The Face Of The Ruling Class:

The Face of the Ruling Class George Grosz,1984-09-01 *Getting Past Capitalism* Cynthia Kaufman,2012-08-25

Getting Past Capitalism begins with a critique of the impacts of capitalism on human society and the environment It looks in new ways at what capitalism is and at how it is reproduced That investigation opens the door to fresh ways of looking at how to challenge it Cynthia Kaufman looks at some fundamental questions about how capitalism comes to look like a system that is unbeatable and how people come to have desires that work to reinforce capitalism Kaufman uses this analysis to develop ideas about how to challenge capitalism She argues that rather than looking for the fulcrum point in a system that will make it able to be overthrown we should try to understand what kinds of practices open more spaces for stopping the reproduction of capitalist processes and what kinds of structures need to be developed to make capitalism a less important part of our world Getting Past Capitalism includes a critique of capitalism and presentation of alternatives to capitalism many of which already exist It explores strategies for developing and strengthening those alternatives **The Democratic State** Roger Benjamin ,Stephen L. Elkin,1985-04-18 One outcome of the declining economic growth and rising political conflict of the 1980s has been a renewed interest in political theory and increased questioning about the durability of the capitalist state More and more political scientists are critically assessing the prevailing pluralist vision of the relationships between the state and the economy Is the capitalist state able to adjust to crises and contradictions What is the role of the state in changing deteriorating economic circumstances How should we understand competing interpretations on the relative autonomy of the state the nature of property rights the legitimation crisis This collection of five original essays by seven of the best known political economy theorists addresses the interconnections between the economy and the polity and embodies the leading theoretical approaches to the political economy of the state **The Berlin of George Grosz** George Grosz,Frank Whitford,Royal Academy of Arts (Great Britain),1997-01-01 Including 150 work on paper as well as several of the artist s key theoretical essays and letters this text is the catalogue for a 1997 Royal Academy exhibition of the drawings watercolours and prints of George Grosz *Teachers and Classes* Kevin Harris,2017-05-08 In this study first published in 1982 the author draws on his considerable experience at all levels in the school system to present a radical Marxist critique of that structure He argues that the schooling process within contemporary corporate capitalism is inimical to education while true education in turn is inimical to capitalism He argues further that teachers who are participants in ongoing class struggle can begin to be concerned primarily with education only when they perform the function of the collective labourer This title will be of interest to students of education and sociology **Introducing Government** C. Ralph Young,1993 Discusses political theory and the British U S and Soviet political systems *Dialogics of the Oppressed* Peter Hitchcock,1993-01-01 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible to scholars students researchers and general readers Rich with historical and cultural value these works are published unaltered from the

original University of Minnesota Press editions The books offered through Minnesota Archive Editions are produced in limited quantities according to customer demand and are available through select distribution partners Political Elites Geraint Parry, 2024-10-31 Elites have been described both as the bulwarks of democracy and its very antithesis Political Elites first published in 1969 reviews the literature on the role of elites in politics It deals with both the classic elite theorists Mosca Pareto Michels Burnham and C Wright Mills and with many of the empirical and theoretical works on elites by modern political scientists and sociologists It seeks to clarify the central terms of elite discourse some of which have entered the everyday political vocabulary elitism power elite establishment elite consensus iron law of oligarchy and mass It explores the ways in which the descriptions of power relationships can subtly be infiltrated by the values of the observers For this ECPR Classics edition Professor Parry has added an introduction reviewing significant new developments in elite political science

Critical Companion to Contemporary Marxism Jacques Bidet, 2008 International and interdisciplinary in range and scope the Critical Companion to Contemporary Marxism provides a thorough and precise panorama of recent developments in Marxist theory in the US Europe and beyond **The Broadview Introduction to Philosophy Volume II: Values and Society** Andrew Bailey, 2019-06-18 This volume of The Broadview Introduction to Philosophy offers an intriguing selection of readings on ethics social political philosophy and issues of life death and happiness Canonical texts from historical figures such as Plato Hobbes and Wollstonecraft are included alongside contemporary selections from such thinkers as Claudia Card Judith Jarvis Thomson and Ta Nehisi Coates Unlike other introductory anthologies the Broadview offers considerable apparatus to assist the student reader in understanding the texts without simply summarizing them Each selection includes an introduction discussing the context and structure of the primary reading as well as thorough annotations designed to clarify unfamiliar terms references and argument forms
