The Exalted Heroine And The Triumph Of Order:

The Exalted Heroine and the Triumph of Order K. G. Hall, 1993-06-18 The first part of this book contains background information relevant to the 18th century English novel The second part focuses upon seven diverse yet representative novels of the period paying particular attention to the presentation of class women and religion in the works examined **Gender and Utopia in the Eighteenth Century** Brenda Tooley, 2016-04-15 Focusing on eighteenth century constructions of symbolic femininity and eighteenth century women's writing in relation to contemporary utopian discourse this volume adjusts our understanding of the utopia of the Enlightenment placing a unique emphasis on colonial utopias These essays reflect on issues related to specific configurations of utopias and utopianism by considering in detail English and French texts by both women Sarah Scott Sarah Fielding Isabelle de Charrière and men Paltock and Montesquieu The contributors ask the following questions In the influential discourses of eighteenth century utopian writing is there a place for woman and if so what or where is it How do women disrupt confirm or ground the utopian projects within which these constructs occur By posing questions about the inscription of gender in the context of eighteenth century utopian writing the contributors shed new light on the eighteenth century legacies that continue to shape contemporary views of social and political progress

The Anti-Jacobin Novel M. O. Grenby, 2001-09-06 The French Revolution sparked an ideological debate which also brought Britain to the brink of revolution in the 1790s Just as radicals wrote Jacobin fiction so the fear of rebellion prompted conservatives to respond with novels of their own indeed these soon outnumbered the Jacobin novels This was the first survey of the full range of conservative novels produced in Britain during the 1790s and early 1800s M O Grenby examines the strategies used by conservatives in their fiction thus shedding new light on how the anti Jacobin campaign was understood and organised in Britain Chapters cover the representation of revolution and rebellion the attack on the new philosophy of radicals such as Godwin and Wollstonecraft and the way in which hierarchy is defended in these novels Grenby's book offers an insight into the society which produced and consumed anti Jacobin novels and presents a case for reexamining these neglected texts **Latitudinarianism and Didacticism in Eighteenth-century Literature** Patrick Müller, 2009 The relationship between Latitudinarian moral theology and eighteenth century literature has been much debated among scholars However this issue can only be tackled if the exact objectives of the Latitudinarians moral theology are clearly delineated In doing so Patrick Müller unveils the intricate connection between the didactic bias of Latitudinarianism and the resurgent interest in didactic literary genres in the first half of the eighteenth century His study sheds new light on the complex and contradictory reception of the Latitudinarians controversial theses in the work of three of the major eighteenth century novelists Henry Fielding Laurence Sterne and Oliver Goldsmith **Global Identities in Transit** Bouchra Benlemlih, Lahoussine Hamdoune, 2022-03-28 Global Identities in Transit The Ethics and Politics of Representation in World Literatures and Cultures explores the myriad aspects of identity formation and identity

representation in an increasingly globalized world Covering a variety of cultural and historical experiences in addition to several texts of world literatures the contributors discuss the configurations of transnationality and transculturality in our postcolonial and globalized world Acknowledging that nationality ethnicity gender and class are continually shaped by historical processes the contributors hone in on the ways that the increase in mobility via migration diaspora and exile render identities always in transit In the face of structural inequalities and social injustices predominant in this context the chapters reflect on the moral obligations of representation This collection will be of interest to scholars of cultural studies postcolonial studies and world literature *New Approaches to Religion and the Enlightenment* Brett C. McInelly, Paul E.

Kerry, 2018-11-09 The Enlightenment an eighteenth century philosophical and cultural movement that swept through Western Europe has often been characterized as a mostly secular phenomenon that ultimately undermined religious authority and belief and eventually gave way to the secularization of Western society and to modernity To whatever extent the Enlightenment can be credited with giving birth to modern Western culture historians in more recent years have aptly demonstrated that the Enlightenment hardly singled the death knell of religion Not only did religion continue to occupy a central place in political social and private life throughout the eighteenth century but it shaped the Enlightenment project itself in significant and meaningful ways The thinkers and philosophers normally associated with the Enlightenment to be sure challenged state sponsored church authority and what they perceived as superstitious forms of belief and practice but they did not mount a campaign to undermine religion generally A more productive approach to understanding religion in the age of Enlightenment then is to examine the ways the Enlightenment informed religious belief and practice during the period as well as the ways religion influenced the Enlightenment and to do so from a range of disciplinary perspectives which is the goal of this collection The chapters document the intersections of religious and Enlightenment ideas in such areas as theology the natural sciences politics the law art philosophy and literature What Made the Eighteenth Century Writers

and Their Novels Stefano Mochi, 2023-05-26 This book examines eighteenth century novels with a focus on the skills that readers were expected to master in order to read these works It analyses how such skills were shaped by the cultural and political climate of the time Starting with a review of the debate on education that began in England in the eighteenth century and the way it was influenced by philosophers such as John Locke it then discusses the demands that novelists like Defoe Fielding Sterne Godwin Smollett and Richardson made concerning this subject Various scientific philosophical religious and linguistic theories are used to examine the issues above Chaos Theory Wittgenstein's idea of logical space Grice's cooperative principle Aristotle's poetics and de Molinos Quietism The Early T. S. Eliot and Western Philosophy Rafea Habib, 1999-06-28 Study of Eliot's philosophical writings assessing their impact on his early poetry and literary criticism

Charlotte Smith Loraine Fletcher, 1998-06-22 Sold a legal prostitute when married off at the age of fifteen Charlotte Smith left her wastrel husband to support herself and their children as a poet and novelist who would have a lasting influence

on William Wordsworth and Jane Austen Combative and witty she became a radical controversial and very popular author at a time when the French Revolution was raising high hopes of Reform she argued for change in England too Loraine Fletcher's vivid scholarly biography is as readable for the newcomer to the 1790s as for the specialist tracing the embattled life in the wonderfully self-dramatising fiction Terrorism, Technology and Apocalyptic Futures Maximiliano E. Korstanje, 2019-03-15 This book centers on the power of mythical narratives and technology in creating the idea of a world that should be purged The introduction of sin the fall and other disruptive conflict have led mankind towards a world of scarcity where suffering and sacrifice prevail The author analyzes this apocalypse theory which describes humans' perversion by the use of technology self-consciousness and knowledge Based on an anthropological viewpoint the book not only discusses the nature of bottom days but explores other related sub-themes such as capitalism terrorism dark tourism the essence of evil and the power of prophecy coining the term thana capitalism to denote a new stage of capitalism where death is the main commodity exchanged
