The Est Experience:

The Invisible Bridge Rick Perlstein, 2015-08-11 The best selling author of Nixonland presents a portrait of the United States during the turbulent political and economic upheavals of the 1970s covering events ranging from the Arab oil embargo and the era of Patty Hearst to the collapse of the South Vietnamese government and the rise of Ronald Reagan Publisher s description

Self Realization Espy M. Navarro, Robert Navarro, 2002-10-04 Telling the truth is done in a way that is supportive non brutal enlightening and comfortable In general people dont tell the truth because of many reasons mostly because it is usually threatening to do so But if you dont get at the truth which means to see things the way that they really are then you cant possibly discover the truth Werner Erhard This book Self Realization The est and Forum Phenomena in American Society presents a view of the content and context of est the events that took place and a look at the distinct personality of Werner Erhard who added his personal touch to the field of consciousness raising The est organization underwent great change from its beginnings and even now in its present form as the Forum series remains as a subject that is still open to a wide range of vast interpretations It has been described as an organization that has tendencies of being a cult to one of an educational corporation that offers a profound and revealing experience What is a fact is that the collective experiences of over 1 400 000 human beings who have gone through either the est training or the Forum series and each of their particular contributions that have resulted from these experiences have certainly had an impact on America and the world Werner Erhard the founder of these courses is undoubtedly the most famous ex used car salesman in the United States Without any formal credentials degrees or advanced educational training he used his innate intelligence intuition and insight to promote self awareness in the United States In the 1970s he was right for the times in synch with the fledgling me generation By the time that he had retired the est training in 1984 and when he left the Forum in 1991 almost 750 000 people had undergone the courses that he had developed and marketed Werner created the est training from three main sources Mind Dynamics Scientology and Zen Even though these sources contributed greatly to est a lot of credit must be given to Werner Erhard for putting the elements of the est training together in a unique fashion He transformed the subject matter of life from mere words with his stated intent to alter the belief foundation that drives the lives of every human being on the planet In the process he became a trailblazer albeit subject to the arrows that every pioneer becomes a target of from detractors pundits experts and others who did not understand what was being presented For a while Erhard was the poster child of the awareness movement that swept America during the 1970s Eventually through some of his actions but mostly through the hostile environment of the media he succumbed to the slaughter of the relentless and vicious attacks on his character and persona Nevertheless while it was vibrantly alive the est training provided one of the best and quickest opportunities available to radically alter ones life Many competitors emerged but only est had the staying power for as long as it did and which still continues to this day under the Forum series The importance of the est training and the Forum series

especially in the United States is in the form of individual contributions that have transformed and enabled the people of this nation to enjoy a new level of spirituality empowerment perception and enhancement of their personal enlivenment and contribution

Getting Saved from the Sixties Steven M. Tipton, 2014-03-19 This groundbreaking study explores the ways young Americans today understand right and wrong how they think out their morality and how they live it out It describes contrasting ethical styles in the biblical utilitarian and personalist traditions of our culture first as they structured the conflict between mainstream and counterculture during the 1960s and second as they have shaped the transformation of these values in new religious movements since the early 1970s Coupling descriptive ethics with interpretive sociology this study pursues biography and moral dialogue with sixties youth who participated in a charismatic Christian sect a Zen Buddhist meditation center and a human potential organization est It shows the significance of these movements for the adherents changing ideas of their own identity their relationships sex roles courtship and marriage and their politics and vision of society It analyzes the cultural logic and the social location of their ideas which break down recombine and find renewal in the course of conversion

The Death of Psychotherapy Donald A. Eisner, 2000-01-30 Psychologist attorney Eisner puts psychotherapy on trial by critically examining its effectiveness through the lens of the scientific method From psychoanalysis to cognitive behavior therapy as well as the 500 or so other psychotherapies there is not a single experimental study that supports the effectiveness of psychotherapy over a placebo or religious healing Using both case examples and clinical research this book challenges the conclusion that there is empirical support for the notion that psychotherapy is effective

The Emerging Network Michael York, 1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena
