The Age Of Humanism And Reformation Europe In The Fourteenth Fifteenth And Sixteenth Centuries:

The Age of Humanism and Reformation Arthur Geoffrey Dickens, 1977

The Routledge Companion to Early Modern Europe, 1453-1763 Chris Cook, Philip Broadhead, 2012-10-02 This compact and highly accessible work of reference covers the broad sweep of events as Europe transformed during the period from the Renaissance to the Enlightenment This Companion examines the centuries that saw the Reformation and Counter Reformation the expansion of Europe and the beginnings of imperialism and enormous changes in the way government and kingship were conducted With a wealth of chronologies tables family trees and maps this handy book is an indispensable resource for all students and teachers of early modern history

A Reformation Life David M. Whitford, 2015-08-28 This title presents the European Reformation as seen through the life of an important but little known participant Philipp of Hesse a nobleman who became a Reformation leader in Germany The Reformation was the most cataclysmic event in Western Christianity An ideal resource for undergraduate history students and general readers this title provides an accessible human narrative through the complex events of the period that many find bewildering History comes alive and events unfold through the eyes of Philipp of Hesse a German nobleman who ascended to becoming a key Reformation leader The book begins with a detailed survey of the Holy Roman Empire at the turn of the 16th century and provides chronological coverage of Philipp's life and role in the Reformation through to after his death in 1567 after which Calvinism rose within the empire The chapters document how Philipp of Hesse knew every major figure of the German Reformation participated in every major Reformation era imperial diet was present at every important event in the Lutheran dominated foundational period of 1521 to 1555 and became a leading Lutheran prince in the Holy Roman Empire Additionally the work thoroughly documents the connections between religion politics and society and explains the important role of the German nobility in the development of the Reformation

Faith and Leadership

Michael P. Riccards, 2012-04-19 This study is a comprehensive history of the papacy the oldest elective office in the world and how it has managed over the centuries the most complex voluntary association of faith The book argues that in fact through most of its existence the papacy has adapted managerial models of the secular world and applied them to the Catholic Church Since its emergence from the Jewish synagogues to a persecuted minority in the Roman Empire to becoming the established religion of the West the Church and the papacy engaged the world on its own terms It is only after the Council of Trent did the Church become somewhat more divorced and estranged from the environment around it This book focused on those changes and on the great popes across the centuries who reformed and altered Catholicism Special attention is directed to Gregory I Innocent I Innocent III Pius IX Leo XIII Pius XI Pius XII John XXVII Paul VI and John Paul II The conclusion is that the persistence of the Catholic Church for so many centuries was due to its ability to preserve the faith but re-establish its forms and managerial class

A Strange Tongue John D. Green, 2002 This book is the product of both historical and personal interest in the grounds of religious conviction It deals with the practice and development of the

tradition of discernment of spirits in the late fourteenth century England and sixteenth century Spain as reflected in the classical texts of the mystics of the periods Julian of Norwich the Cloud Author and Walter Hilton in England and Ignatius of Loyola and John of the Cross in Spain The tradition of discernment came into being at the very beginning of the Church's history and has been appropriated adapted and developed throughout its history The book explores how the tradition is expanded and maintains continuity with its origins and suggests that it reaches some apogee in sixteenth century Spain for Christian lives of apostolic mission and contemplation It illustrates how the cultural circumstances of the times moulded the manner in which the experiences of the mystics were perceived Discernment of Spirits is about how Christians reach some conviction that the stirrings within consciousness which seem to originate so strangely and yet beckon so persistently are real in the sense of authentically divine They are stirrings which call for a response in the lives of mystics Rowan Williams at the beginning of his influential book *The Wound of Knowledge* refers to the intractable strangeness of the ground of belief that must constantly be allowed to challenge the fixed assumptions of religiosity it is a given whose question to each age is fundamentally one and the same This book illustrates how the question is addressed in the texts of the mystics In our own time the strange stirrings which intimate the question tend to be drowned by a multiplicity of competing voices The suggestion is made that when we listen to the voices of the past we may be encouraged to wonder about the question posed by the stirrings within our own consciousness hitherto unheard or dismissed as simply strange

Teresa of Avila's Autobiography Elena Carrera, 2019-01-22 The Spanish mystic Teresa of Avila 1515-82 author of one of the most acclaimed early modern autobiographies *Vida* 1565 has generated a wealth of literary historical and theological studies yet none to date has examined the impact of textual models on Teresa's self construction In looking at the issue of the self Carrera draws on revisions *Reformation Studies* A. Luther Michael Mullett, 2006-05-09 Luther provides a clear exposition of the state of German politics on the eve of the Reformation Dr Mullett concentrates particularly on the evolution of Luther's thought and its central preoccupation with re-aligning the church's theology with that of the New Testament

English Humanism Joanna Martindale, 2025-04-01 The literature of the English Renaissance demands some attention to the intellectual and educational background which produced it in order to be seen in proper perspective The selection in this book originally published in 1985 both illustrate the intellectual climate of the English Renaissance and exemplify some of its characteristics though not strictly literary products These include education classicism and imitation wisdom and eloquence history and moral philosophy religion and vernacular scripture Erasmus has been given a dominant place in the anthology as the main mediator of humanist ideas to England other authors represented include Castiglione Machiavelli Sir Thomas Elyot Roger Ascham and Ben Jonson This volume charts precisely the debt of English Renaissance literature to Continental Humanism and the classical revival and is a valuable contribution to an understanding of the

literature and society of the time
