Ello demanda una concreción del funcionamiento y el encuadramiento de la realidad actual del derecho transnacional del comercio. The Choice of Law Contract Maria Hook, 2016-09-22. This book offers a contractual framework for the regulation of party autonomy in choice of law. The party autonomy rule is the cornerstone of any modern system of choice of law embodying as it does the freedom enjoyed by parties to a cross border legal relationship to agree on the law applicable to it. However as this study shows the rule has a major shortcoming because it fails to give due regard to the contractual function of the choice of law agreement. The study examines the existing law on choice of law agreements by reference to the law of both common and civil law jurisdictions and international instruments. Moreover it suggests a new coherent approach to party autonomy that integrates both the law of contract and choice of law. This important new study should be read with interest by private international law scholars.

2009 Andrea Bonomi, Paul Volken, 2010-12-23. The current rich volume of the Yearbook attempts to strike a balance in the multifaceted expressions of the increasing importance of private international law at national and supranational levels. The vitality of private international law within the European Union is evidenced by both legislative projects and the rich case law of the European Court of Justice. While the European Commission's draft for a Regulation on succession which probably constitutes the most detailed and ambitious attempt ever to codify PIL in this area begins its legislative process, a new initiative on the application of foreign law is being considered by the European institutions. Both of these developments are discussed in the Doctrine section. But the newest Yearbook of PIL also examines interesting developments taking place on other continents. For example the present volume includes a special section focusing on Chinese PIL and reports on the renewed interest with conflict of laws in the U.S. doctrine.
