The Evolution Of Urban Society:

The Evolution of Urban Society Robert McC. Adams, 2017-07-05 The Evolution of Urban Society is concerned with the presentation and analysis of regularities in the two best documented examples of early independent urban society Mesopotamia and central Mexico It provides a systematic comparison of institutional forms and trends of growth that are to be found in both of them Emphasizing basic similarities in structure rather than the many acknowledged formal features by which each culture is rendered distinguishable from all others it demonstrates that both societies can usefully be regarded as variants of a single processual pattern

The Evolution of Urban Society Robert McCormick Adams, The Evolution of Urban Society is concerned with the presentation and analysis of regularities in the two best documented examples of early independent urban society Mesopotamia and central Mexico It provides a systematic comparison of institutional forms and trends of growth that are to be found in both of them Adams shows why the study of societal evolution is so significant and why it has remained a durable and attractive anthropological focus of interest The Evolution of Urban Society remains required reading for students of anthropology ethnography ancient civilizations and world history As Elizabeth Carter noted in Science this volume set the agenda for contemporary research into early urbanism in the Mesopotamian region

The Evolution of Urban Society Robert MacCormick Adams, 1971

The Evolution of American Urban Society Howard P. Chudacoff, Judith E. Smith, 2005 In over three centuries of growth and change American cities have exerted forces that have been both centrifugal pulling people resources and interest toward them and centripetal sending out goods services and ideas The story of how these forces evolved over time encompasses almost every aspect of American history Always cognizant of change over time this book explores the ways that urban development influenced people s lives and on the ways people shaped the urban environment A city is simultaneously a social economic and political entity and Howard P Chudacoff and Judith E Smith have taken care to examine each of these dimensions of urban life Their focus is on urban society its institutions its activities and especially its people The authors address questions such as Why do people go to the city What do they find there How do they cope What do they contribute How are they rewarded In this the Sixth Edition Chudacoff and Smith pay particular attention to issues of race ethnicity gender the built environment regional differentials and emerging cultural forms such as rock and rap music New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends In addition the final chapter has been expanded to take into account issues relating to the presidential administration of George W Bush and to the consequences of the terrorist attacks of September 11 2001
