The Faith Of John Dryden Change And Continuity

George D. Atkins

The Faith Of John Dryden Change And Continuity:

The Faith of John Dryden George D. Atkins, The Faith of John Dryden George Douglas Atkins, 2014-07-15 John Dryden's celebrated conversion to Roman Catholicism is revealed in this provocative study as the culmination of a lifelong search that began with his youth in an actively Puritan family. Atkins's familiarity with the religious thought of the times allows him to range widely among Dryden's contemporaries and predecessors and to bring a fresh perspective to those key poems in Dryden's religious development: *Religio Laici* and *The Hind and the Panther*. Through a sensitive reappraisal of all Dryden's texts including those less widely known, Atkins shows that Dryden had a lifelong antipathy for all priests of whatever sect, whether pagan or Christian, by concentrating on the theme of Dryden's opposition to the clergy and his efforts toward articulating a faith for the layman. Atkins provides an important new way of tracing and evaluating the changes in Dryden's religious position and with this perspective offers a new interpretation of Dryden's conversion. **The Faith of John**

Dryden George Douglas Atkins, 2021-12-14 John Dryden's celebrated conversion to Roman Catholicism is revealed in this provocative study as the culmination of a lifelong search that began with his youth in an actively Puritan family. Atkins's familiarity with the religious thought of the times allows him to range widely among Dryden's contemporaries and predecessors and to bring a fresh perspective to those key poems in Dryden's religious development: *Religio Laici* and *The Hind and the Panther*. Through a sensitive reappraisal of all Dryden's texts including those less widely known, Atkins shows that Dryden had a lifelong antipathy for all priests of whatever sect, whether pagan or Christian, by concentrating on the theme of Dryden's opposition to the clergy and his efforts toward articulating a faith for the layman. Atkins provides an important new way of tracing and evaluating the changes in Dryden's religious position and with this perspective offers a new interpretation of Dryden's conversion. **Dryden's Final Poetic Mode** Cedric D. Reverand II, 2016-11-11 Two months before he died, Dryden published a collection of verse translations and original poetry: *Fables Ancient and Modern*, the work for which he was most admired throughout the eighteenth and nineteenth centuries. Cedric Reverand argues that *Fables*, which has for the most part escaped modern scrutiny, embodies a purposeful subversive strategy and constitutes a new poetic mode that emerged when the laureate public spokesman for king and country lost his official post and became an outcast, a minority voice. In *Dryden's Final Poetic Mode*, Reverand focuses on Dryden's characteristic concerns: love and war, power and kingship, the heroic code, the Christian ideal, tracing how Dryden assembles informing ideals and yet dissolves them as well. By examining Dryden's treatment of familiar issues, Reverand demonstrates that this final poetic mode is not discontinuous with the earlier poetry; it is a further development, a reevaluation of the principles that sustained the poet throughout his career. *Fables* expresses Dryden's personal experience dealing with a changed and changing world. With the values he cherished crumbling, he is trapped into trying to reconcile the irreconcilable. His book reveals the fragility of various systems of value and the futility of discovering abiding ideals in a universe of perpetual flux, but it also reveals a poet who actively pursues

meaning rather than surrendering to despair It is this attempt to accommodate to a changing subversive world that Reverend asserts is the impulse behind Fables and the central issue of Dryden s life in the 1690s Dryden s Final Poetic Mode will interest students and scholars of seventeenth and eighteenth century British literature **Reading**

Deconstruction/Deconstructive Reading George Douglas Atkins, 2021-05-11 Deconstruction a mode of close reading associated with the contemporary philosopher Jacques Derrida and other members of the Yale School is the current critical rage and is likely to remain so for some time Reading Deconstruction Deconstructive Reading offers a unique informed and badly needed introduction to this important movement written by one of its most sensitive and lucid practitioners More than an introduction this book makes a significant addition to the current debate in critical theory G Douglas Atkins first analyzes and explains deconstruction theory and practice Focusing on such major critics and theorists as Derrida J Hillis Miller and Geoffrey Hartman he brings to the fore issues previously scanted in accounts of deconstruction especially its religious implications Then through close readings of such texts as *Religio Laici* *A Tale of a Tub* and *An Epistle to Dr Arbuthnot* he proceeds to demonstrate and exemplify a mode of deconstruction indebted to both Derrida and Paul de Man This skillfully organized book designed to reflect the both and nature of deconstruction thus makes its own contribution to deconstructive practice The important readings provided of Dryden Swift and Pope are among the first to treat major Augustan texts from a deconstructive point of view and make the book a valuable addition to the study of that period Well versed in deconstruction the variety of texts he treats and major issues of current concern in literary study Atkins offers in this book a balanced and judicious defense of deconstruction that avoids being polemical dogmatic or narrowly ideological Whereas much previous work on and in deconstruction has been notable for its thick prose jargon and general obfuscation this book will be appreciated for its clarity and grace as well as for its command of an impressively wide range of texts and issues Without taming it as an instrument of analysis and potential change Atkins makes deconstruction comprehensible to the general reader His efforts will interest all those concerned with literary theory and criticism Augustan literature and the relation of literature and religion **The correspondence of John Dryden** Stephen Bernard, 2022-10-11 The correspondence of John Dryden is the definitive edition of the letters of the most important playwright and poet of the late seventeenth century He defined an age and his newly transcribed disparate correspondence is placed in the context of contemporaneous and current debates about literature politics and religion It is also the most important account of the relationship between an author and his bookseller of the time The illustrated correspondence contains a full biographical textual introduction and calendar of letters It is transcribed diplomatically and structured chronologically with contextualising sections about particular correspondences The readership will be undergraduate graduate and postgraduate students and academics with an interest in seventeenth century literature politics religion and culture The editor won the MLA Morton N Cohen Award for a Distinguished Edition of Letters **Jonathan Swift** Nigel Wood, 2014-06-11 This collection of critical thinking situates the

satire of Jonathan Swift within both its eighteenth century contexts and our modern anxieties about personal identity and communication Augustan satire at its most provocative is not simply concerned with the public matters of politics or religion but also offers a precise medium in which to express the paradox of ironic detachment amidst deep conviction The critics chosen for this volume demonstrate the complexity of Swift's work Its four sections explore matters of authorial identity the relation between Swift's writing and its historical context the full range of his comments on gender and his deployment of metaphor and irony to engage the reader Swift has often been regarded as a writer who anticipated many twentieth century cultural preoccupations and this volume provides an opportunity to test just how modern he actually was It also provides an answer to those who would wish to simplify his writing as that of Tory and misogynist The theoretical perspectives of the contributors are lucidly explained and their critical terms located in the wider contexts of contemporary theory in the introduction and headnotes The volume places Swift historically within the philosophical and religious traditions of eighteenth century thought

The Just and the Lively Michael Werth Gelber, 2002 Recognition is often considered a means to de-escalate conflicts and promote peaceful social interactions This volume explores the forms that social recognition and its withholding may take in asymmetric armed conflicts examining the risks and opportunities that arise when local state and transnational actors recognise misrecognise or deny recognition of armed non state actors By studying key asymmetric conflicts through the prism of recognition it offers an innovative perspective on the interactions between armed non state actors and state actors In what contexts does granting recognition to armed non state actors foster conflict transformation What happens when governments withhold recognition or label armed non state actors in ways they perceive as misrecognition The authors examine the ambivalence of recognition processes in violent conflicts and their sometimes unintended consequences The volume shows that while non recognition prevents conflict transformation the recognition of armed non state actors may produce counterproductive precedents and new modes of exclusion in intra state and transnational politics

Swift's Satires on Modernism: Battlegrounds of Reading and Writing G. Atkins, 2012-12-17 More than three centuries later Jonathan Swift's writing remains striking and relevant In this engaging study Atkins brings forty plus years of critical experience to bear on some of the greatest satires ever written revealing new contexts for understanding post Reformation reading practices and the development of the modern personal essay

The Ideological Origins of African American Literature Phillip M. Richards, 2025-06-27 Inquiry into African American literature in recent decades has neglected to probe the intellectual structure of the tradition's aesthetics and its underlying ideology In *The Ideological Origins of African American Literature* Phillip M Richards begins this reconstructive work illuminating the dialectical backstory of black prose and poetry in America Richards argues that the social and political forces that influenced white literature were uniquely reacted to absorbed and often times rejected by African American literary figures from the eighteenth century Puritan notions of a God centered history to the onset of Romanticism and Modernism in the nineteenth

and twentieth centuries Building his case for ideological continuity Richards surveys a profoundly creative period of 125 years launched by an African American reaction against a racist mid eighteenth century American culture This epoch in African American literature saw a fusion of Puritan Protestant culture into a religious and secular worldview drawing in the poetry of Phillis Wheatley antebellum slave narratives Richard Allen and the periodicals of the ambitious African Methodist Episcopalian movement all of which would form the underlying foundation of a Black Victorian culture A rising black middle class Richards argues would later be secularized by an eroding religious tradition under the pressures of nineteenth century modernity the trauma of Jim Crow and the emerging northern ghetto Richards further traces the emergence of Romanticism which appeared with white American authors such as Emerson Thoreau and Whitman but would not take shape in African American literature until the likes of W E B Du Bois and Langston Hughes took stock of Anglo European culture at the end of the nineteenth century The Ideological Origins of African American Literature illustrates a pattern of black writing that eschews the hegemonic white culture of the day for an evolving black culture that would define an American literary landscape

This Engaging Realm of Kindle Books: A Comprehensive Guide Unveiling the Advantages of Kindle Books: A Realm of Ease and Versatility E-book books, with their inherent portability and simplicity of access, have freed readers from the limitations of physical books.
