William Connell, Stanislao Pugliese

The Ethnic Factor How Americas Minorities Decide Elections:

The Routledge History of Italian Americans William Connell, Stanislao Pugliese, 2017-09-27 The Routledge History of Italian Americans weaves a narrative of the trials and triumphs of one of the nation's largest ethnic groups. This history, comprising original essays by leading scholars and critics, addresses themes that include the Columbian legacy, immigration, the labor movement, discrimination, anarchism, Fascism, World War II, patriotism, assimilation, gender identity, and popular culture. This landmark volume offers a clear and accessible overview of work in the growing academic field of Italian American Studies. Rich illustrations bring the story to life, drawing out the aspects of Italian American history and culture that make this ethnic group essential to the American experience. **The Ethnic Factor** Mark R. Levy, Michael S. Kramer, 1972 This volume presents a study of the patterns and of the way that America's ethnic voters influence elections. Based on computer analysis of election returns, this work provides a practical guide to the political power of eight of America's largest ethnic groups. The authors maintain that if properly organized and conscious of their political clout, the ethnic voters of America hold the key to the political future of the United States. *The Political Participation of Asian Americans* Pei-te Lien, 2018-10-24 Despite the size and relative prosperity of the Asian American ethnic population, the participation of Asian Americans in electoral politics has been low. This study explores the relationship between ethnic identity and political participation on three levels: between the four major racial ethnic groups of the American nation; inside the multi-ethnic Asian American population; and within a specific Asian American ethnic group, Koreans. Empirical analysis of surveys dealing with ethnic identity, experience, and voting behavior reveals the complexity of Asian American identities and the importance of both positive and negative experiences in shaping political participation. While in general individuals of Asian descent tend to participate less in electoral politics, the political involvement of those with a stronger sense of pan-Asian or specific ethnic identity are more complex. Political participation can be increased by a greater sense of group consciousness and identification of interests with either the panethnic group or a specific ethnic group. Most importantly, the socio-political context shapes the impact of ethnicity on political participation. The experience of Korean Americans in southern California exemplifies this process. Koreans, often victimized by hate crimes, were politicized by the riots following the trial of LAPD officers in the Rodney King incident. The study concludes with a discussion of the meaning of electoral participation and financial contributions for Asian Americans and of the role of political parties, interest groups, and media in the mobilization of Asian Americans into mainstream politics. Ph.D. dissertation, University of Florida, 1995, revised with new preface and foreword. *Ethnicity, Race, and American Foreign Policy* Alexander DeConde, 1992 This book sheds a disconcerting light on a familiar history, contending that ethnoracial considerations and especially British American ethnocentrism have often taken priority over morality, ideology, and other factors in determining U.S. foreign policy. **The Political Role Of Religion In The United States** Stephen D. Johnson, Joseph B. Tamney, 2019-07-11 The political importance of Christian churches in the 1

1980s is the focus of this wide ranging book of readings Contributors begin by placing the current involvement of religious groups in politics in historical perspective and then analyze the politics and ideologies of both the religious right and religious left They also explore specific issues including the separation of church and state the impact of religious interest groups on public policy religion and abortion and feminist theological views *Black Conservatism* Peter

Eisenstadt, 2013-09-13 This volume is the first comprehensive examination of African American conservative thought and politics from the late eighteenth century to the present The essays in the collection explore various aspects of African American conservatism including biographical studies of abolitionist James Forten clergymen Henry McNeal Turner and J H Jackson and activists A Philip Randolph and Bayard Rustin Thematic essays in the volume consider southern black conservatism in the late nineteenth century and after World War I African American success manuals Ellisonian cultural criticism the Nation of Islam and African Americans and the Republican Party after 1964 **US Foreign Policy in a**

Challenging World Marco Clementi, Matteo Dian, Barbara Pisciotto, 2017-07-18 This book examines how the US is dealing with the challenge of reconciling its global interests with regional dynamics and how it is able to produce and sustain order at the system level and within regional subsystems The book comprises four parts the first of which addresses global issues such as nonproliferation trade and freedom of the seas US policies in these areas are carefully analyzed considering whether and how they have been differently implemented at the regional level The remaining parts of the book focus on the US posture toward specific regions Europe the Middle East and East Asia The policies adopted by the US to confront the most relevant challenges in each region are identified and the ways in which policies in a specific region influence or are influenced by challenges in another region are explored The book is a rich source of knowledge on the nature of the balance that the US has pursued between global and regional interests It will be of much interest to scholars to practitioners to postgraduate PhD students of international relations theory and American foreign policy and to all with an interest in the ability of the US to produce international order **Multiculturalism in the United States** John D. Buenker, Lormen A.

Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work Co editors Ratner and Buenker have revised and updated the first edition of *Multiculturalism in the United States* to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool Seven new ethnic groups are included Arabs Haitians Vietnamese Koreans Filipinos Asian Indians and Dominicans New essays on the Irish Chinese and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition The contribution to American culture by people of these diverse origins reflects differences in class occupation and religion The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants

Changes over time that both of the cultures brought to America and of the culture that received them is also discussed. Essays on representative ethnic groups include African Americans, American Indians, Arabs, Asian Indians, Chinese, Dominicans, Filipinos, Germans, Haitians, Irish, Italians, Jews, Koreans, Mexicans, Poles, Scandinavians, and the Vietnamese. Theories of Ethnicity Werner Sollors, 1996-11. Werner Sollors has here brought together such intellects as Max Weber, Carl Gustav Jung, Margaret Mead, Georg Simmel, Erik Erikson, Karl Mannheim, Jean Toomer, Fredrik Barth, and Herbert Gans, and pioneering work by a host of other sociologists, anthropologists, psychologists, historians, and philosophers from around the world.

Choosing Presidents Michael Novak, 2017-07-28. In *Choosing Presidents*, Novak uses the election of an American president as a means to dissect the symbols of our national life and politics, exposing many as distorted perceptions of American realities. This work is a guide to the complexities of electoral politics and a lasting contribution to our understanding of the presidency. The author is Michael Novak.

Enjoying the Melody of Term: An Emotional Symphony within **The Ethnic Factor How Americas Minorities Decide Elections**
