The European Challenge Andre Gunder Frank,1984 **Territories and Trajectories** Diana Sorensen,2018-06-07 The contributors to *Territories and Trajectories* propose a model of cultural production and transmission based on the global diffusion circulation and exchange of people things and ideas across time and space This model eschews a static geographically bounded notion of cultural origins and authenticity privileging instead a mobility of culture that shapes and is shaped by geographic spaces Reading a diverse array of texts and objects from Ethiopian song and ancient Chinese travel writing to Japanese literature and aerial and nautical images of the Indian Ocean the contributors decenter national borders to examine global flows of culture and the relationship between thinking at transnational and local scales Throughout they make a case for methods of inquiry that encourage innovative understandings of borders oceans and territories and that transgress disciplinary divides Contributors Homi Bhabha Jacqueline Bhabha Lindsay Bremner Finbarr Barry Flood Rosario Hubert Alina Payne Kay Kaufman Shelemay Shu mei Shih Diana Sorensen Karen Thornber Xiaofei Tian *Building a More Democratic United Nations* Frank Barnaby,2020-08-26 These proceedings from the 1990 CAMDUN conference cover the structure of the UN NGOs and the roles of UNAs communication globally through the UN and restructuring the UN

Denemark,2015-10-23 Andre Gunder Frank was a path breaking scholar in several disciplines over an

illustrious and contentious 50 year career First amongst his many important works is the book ReORIENT Global Economy in the Asian Age which sought to correct a Euro centric world view of the development of the global political economy Frank passed away in April 2005 while working on this new book a sequel to ReORIENT In this book Frank shows many of the myths of European industrialisation hegemony and capitalism which have hidden the fact that Asia remained a serious power not just into the 18th century as Frank himself argued in 1998 but well into the 19th century as well When Frank passed away his colleagues rallied to finish this book and it is presented here as his final major statement **Reframing Critical, Literary, and Cultural Theories** Nicoletta Pireddu,2018-09-04 This book participates in the ongoing debate about the alleged death of theory and the current post theoretical condition arguing that the finitude of theoretical projects does not mean end but rather contingency and transformation of thinking beyond irreconcilable doctrines Contributors from different cultural and scholarly backgrounds and based in three different continents propose new areas of investigation and interpretive possibilities reopening dialogues with past and present discourses from a plurality of perspectives and locations After a first section that reassesses the status and scopes of critique theory and literature the book foregrounds new or neglected critical vocabulary literary paradigms and narrative patterns to reread texts at the intersection with other branches of the humanities history philosophy religion and pedagogy It then explores geopolitical cultural and epistemological domains that have been historically and ideologically overdetermined such as postsocialist postcolonial and cosmopolitan spaces recodifying them as unstable sites of both conflicts and convergences By acknowledging the spatio temporal and cultural delimitations of any intellectual practice the book creates awareness of our own partiality and incompleteness but treats boundaries as zones of contact exchange and conceptual mobility that promote crossings and connections Future Survey Annual 1985 Michael Marien,1987-01-01
