The Enigma Of Woman Woman In Freud's Writings:

The Enigma of Woman Sarah Kofman, 1985 Kofman discusses various facets of Freud's attitudes toward women in his early years his relation to his parents the crystallization and development of his personal myths his surprisingly liberal views in respect to certain independent women of his acquaintance his thoughts on the mythic power of the Mother and on the putatively feminine side of his own nature Then by means of forceful new readings of *On Narcissism* *Femininity* and other works she reveals that in his writings on women Freud consistently alludes to women's menace at times expressing fascination with their power at times betraying panic Kofman seeks to demonstrate that Freud in his later years was unable to see past the idea of penis envy his earlier receptivity toward women was overcome entirely by his need to argue with relentless illogic the inescapable biologically determined inferiority of women Back cover

Deconstructing the Feminine Leticia Glozier Fiorini, 2018-03-26 The guiding thread of this theoretical review is the illumination of the impasses of binary thought and of the essentialist conceptions of women and the feminine In this trajectory the author's ongoing dialogue with Freud is connected with one aspect of his way of thinking multicentred and complex The text addresses questions relating to love sexual desire maternity beauty and the passing of time and highlights current debates concerning women the feminine and sexual difference as well as some controversial topics that have been discussed throughout the history of the psychoanalytic movement One of the most relevant subjects is the notion of feminine enigma and the conceptions of the feminine as the negative of the masculine which means going into the nature nurture debate as well as into considerations of the feminine seen as the other of the masculine The author points out that the notion of feminine enigma is a displacement of the enigmas inherent to the origins to the finite time of life the inevitability of death and to sexual difference
