## **The Afterdeath Life:**

**Life After Death** Alan Segal, 2010-06-23 A magisterial work of social history *Life After Death* illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die In a masterful exploration of how Western civilizations have defined the afterlife Alan F Segal weaves together biblical and literary scholarship sociology history and philosophy A renowned scholar Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies realities and ideals and why those beliefs changed over time He maintains that the afterlife is the mirror in which a society arranges its concept of the self The composition process for Judaism Christianity and Islam begins in grief and ends in the victory of the self over death Arguing that in every religious tradition the afterlife represents the ultimate reward for the good Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth why the Babylonians viewed the dead as living in underground prisons why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period 534 B C E 70 C E and why Christianity placed the afterlife in the center of its belief system He discusses the inner dialogues and arguments within Judaism and Christianity showing the underlying dynamic behind them as well as the ideas that mark the differences between the two religions In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history Segal sheds a bright revealing light on the intimate connections between notions of the afterlife the societies that produced them and the individual s search for the ultimate meaning of life on earth

Danforth,Alexander Tsiras,2020-09-01 This compelling text and dramatic photographic essay convey the emotional power of the death rituals of a small Greek village the funeral the singing of laments the distribution of food the daily visits to the graves and especially the rite of exhumation These rituals help Greek villagers face the universal paradox of mourning how can the living sustain relationships with the dead and at the same time bring them to an end in order to

continue to live meaningfully as members of a community That is the villagers dilemma and our own Thirty one moving photographs reproduced in duotone to do justice to their great beauty combine with vivid descriptions of the bereaved women of Potamia and with the words of the funeral laments to allow the reader an unusual emotional identification with the people of rural Greece as they struggle to integrate the experience of death into their daily lives Loring M Danforth s sensitive use of symbolic and structural analysis complements his discussion of the social context in which these rituals occur He explores important themes in rural Greek life such as the position of women patterns of reciprocity and obligation and the nature of social relations within the family

Understanding Death as Life's Paradox Brayton Polka, 2019-04-30 This book focuses on death as life s paradox in order to test to put on trial what it means for us human beings to exist No one of us chooses to be born Yet having been born we must choose to have been born to live to exist To exist is to choose to exist To choose to exist is to live with our choices This text argues that death is the limit of life that we can live freely and lovingly at once justly and compassionately solely within the limit of death It shows that we can develop a comprehensive conception of life and also of death solely insofar as we learn to overcome the dualistic opposition between philosophy and theology that continues today to falsify our understanding of not only the secular but also the sacred
