The Routledge International Handbook of Psychoanalysis,

Subjectivity, and Technology David Goodman, Matthew Clemente, 2023-08-09 The Routledge International Handbook of Psychoanalysis Subjectivity and Technology uniquely provides a comprehensive overview of human subjectivity in the technological age and how psychoanalysis can help us better understand human life Presented in five parts David M Goodman and Matthew Clemente collaborate with an international community of scholars and practitioners to consider how

psychoanalytic formulations can be brought to bear on the impact technology has had on the facets of human subjectivity. Chapters examine how technology is reshaping our understanding of what it means to be a human subject through embodiment, intimacy, porn, political motivation, mortality, communication, interpersonal exchange, thought, attention, responsibility, vulnerability, and more. Filled with thought-provoking and nuanced chapters, the contributors approach technology from a diverse range of entry points but all engage through the lens of psychoanalytic theory, practice, and thought. This book is essential for academics and students of psychoanalysis, philosophy, ethics, media, liberal arts, social work, and bioethics. With the inclusion of timely chapters on the coronavirus pandemic and teletherapy, psychoanalysts in practice and training as well as other mental health practitioners will also find this book an invaluable resource. *The Late Foucault* Marta Faustino, Gianfranco Ferraro, 2020-12-10

Michel Foucault is one of the most important and controversial thinkers of the twentieth century and one of the leading figures in contemporary Western intellectual life and debate. The recent publication of his last lecture courses at the Collège de France (1981-1984) together with the short texts, essays, and interviews from the same period have sparked new interest in his work, allowing for a new understanding of his philosophical trajectory and challenging several interpretations produced over the last few decades. In this later phase of his thinking, Foucault deepens and expands the course of his preceding works on the genealogy of subjectivity while at the same time adding a significant ethical and political dimension to it. His focus on the ancient ethics of care of the self and technologies of self-constitution during this period adds important nuances to his previous positions on power, truth, and subjectivity, shedding new light on his philosophical endeavour as a whole and situating his reflections at the centre of current moral debates. Focusing on the last stage of Foucault's thought, this book brings together international scholars to relaunch the critical debate on the significance of Foucault's so-called ethical turn and to discuss the ways in which the perspectives offered by Foucault in this period might help us to unravel modernity, giving us the tools to understand and transform our present ethically and politically. **Foucault, Christianity and Interfaith Dialogue** Henrique Pinto, 2020-11-25

Foucault's Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault. The author argues that it is the injustice done to the Other by Roman Catholic, Protestant, and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society. This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open, textured process of self-transformation. The author's original and imaginative application and expansion of Foucault's concept of the *More* from *The Archaeology of Knowledge* (1969) makes important and original contributions to academic work on Foucault and contemporary theology. Equality and Freedom in Rancière and Foucault Stuart Blaney, 2024-12-12

Responding to the increasing need for new and peaceful forms of emancipation Stuart Blaney offers a unique solution in the synergy between two pioneering strands of continental philosophy Michael Foucault's ideas on freedom and Jacques Rancière's ideas on equality Building a dialogue between these two thinkers Blaney presents new perspectives on their work and a clear picture that emancipation comes from everyday practices rather than any particular movement or revolution In exploring these combined views of equality and freedom Blaney draws on some of the central facets of both concepts including revolution disagreement care for the self free speech and stoicism To put these ideas into a practical framework of real lived experience we are introduced to the figure of Louis Gabriel Gauny the 19th century worker poet and self confessed plebeian philosopher Gauny is a nexus for Rancière's and Foucault's ideas his life exemplifying a dual mode of existence in between conformity and political revolution This lived philosophy of equality and freedom shows the strong synergy between the two concepts with one reinforcing the other and strengthening their efficacy as forms of emancipatory practice
