The Ethics Of Teaching A Casebook:

The Ethics of Teaching Patricia Keith-Spiegel, 2002 The Ethics of Teaching provides a frank discussion of the most frequently encountered ethical dilemmas that can arise in educational settings as well as tips on how to avoid these predicaments and how to deal with them when they do occur The goal is to stimulate discussion and raise faculties consciousness about ethical issues Ethical dilemmas are presented as short engaging case scenarios most of which are based on actual situations so as to furnish more realistic and interesting stimuli for individual reflection and group discussion These scenarios offer the opportunity to consider the subtle complexities inherent in the social and psychological contexts in which educator student interactions occur and the effects of those complexities on ethical decision making Each case is followed by a detailed analysis and advice The book s 195 cases are grouped into 22 chapters representing topics such as the controversial classroom presentations and assignments debatable testing and grading practices problematic student faculty interactions dual role relationships with students collegial conflicts managing very difficult students and confidentiality dilemmas The Ethics of Teaching A Casebook Second Edition focuses on commonly encountered ethical gray areas that have no clear solution includes questions to stimulate discussion of related ethical issues concludes with a chapter on prevention peer mentoring and intervention and serves as excellent assigned reading to stimulate group discussion in teaching workshops and faculty development programs The first edition of this book evolved by collecting a variety of teaching situations that commonly occur in college and university settings The authors then created responses to the situations and circulated both the cases and the responses to reviewers from a number of departments across the country As a result the vast majority of the cases are discipline free The second edition features many new cases to reflect recent trends and events related to academic ethics Questions were added to stimulate discussion and to further elaborate the issues The Ethics of Teaching A Casebook is ideal for college and university faculty graduate assistants and administrators involved in workshops graduate teaching assistant courses and faculty development and new faculty orientation programs As a result of the book s cross disciplinary development it will be beneficial to faculty from a broad spectrum of disciplines *The Ethics of Teaching* Patricia Keith-Spiegel, Bernard E. The Ethical Professor Lorraine Eden,Kathy Lund Dean,Paul M Vaaler,2018-05-15 The purpose of The Ethical Professor is to provide a road map to some of the ethical dilemmas that doctoral students and newer faculty members are likely to face as they enter a career in academia the Academy Academic career paths appear to be quite standard transparent and achievable with dedicated and hard work Argued in this book however is that the road map to a successful academic career is not so easy There are ethical pitfalls along the way starting with entry into academia as a new PhD student These ethical dilemmas remain equally opaque as faculty progress in their careers The ethical pitfalls that plague each of the steps along the academic career path are often not visible to doctoral students and young faculty members nor are they well prepared to spot them Ethical issues are seldom discussed and little training is provided on how to spot and handle these potential road blocks to a successful career in the academy Based on extant research and collective years of academic experience The Ethical Professor seeks to shorten the learning curve around common ethical pitfalls and issues by defining them sharing research and experiences about them and offering a discussion framework for continued learning and reflection This innovative new volume will be key reading for doctoral students and junior faculty members in social science departments in colleges and universities as well as managers undertaking an MBA Due to the increasing complexity of managing academic institutions more seasoned professors administrators and college deans and presidents will also benefit from the research presented here

Teaching Psychology Sandra Goss Lucas,Sandra Goss-Lucas,Douglas A.
