and offering him a set of models to think about authorship He celebrated the fact that unassuming houses brim with narrative potential comedies romances and detective plots take place behind their doors Charles Dickens and the Properties of Fiction The Lodger World wedges these doors open

Manly Leaders in Nineteenth-Century British Literature Daniela Garofalo,2009-01-01 From the 1790s to the 1840s the fear that Britain had become too effeminate to protect itself against the anarchic forces unleashed by the French Revolution produced in many British writers of the period a desire to portray strong leaders who could control the democratic and commercial forces of modernization While it is commonplace in Romantic studies to emphasize that Romantic writers are interested in the solitary genius or hero who separates himself from the community to pursue his own creative visions Daniela Garofalo argues instead that Romantic and early Victorian writers are interested in charismatic males military heroes tyrants kings and captains of industry who organize modern political and economic communities sometimes by example and sometimes by direct engagement Reading works by William Godwin William Wordsworth Jane Austen Lord Byron William Hazlitt Thomas Carlyle and Charlotte Bront Garofalo shows how these leaders endowed with an inherent virility rather than simply inherited rank legitimize hierarchy anew for an age suffering from a crisis of authority

The Mill on the Floss and Silas Marner Nahem Yousaf,Andrew Maunder,2017-03-08 This New Casebook explores the enduring significance of George Eliot s novels The Mill on the Floss 1860 and Silas Marner 1861 Eliot s radical cultural politics and the arrestingly original fictional strategies that characterise two of her most popular novels are explored from a variety of perspectives feminist historicist structuralist and psychoanalytic

Forgery in Nineteenth-Century Literature and Culture S. Malton,2009-03-16 Malton examines the literary and cultural representation of the financial crime of forgery from the time of massive executions of forgers during the early nineteenth century to the forger s emergence as the ultimate criminal aesthete at the fin de si cle

Literature and Revolution Owen Holland,2022-03-18 Between March and May 1871 the Parisian Communards fought for a revolutionary alternative to the status quo grounded in a vision of internationalism radical democracy and economic justice for the working masses that cut across national borders The eventual defeat and bloody suppression of the Commune resonated far beyond Paris In Britain the Commune provoked widespread and fierce condemnation while its defenders constituted a small but vocal minority The Commune evoked long standing fears about the continental spectre of revolution not least because the Communards seizure of power represented an embryonic alternative to the bourgeois social order This book examines how a heterogeneous group of authors in Britain responded to the Commune In doing so it provides the first full length critical study of the reception and representation of the Commune in Britain during the closing decades of the nineteenth century showing how discussions of the Commune functioned as a screen to project hope and fear serving as a warning for some and an example to others Writers considered in the book include John Ruskin Edward Bulwer Lytton Eliza Lynn Linton Mary Elizabeth Braddon Anne Thackeray Ritchie Margaret

Oliphant George Gissing Henry James William Morris Alfred Austin and H G Wells As the book shows many but not all of these writers responded to the Commune with literary strategies that sought to stabilize bourgeois subjectivity in the wake of the traumatic shock of a revolutionary event The book extends critical understanding of the Commune s cultural afterlives and explores the relationship between literature and revolution

The Reenchantment of Nineteenth-Century Fiction

D. Payne,2005-05-23 An ambitious weave of ideological literary and commodity history The Reenchantment of Nineteenth Century Fiction shows how Dickens Thackeray and George Eliot sacralized Victorian modernity in two contradictory ways by incarnating their moment as one of transcendent development and by reenacting bloody rituals from a fading Protestant past Both the magnitude and the brevity of their success make these works exemplary for our own era caught between the archaic gods of traditional religion and the still mysterious ones of market society

Corporate Romanticism Daniel M.

Stout,2016-12-01 Corporate Romanticism offers an alternative history of the connections between modernity individualism and the novel In early nineteenth century England two developments the rise of corporate persons and the expanded scale of industrial action undermined the basic assumption underpinning both liberalism and the law that individual human persons can be meaningfully correlated with specific actions and particular effects Reading works by Godwin Austen Hogg Mary Shelley and Dickens alongside a wide ranging set of debates in nineteenth century law and Romantic politics and aesthetics Daniel Stout argues that the novel a literary form long understood as a reflection of individualism s ideological ascent in fact registered the fragile fictionality of accountable individuals in a period defined by corporate actors and expansively entangled fields of action Examining how liberalism the law and the novel all wrestled with the moral implications of a highly collectivized and densely packed modernity Corporate Romanticism reconfigures our sense of the nineteenth century and its novels arguing that we see in them not simply the apotheosis of laissez fair individualism but the first chapter of a crucial and distinctly modern problem about how to fit the individualist and humanist terms of justice onto a world in which the most consequential agents are no longer persons

Risk and the English Novel

Julia Hoydis,2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and

responsibility fears of decline and transgression all cluster around risk **Dickens, Sexuality and Gender** Lillian Nayder, 2017-03-02 This volume of essays examines Dickens's complex representations of sexuality and gender as well as his use of gender ideologies and sexual and gender differences over the course of his literary career from his first sketches and early novels to his late works of fiction The essays approach gender issues in Dickens's writing by focusing on a number of topics his treatment of gender ideals and transgressions the intersections and displacements among gender class and race the ties between gender and the body and among gender voice and language his depiction of the homosocial and the homoerotic and the relation between gender and the law The essays provide an introduction to the most recent approaches to Dickens's fiction in addition to those now considered classic draw on queer theory and also feature a variety of methodologies ranging across feminist historicist and psychoanalytic methods of interpretation The collection represents the best of previously published research by Dickens's scholars and illuminates for students and scholars alike the meaning of gender in such novels as *The Pickwick Papers* *Dombey and Son* and *Our Mutual Friend* Unsettled Accounts Simon J. James, 2003 Simon J. James examines how Gissing's work reveals an unhappy accommodation with money's underwriting of human existence and culture and how daily life in all its forms moral intellectual familial and erotic is transcended or made irrelevant by its commodification Novels such as *New Grub Street* expose high culture's dependence on the ruthless Darwinism of late Victorian capitalism literary and personal success can only be achieved by understanding and adapting to the immanent and irresistible nature of a market hostile to the development of human self betterment Situated against nineteenth century analyses of monetary relations by thinkers such as Ruskin Mill Marx and Carlyle and novels by Dickens Eliot and Hardy *Unsettled Accounts* demonstrates how Gissing's work is engagedly modern dealing as it does with changes in the nature of the literary market advertising imperialism the New Woman and the condition of the working classes This groundbreaking new study published 100 years after Gissing's death will be of considerable interest to students researchers and scholars A valuable introduction to Gissing's work it claims a prominent place for him in fin de siècle Victorian literature

British Colonial Realism in Africa Deborah Shapple Spillman, 2012-05-04 What role do objects play in realist narratives as they move between societies and their different systems of value as commodities as charms as gifts as trophies or as curses This book explores how the struggle to represent objects in British colonial realism corresponded with historical struggles over the material world and its significance **Dickens and the Business of Death** Claire Wood, 2015-03-05 The first ever full length study exploring how Dickens's fiction engaged with responded to and even exploited Victorian attitudes to death

The Dispossessed State Sara L. Maurer, 2012-03-01 Do indigenous peoples have an unassailable right to the land they have worked and lived on or are those rights conferred and protected only when a powerful political authority exists In the tradition of John Locke and Thomas Hobbes who vigorously debated the thorny concept of property rights Sara L. Maurer here looks at the question as it applied to British ideas about Irish nationalism in the nineteenth century This book connects

the Victorian novel's preoccupation with the landed estate to nineteenth century debates about property specifically as it played out in the English occupation of Ireland Victorian writers were interested in the question of whether the Irish had rights to their land that could neither be bestowed nor taken away by England In analyzing how these ideas were represented through a century of British and Irish fiction journalism and political theory Maurer recovers the broad influence of Irish culture on the rest of the British Isles By focusing on the ownership of land *The Dispossessed State* challenges current scholarly tendencies to talk about Victorian property solely as a commodity Maurer brings together canonical British novelists Maria Edgeworth Anthony Trollope George Moore and George Meredith with the writings of major British political theorists John Stuart Mill Henry Sumner Maine and William Gladstone to illustrate Ireland's central role in the literary imagination of Britain in the nineteenth century The book addresses three key questions in Victorian studies property the state and national identity and will interest scholars of the period as well as those in Irish studies postcolonial theory and gender studies
