The Ethics Of Legal Ethics

Henry Sandwith Drinker

The Ethics Of Legal Ethics:

Professional Legal Ethics Donald Nicolson, Julian S. Webb, 1999 This study provides an in depth analysis and critique of the ethics of English and Welsh lawyers It argues that professional legal ethics has failed to deliver an approach which required lawyers to engage with the ethical issues raised by practice

Legal Ethics Geoffrey C. Hazard, Angelo Dondi, 2004 Examining legal ethics within the framework of modern practice this book identifies two important ethical issues that all lawyers confront the difference between the role of lawyers and the role of judges in pursuing justice and the conflicting responsibilities lawyers have to their clients and to the legal system more broadly In addressing these issues Legal Ethics provides an explanation of the duties and dilemmas common to practicing lawyers in modern legal systems throughout the world The authors focus their analysis on lawyers in independent practice in modern capitalist constitutional regimes including the United States Japan Europe and Latin America as well as the emerging legal systems in China and the former Soviet bloc to develop connections between the legal profession and political systems based on the rule of law They find that although ethical tension is inherent in the legal practice of all these societies the legal profession is essential to stable political institutions

Legal Ethics Henry Sandwith Drinker, 1953 The Professional Ideals of the Lawyer Henry Wynans Jessup, 1925

Legal Ethics in the Practice of Law Richard A. Zitron, 1995 Essays in Legal Ethics George William Warvelle, 1902

Legal Ethics and Legal Education Michael J. Kelly, 1980

The Law, Principles, and Practice of Legal Ethics Victoria Vuletich, Nelson P. The Ethics Project in Legal Education Michael Robertson, Lillian Corbin, Kieran Tranter, Francesca Bartlett, 2010-10-06
The contributions in this volume suggest that the ethics project in legal education is increasingly an international one Even though the strength of commitment by both the profession and the legal academy to ethics learning within law schools varies two fundamental questions confront all who work in this area First what is it that we want our students to learn or perhaps in what manner do we want our students to develop from the teaching of legal ethics Second how can we create a learning environment that will encourage the nature and quality of learning we think is important All the contributors to this volume take a strong stand on the importance of ethical legal practice and the role of law schools in developing students capacities in this area They share a belief in the essential need to encourage law students to engage with the moral dimensions of legal practice The questions that these scholars grapple with are therefore not of the should we be teaching this variety but how might we best to go about doing this so that our efforts within law schools really make some difference Each of the chapters in this volume adds uniquely to our understanding of these matters

The Law and Ethics of Lawyering Geoffrey C. Hazard (Jr.), 2005 Extensively revised and updated The Law and Ethics of Lawyering provides an overview of the ethics of practicing law and discusses relevant provisions of the American Law Institute's Restatement of the Law Governing Lawyers Many segments of the book are substantially enhanced including the crime fraud exception to the attorney client privilege disclosure of client identity client fraud on third persons or on a tribunal regulation of excessive fees the role of the government lawyer responsibilities of the lawyer for a class form of practice restrictions regulation of multi state and international practice and choice of law in a multi state practice
