The Age Of Capital 1848 1875:

The Age of Capital Eric J. Hobsbawm, 2000 In this history of the years 1848-1875 the author's intention is not to summarize facts but rather to draw facts together into a historical synthesis make sense of the period and trace the roots of the present world back to it *The Age of Capital, 1848-1875* Eric J. Hobsbawm, 1975 [The Age of Capital, 1848-1875](#) Eric J. Hobsbawm, 1975 **The Age of Capital** Eric John Hobsbawm, 1997 **The Age of Capital** Eric Hobsbawm, 1996-11-26 In this book Eric Hobsbawm chronicles the events and trends that led to the triumph of private enterprise and its exponents in the years between 1848 and 1875 Along with Hobsbawm's other volumes this book constitutes an intellectual key to the origins of the world in which we now live Although it pulses with great events failed revolutions catastrophic wars and a global depression *The Age of Capital* is most outstanding for its analysis of the trends that created the new order With the sweep and sophistication that have made him one of our greatest historians Hobsbawm identifies this epoch's winners and losers its institutions ideologies science and religion *Age of Capital 1848-1875 B Special* E. J. Hobsbawm, 2000-11 [Age of Capital 1848-1875 B Pbp](#) E. J. Hobsbawm, 1988-01-01 [Chicago in the Age of Capital](#) John B. Jentz, Richard Schneirov, 2012-04-15 In this sweeping interpretive history of mid nineteenth century Chicago historians John B Jentz and Richard Schneirov boldly trace the evolution of a modern social order Combining a mastery of historical and political detail with a sophisticated theoretical frame Jentz and Schneirov examine the dramatic capitalist transition in Chicago during the critical decades from the 1850s through the 1870s a period that saw the rise of a permanent wage worker class and the formation of an industrial upper class Jentz and Schneirov demonstrate how a new political economy based on wage labor and capital accumulation in manufacturing superseded an older mercantile economy that relied on speculative trading and artisan production The city's leading business interests were unable to stabilize their new system without the participation of the new working class a German and Irish ethnic mix that included radical ideas transplanted from Europe Jentz and Schneirov examine how debates over slave labor were transformed into debates over free labor as the city's wage earning working class developed a distinctive culture and politics The new social movements that arose in this era labor socialism urban populism businessmen's municipal reform Protestant revivalism and women's activism constituted the substance of a new post bellum democratic politics that took shape in the 1860s and 70s When the Depression of 1873 brought increased crime and financial panic Chicago's new upper class developed municipal reform in an attempt to reassert its leadership Setting local detail against a national canvas of partisan ideology and the seismic structural shifts of Reconstruction *Chicago in the Age of Capital* vividly depicts the upheavals integral to building capitalism *Age of Revolution, 1789-1848* Eric J. Hobsbawm, 2000 Between 1789 and 1848 the world was transformed by both the French and Industrial Revolutions creating the modern world as we know it This book traces the transformation brought about in every sphere of European life by these two revolutions *French Liberalism and Imperialism in the Age of Napoleon III* Miquel de

la Rosa, 2022-02-25 This book explores the interplay between liberalism and imperialism in Second Empire France. By examining the political dimension of imperial expansion and the power of words in shaping public opinion, it sheds light on the ways in which liberal ideas developed in the nineteenth century. In contrast to Britain, French imperialism in the third quarter of the nineteenth century was fostered by a Bonapartist regime that liberals needed to fight in order to build their own political brand. The author argues that the 1860s were not so much a period of liberal empire in France as has traditionally been suggested, since liberals were in fact more conveyers of political change rather than supporters of the regime. To demonstrate how French liberals succeeded in configuring an alternative political option, the book explores their attitudes to the expanding colonial empire of Napoleon III in the 1850s and 60s through the analysis of parliamentary debates, the press, and published texts. Providing three in-depth case studies on Bonapartist expansion projects in Algeria, Cochinchina, and Mexico, the book provides new insights on the foundations of the liberal position on imperialism and the intellectual outlooks and belief systems that informed these views. Analysing discourses and ideas as opposed to facts and policies, this book presents a new perspective on the nature of the French Second Empire and illustrates how this shaped a specific liberal political culture in France.
