The European Family Patriarchy To Partnership From The Middle Ages To The Present:

The European Family Michael Mitterauer, Reinhard Sieder, 1983 **The European Family**, 1987 *Family History Revisited* Richard Wall, Tamara K. Hareven, Josef Ehmer, 2001 This collection of original essays by scholars on the historical study of the family from various parts of the world represent a new departure in this field The essays cover a great variety of topics and many countries are represented The essays open up new debates and point to new directions in the field by examining dimensions of family relations that had not been sufficiently addressed in previous scholarship The History of the European Family: Family life in the long nineteenth century (1789-1913) David I. Kertzer, Marzio Barbagli, 2001-01-01 The penultimate volume in this series explores the effect that industrialisation new technology the growth of cities and the revolutions in transport and in communication had on the family between 1789 and 1913 **Women in Medieval Europe** Jennifer Ward, 2014-06-11 Women in Medieval Europe were expected to be submissive but such a broad picture ignores great areas of female experience Between the thirteenth and fifteenth centuries women are found in the workplace as well as the home and some women were numbered among the key rulers saints and mystics of the medieval world Opportunities and activities changed over time and by 1500 the world of work was becoming increasingly restricted for women Women of all social groups were primarily engaged with their families looking after husband and children and running the household Patterns of work varied geographically In the northern towns women engaged in a wide range of crafts with a small number becoming entrepreneurs Many of the poor made a living as servants and labourers Prostitution flourished in many medieval towns Some women turned to the religious life and here opportunities burgeoned in the thirteenth century The Middle Ages are not remote from the twenty first century the lives of medieval women evoke a response today The medieval mother faced similar problems to her modern counterpart The sheer variety of women s experience in the later Middle Ages is fully brought out in this book *A Millennium of Family Change* Wally Seccombe, 1995-10-17 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Seccombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Seccombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history *A Millennium of Family Change* provides an integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class *Brothers and Sisters in Medieval European Literature* Carolyne Larrington, 2015 A wideranging and groundbreaking investigation of the sibling relationship as shown in
