

Grisly murder case grips Green Bay

Many connected to victim or suspects in paper vat killing

Thanksgiving was just around the corner. Some had only recently started to socialize on the frozen tundra of Green Bay, a harbinger of the gloating Wisconsin winter that would envelop the region for the remainder of 1992 and a stretch through 1993.

Tom Monfils, a devoted husband and father of two, on a lifelong job at the James River paper mill, was a normal wreck. Days earlier, he called the police on what he believed was a drunk driver who wanted to crash into his car.

Tom Monfils, 1957-1992

**THIS FACTORY HAS
WORKED — DAYS
WITHOUT A MURDER.**

When Tom's mangled body was found at the bottom of a paper pulp vat the next morning, it would ignite a firestorm of controversy that still smolders nearly 30 years later.

What exactly happened to Tom, and why? Was he, as the police initially suspected and subsequently investigated, beaten and strangled at the hands of two co-workers for watching too many movies? If so, who exactly was involved in the murder and its messy cover-up?

Or was the truth stranger and more elusive — even, defying human nature itself? A complete lack of concrete physical evidence, conflicting accounts, rampant speculation, rumors and a fierce community sentimentality have conspired to keep the case alive in the minds of Green Bay residents.

On November 20, 1992, the body of Tom Monfils was found at the bottom of a pulp vat at the James River Paper Mill in Green Bay, Wis.

Witness testimony, theories, social and cultural factors, and a host of conspiracy theories have conspired to muddy the waters of the murder case.

Six Images Of Human Nature:

Images of Human Nature Donald J. Munro, 2014-07-14 In this volume Donald Munro author of important studies on early and contemporary China provides a critical analysis of the doctrines of the Sung Neo Confucian philosopher Chu Hsi 1130-1200. For nearly six centuries Confucian orthodoxy was based on Chu Hsi's commentaries on Confucian classics. These commentaries were the core of the curriculum studied by candidates for the civil service in China until 1905 and provided guidelines both for personal behavior and for official policy. Munro finds the key to the complexities of Chu Hsi's thought in his mode of discourse: the structural images of family, stream of water, mirror, body, plant, and ruler. Furthermore, he discloses the basic framework of Chu Hsi's ethics and the theory of human nature that is provided by these illustrative images. As revealed by Munro, Chu Hsi's thought is polarized between family duty and a broader altruism and between obedience to external authority and self-discovery of moral truth. To understand these tensions moves us toward clarifying the meaning of each idea in the sets. The interplay of these ideas selectively emphasized over time by later Confucians is a background for explaining modern Chinese thought. In it, among other things, Confucianism and Marxism-Leninism co-exist. Originally published in 1988, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **Six Images of Human Nature** Norman Chaney, 1994-01-01

Living Without Domination Samuel Clark, 2016-05-13 Living Without Domination defends the bold claim that humans can organise themselves to live peacefully and prosperously together in an anarchist utopia. Clark refutes errors about what anarchism is about, utopianism, and about human sociability and its history. He then develops an analysis of natural human social activity which places anarchy in the real landscape of sociability along with more familiar possibilities including states and slavery. The book is distinctive in bringing the rigour of analytic political philosophy to anarchism, which is all too often dismissed out of hand or skated over in popular history. **What I Have Learned...** Earle F. Zeigler, 2012-09-05 What I Have Learned or Nonagenarian Natterings. Trafford, 2012 might be considered a sequel to my Through the Eyes of a Concerned Liberal published in 2004. This sequel explains what I believe about various aspects of life and living, i.e. why I believe what I do and what I sought to do about it all. It could prove interesting to anyone facing the same or similar life problems in this crazy world that is becoming more scary as I write these words. What I say here should be easily intelligible if not agreeable to any reasonably intelligent concerned member of North American society. My historical interpretation laced with philosophical undergirding led me to a belief that human civilization must be accepted as an adventure. How could it be regarded otherwise? As a young adult I entered the realm of life assessment by seeking a purpose for my life. I accepted the

philosophical stance known as pragmatism at this point while seeking to solidify my acceptance of political and social liberalism as guidance throughout my life I soon discovered the ever present need to make defensible ethical decisions based on a wise choice of values This matter was confounded by what I gradually saw as the ever increasing need to counteract Americas value orientation as the world moves along in the 21st century To do this I had to be sure that I was on the right track I did this by finding myself once again through self evaluation of my philosophic and socio political stances Hence I encourage all North Americans to re examine their values while embracing a modified form of postmodernism Finally I can only hope that America will come to its senses America must somehow live up to the values it so glibly espouses
