The American Communist Movement Harvey Klehr, John Earl Haynes, 1992 In *The American Communist Movement Storming Heaven Itself* Harvey Klehr and John Earl Haynes trace the turbulent history of American communism as both political party and social movement Drawing on a wealth of research they follow the party's fortunes from its origin in the aftermath of the Russian Revolution through its heyday during the Depression years to the gradual decline in the post World War II era The authors examine the effect of the party's ideas on groups more in the mainstream of American politics as well as the influence of communist popular front culture on American culture in general While duly acknowledging the idealism of many American communists the authors also take a clear eyed look at the disturbing aspects of the American communist movement its subservience to Moscow its penchant for conspiratorial machinations its bitter internal disputes and purges its always latent and sometimes virulent totalitarianism

Self-help in America Alfred Hyman Katz,1993 By its very definition self help suggests a person s autonomous effort to solve a problem Yet as Alfred H Katz argues in this sociohistorical introduction to the self help culture what links America s diverse self help organizations is the shared belief that the group experience itself allows the individual to work through his or her problem and live a normal life Taking personal testimonials in tandem with scholarly research Katz analyzes what he calls the phenomenon of self help in the United States where possibly as many as 730 000 such groups with at least 10 to 15 million members currently operate That programs managed by human services professionals and agencies have failed to address particular public needs is attested to by the rapid rate at which self help groups have been forming over the last 20 years according to Katz Although Katz uses social movement criteria in looking at why and how self help groups work he notes that the huge diversity among such groups and their lack of a unifying political force renders the description social trend more accurate To highlight the respective characteristics of the two main types of self help groups 12 step and non 12 step Katz compares a successful example of the former Adult Children of Alcoholics with one of the latter the National Alliance for the Mentally Ill The ideology of Alcoholics Anonymous that personal change can only be achieved through spiritual belief or conversion as reflected in its listing of the 12 steps members must take toward recovery from addiction is where the first category gets its name This type of group s near universal meeting format and rituals and its refrain from engaging in any sociopolitical activity stands in marked contrast to non 12 step groups which do not expect their members to pursue a phased path of personal growth and change and whose structures vary considerably In addition to exploring the leadership ideology and growth patterns of both types of groups Katz looks at the populist tendencies among non 12 step groups that prompt members to take social action to shape public policy One of the most controversial issues in self help to what degree human services professionals should be involved in a particular group if in fact at all Katz addresses in a thorough and unbiased manner Likewise he fairly considers the potential effectiveness of government involvement in U S self help groups by comparing the situations of Canada Great Britain and Germany Katz concludes this clear and concise overview of self help by returning to the question of whether this collective behavior however diverse its motivating forces

constitutes a social movement As a social scientist however Katz finds the theoretical question of self help secondary to the fact that the success of such groups holds the promise of a better social life for the world s billions of people BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Rise of a Gay and Lesbian Movement Barry D.
