The Exodus Epic Of The Enlightenment And Exegesis:

Haskalah and Beyond Moshe Pelli, 2012-07-10 *Haskalah and Beyond* deals with the Hebrew Haskalah Enlightenment the literary cultural and social movement in the 18th and 19th centuries in Europe It represents the emergence of modernism and perhaps the budding of some aspects of secularism in Jewish society following the efforts of the Hebrew and Jewish enlighteners to introduce changes into Jewish culture and Jewish life and to revitalize the Hebrew language and literature The author classifies these activities as a cultural revolution In effect the Haskalah was a counter culture intended to modify or replace some of the contemporary rabbinic cultural framework institutions and practices and adopt them for its own envisioned Judaism of the Haskalah The pioneering work of the founding fathers of the early Haskalah had greatly impacted the later developments of the Haskalah in the 19th century Its reception in that century is studied as is the reception of one of the major figures of the early Haskalah Isaac Euchel and of one of the important German Enlightenment poets and philosophers Johann Gottfried Herder in the 19th century Haskalah The study of reception continues on the language of the sublime and the poetic imagery used in Haskalah melitzah as well as on the three major journals of Haskalah as instruments of change and of disseminating the Haskalah ideology Finally the aftermath of the Haskalah is addressed **Morality and Religion**

Avi Sagi, 2021-08-27 The relationship between morality and religion has long been controversial familiar in its formulation as Euthyphro's dilemma Is an act right because God commanded it or did God command it because it is right In *Morality and Religion* The Jewish Story renowned scholar Avi Sagi marshals the breadth of philosophical and hermeneutical tools to examine this relationship in Judaism from two perspectives The first considers whether Judaism adopted a thesis widespread in other monotheistic religions known as divine command morality making morality contingent on God's command The second deals with the ways Jewish tradition grapples with conflicts between religious and moral obligations After examining a broad spectrum of Jewish sources including Talmudic literature Halakhah Aggadah Jewish philosophy and liturgy Sagi concludes that mainstream Jewish tradition consistently refrains from attempts to endorse divine command morality or resolve conflicts by invoking a divine command Rather the central strand in Judaism perceives God and humans as inhabiting the same moral community and bound by the same moral obligations When conflicts emerge between moral and religious instructions Jewish tradition interprets religious norms so that they ultimately pass the moral test This mainstream voice is anchored in the meaning of Jewish law which is founded on human autonomy and rationality and in the relationship with God that is assumed in this tradition **The Hebrew Bible Reborn**

Yaacov Shavit, Mordechai Eran, 2008-09-25 This work the first of its kind describes all the aspects of the Bible revolution in Jewish history in the last two hundred years as well as the emergence of the new biblical culture It describes the circumstances and processes that turned Holy Scripture into the Book of Books and into the history of the biblical period and of the people the Jewish people It deals with the encounter of the Jews with modern biblical criticism and the archaeological research of the Ancient Near East and with

contemporary archaeology The middle section discusses the extensive involvement of educated Jews in the Bible Babel polemic at the start of the twentieth century which it treats as a typological event The last section describes at length various aspects of the key status assigned to the Bible in the new Jewish culture in Europe and particularly in modern Jewish Palestine as a guide to life in education culture and politics as well as part of the attempt to create a new Jewish man and as a source of inspiration for various creative arts

Cultural Translation Zohar Shavit, 2025-01-27 Towards the end of the eighteenth century the maskilim a group of young Jewish intellectuals who were starving for universal knowledge and for engagement with wider social circles set out to reform Jewish society by expanding its cultural boundaries and building a bridge to the Enlightened world Through dialogue with the non Jewish society and by introducing their fellow Jews to the texts and cultural goods of that society mainly through translation they sought to promote their social agenda and impart to their readers a new habitus new social models of Bürgerlichkeit and Bildung and a new awareness of civil equality and civil rights This book explores this translational project and the ways by which it strove to affect a profound cultural change in the Jewish world Zohar Shavit professor emerita at the School for Cultural Studies at Tel Aviv University is an internationally renowned authority on the history of Israeli culture child and youth culture and Hebrew and Jewish cultures especially in the context of their relations with various European cultures

Missional Economics Michael Barram, 2018-05-24 American Christians today says Michael Barram have a significant blind spot when it comes to economic matters in the Bible In this book Barram reads biblical texts related to matters of money wealth and poverty through a missional lens showing how they function to transform our economic reasoning Barram searches for insight into God's purposes for economic justice by exploring what it might look like to think and act in life giving ways in the face of contemporary economic orthodoxies The Bible repeatedly tells us how to treat the poor and marginalized Barram says and faithful Christians cannot but reflect carefully and concretely on such concerns Written in an accessible style this biblically rooted study reflects years of research and teaching on social and economic justice in the Bible and will prove useful for lay readers preachers teachers students and scholars

Faith, the Fount of Exegesis Ignacio Carbajosa, 2013-11-17 This book is a response to a desire expressed by the then Cardinal Joseph Ratzinger the future Pope Benedict XVI who called for a diachronic study of the results of the historical critical method The study of the last 150-200 years of biblical research shows how the claim to scientific rigor made in many works that is the claim to have obtained results comparable in their certainty to those of the natural sciences is clearly unrealistic This is a comprehensive analysis of the results of almost two centuries of the historical critical method in two areas the investigation into the sources of the Pentateuch and the study of the figure of the prophet It reveals the philosophical and cultural presuppositions which influenced the development of exegesis and its most notable hypotheses demonstrating the world of prejudices which frequently have conditioned the exegesis called scientific It also engages the characteristic dimensions of the Catholic interpretation of the Old Testament attempting to unify the two basic dimensions of

the exegetical method history and theology Overcoming the disconnect between scientific exegesis and believing theology is one of the great contemporary challenges to the intellectus fidei This dualism cannot be overcome simply by a call to greater devotion or the generous intention of adding pious commentary to an exegesis which has not from the beginning been based on faith This book provides a positive contribution to the hermeneutical problem at the heart of current exegetical debate the status of exegesis addressing such questions as Does exegesis have a theological character Should it have one If it does have one would it not then lose its scientific character Thus one arrives at the main question how can one conceive of an exegesis that is at the same time critical and theological How can faith be the foundation of exegesis from the beginning Could Faith really be the Fount of Exegesis

The Fantastic in Religious Narrative from Exodus to Elisha Laura Feldt, 2014-10-14 The Fantastic in Religious Narrative from Exodus to Elisha argues that perspectives drawn from literary critical theories of the fantastic and fantasy are apt to explore Hebrew Bible religious narratives The book focuses on the narratives marvels monsters and magic rather than whether or not the stories depict historical events The Exodus narrative Ex 1 18 and a selection of additional Hebrew Bible narratives Num 11 14 Judg 6 8 1 Kings 17 19 2 Kings 4 7 are analysed from a fantasy theoretical perspective The fantasy perspective helps to make sense of elements of these narratives that although prominently featured in the stories have previously often been explained by being explained away These case studies can illuminate Hebrew Bible religion and offer wider perspectives on religious narrative generally In light of the fantasy theoretical approach these Hebrew Bible stories with the Exodus narrative at the centre read not as foundational stories affirming triumphantly and unambiguously the bond between the deity his people and their territory but rather as texts that harbour and even actively encourage ambiguity and uncertainty not necessarily prompting belief orientation and a sense of meaningfulness but also open ended reflection and doubt The case studies suggest that other religious narratives both in and beyond the Judaic tradition may also be amenable to interpretation in these terms thus questioning a dominant trend in myth studies The results of the analyses lead to a discussion of the role of ambiguity uncertainty and transformation in religious narrative in broader perspective and to a questioning of the emphasis in the study of religion on the capacity of religious narrative for founding and maintaining institutions orienting identity and defending order over disorder The book suggests the wider importance of incorporating destabilisation disorientation and ambiguity more strongly into theories of what religious narrative is and does
