The Age Of Reformation:

The Age of Reformation E. Harris Harbison, 2013-04-12 In The Age of Reformation first published in 1955 E Harris Harbison shows why sixteenth century Europe was ripe for a catharsis New political and social factors were at work the growth of the middle classes the monetary inflation resulting from an influx of gold from the New World the invention of printing the trend toward centralization of political power Against these developments Harbison places the church nearly bankrupt because of the expense of defending the papal states supporting an elaborate administrative organization and luxurious court and financing the crusades The Reformation as he shows was the result of a long slow shifting of social conditions and human values to which the church was not responding readily enough The sheer inertia of an enormous and complex organization the drag of powerful vested interests the helplessness of individuals with intelligent schemes of reform this is what strikes the historian in studying the church of the later Middle Ages Martin Luther a devout and forceful monk sought only to cleanse the church of its abuses and return to the spiritual guidance of the Scriptures But as it turned out western Christendom split into two camps a division as stirring as fearful as portentous to the sixteenth century world as any in Europe's history Offering an engaging and accessible introductory history of the Reformation Harbison focuses on the age s key individuals institutions and ideas while at the same time addressing the slower less obvious tides of social and political change A classic and long out of print synthesis of earlier generations of historical scholarship on the Reformation told with clarity and drama this book concisely traces the outlines interlocked and interwoven as they were of the various phases that The Age of the Reformation Preserved Smith,1920 comprised the Age of Reformation The Age of Reformation Elmore Harris Harbison, 1958 The Church and the Age of Reformations (1350-1650) Joseph T. Stuart, Barbara A. Stuart, 2022-04-08 In 1517 Augustinian monk Martin Luther wrote the infamous Ninety Five Theses that eventually led to a split from the Catholic Church The movement became popularly identified as the Protestant Reformation but Church reform actually began well before the schism In The Church and the Age of Reformations 1350 1650 historian Joseph T Stuart and theologian Barbara A Stuart highlight the watershed events of a confusing period in history providing a broader and deeper historical context of the era including the Council of Trent the rise of humanism and the impact of the printing press The Stuarts also profile important figures of these tumultuous centuries including Thomas More Teresa of vila Ignatius of Loyola and Francis de Sales and show that the saints demonstrated the virtues of true reform charity unity patience and tradition You will learn Reform efforts in the Catholic Church were underway before Luther's Ninety Five Theses The Church did not sell the forgiveness of sins with indulgences Millions of people did not die in the Spanish Inquisition there were less than 5 000 deaths during a 350 year period Inquisitions led to legal advances such as grand juries the need for multiple witnesses and defendant protections that are still in place today The so called Catholic Reformation was conducted in four stages and exhibited respect for Church authority human free will and the saints and focused on the new universal reach of the Church
