Chow Chop Suey Anne Mendelson, 2016-11-29 Chinese food first became popular in America under the shadow of violence against Chinese aliens a despised racial minority ineligible for United States citizenship The founding of late nineteenth century chop suey restaurants that pitched an altered version of Cantonese cuisine to white patrons despite a virulently anti Chinese climate is one of several pivotal events in Anne Mendelson's thoughtful history of American Chinese food Chow Chop Suey uses cooking to trace different stages of the Chinese community's footing in the larger white society Mendelson begins with the arrival of men from the poorest district of Canton Province during the Gold Rush She describes the formation of American Chinatowns and examines the curious racial dynamic underlying the purposeful invention of hybridized Chinese American food historically prepared by Cantonese descended cooks for whites incapable of grasping Chinese culinary principles Mendelson then follows the eventual abolition of anti Chinese immigration laws and the many demographic changes that transformed the face of Chinese cooking in America during and after the Cold War Mendelson concludes with the post 1965 arrival of Chinese immigrants from Taiwan Southeast Asia and many regions of mainland China As she shows they have immeasurably enriched Chinese cooking in America but tend to form comparatively self sufficient enclaves in which they unlike their predecessors are not dependent on cooking for a white clientele *The Chinese Must Go* Beth Lew-Williams, 2018-02-26 Beth Lew Williams shows how American immigration policies incited violence against Chinese workers and how that violence provoked new exclusionary policies Locating the origins of the modern American alien in this violent era she makes clear that the present resurgence of xenophobia builds mightily upon past fears of the heathen Chinaman **American Citizen, Global Citizen** Mark Gerzon, 2010 Sweeping the globe from Seoul to Amsterdam London to Japan American Citizen Global Citizen is now being released for the first time in the United States It is not enough for us to wait for everyone else to fix the problems that plague our world We must realize our global common ground in every aspect of our lives and become aware of the basic skills that will enable us to be effective anywhere on this planet Learn how to give yourself a richer and more meaningful life and pass along a better world for generations to come Publisher's description *Resources in Education*, 1994-07 **Our Army**, 1945 **Music in Canada** Elaine Keillor, 2008 Offers a history of Canadian musical expressions and their relationship to Canada's cultural and geographic diversity This book features a survey of musics in Canada and includes forty three vignettes highlighting topics such as Inuit throat games the music of k d lang and orchestras in Victoria The Profits of Nature Peter B. Lavelle, 2020-03-03 In the nineteenth century the Qing empire experienced a period of profound turmoil caused by an unprecedented conjunction of natural disasters domestic rebellions and foreign incursions The imperial government responded to these calamities by introducing an array of new policies and institutions to bolster its power across its massive territories In the process Qing officials launched campaigns for natural resource development seeking to take advantage of the unexploited lands waters and minerals of the

empire's vast hinterlands and borderlands In this book Peter B Lavelle uses the life and career of Chinese statesman Zuo Zongtang 1812-1885 as a lens to explore the environmental history of this era Although known for his pacification campaigns against rebel movements Zuo was at the forefront of the nineteenth century quest for natural resources Influenced by his knowledge of nature geography and technology he created government bureaus and oversaw state funded projects to improve agriculture sericulture and other industries in territories across the empire His work forged new patterns of colonial development in the Qing empire's northwest borderlands including Xinjiang at a time when other empires were scrambling to secure access to resources around the globe Weaving a narrative across the span of Zuo's lifetime *The Profits of Nature* offers a unique approach to understanding the dynamic relationship among social crises colonialism and the natural world during a critical juncture in Chinese history between the high tide of imperial power in the eighteenth century and the challenges of modern state building in the twentieth century
