

## SIXTY INSTANT MESSAGES TO TOM MOORE

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. Once the information is gathered, the next step is to analyze it. This involves identifying patterns, trends, and relationships that can help in understanding the problem.

4. After analysis, a plan or strategy should be developed. This plan should outline the steps that need to be taken to solve the problem or answer the question.

5. The final step is to implement the plan. This involves carrying out the steps outlined in the plan and monitoring the progress to ensure that the problem is being solved effectively.
