The Experience of No-Self Bernadette Roberts,1993-03-26 Explores the journey beyond union beyond self and God into the silent and still regions of the Unknown      *What Is Self?* Bernadette Roberts,2005-01-15 The renowned contemporary mystic and author of *The Experience of No Self* presents her philosophical treatise on the nature of Self and God As a Carmelite nun Bernadette Roberts pursued a life in union with God She wrote compellingly about her contemplative spiritual journey in her memoirs *The Experience of No Self* and *The Path of No Self* Now she builds on the wisdom she gained exploring the ultimate consciousness that transcends self and experience In *What Is Self* Ms Roberts explains her conceptions of the ego the self and the revelations of the contemplative life Deeply personal and profoundly spiritual this latest effort puts all of Bernadette s insights into clearer and sharper perspective as though her own journey has grown clearer with distance      **The Experience of No-self** Bernadette Roberts,1982 The author describes the contemplative experiences which led her to reach a new level of spiritual enlightenment and discusses the nature of the self and its relation to Christian teaching      The Path to No-Self Bernadette Roberts,1991-01-01 This book shows how once we have adjusted to the unitive state the spiritual journey moves on to yet another more final ending In our major religious traditions the outstanding milestone in the spiritual journey is the permanent irreversible transcendence of the self center or ego The fact that a great deal has been written about the journey to this point means that many people have come this far But what we might ask comes next Looking ahead we see no path even in the literature there seems to be nothing beyond an abiding awareness of oneness with God Had this path been mapped in the literature then at least we would have known that one existed but where no such account exists we assume there is no path and that union of self and God is the final goal to be achieved The main purpose of *The Path to No Self* is to correct this assumption It verifies that a path beyond union does indeed exist that the eventual falling away of the unitive state happens as the culmination of a long experiential journey beyond the state The author shows that a path exists between the transcendence of the ego self center which begins the unitive state and the later falling away of all self the true self which ends the unitive state As a first hand account *The Path to No Self* will be of interest to those with similar experiences or those searching for a better understanding of their own spiritual journey Since the journey is concerned with the effects of grace on human consciousness the book will be of interest to those psychologists concerned with the transformational process      **Quantum Physics and God** Manfred Bauer,2023-01-19 Quantum physics and the theory of relativity have shaken our conception of reality They have made us realize that the universe is not as we perceive it Religion and philosophy have so far failed to adapt our view of the world on the basis of these findings Thus together with the reader the author sets out to clarify the fundamental questions of life He skillfully juxtaposes convincing answers from different fields of knowledge Scientific chapters about the world of quantum objects space and time or the origin and evolution of the universe stand in stark contrast to chapters about scientifically

unexplainable events such as miracles spiritualistic phenomena findings about life after death and reincarnation In addition the author discusses the atheistic worldview The scientific sections are easily understandable especially since they are to a large extent free of technical terms and formulas In the religious chapters the author draws parallels between ideas from all religions especially Hinduism Buddhism and Taoism and scientific findings Descriptions of the God experiences of spiritual masters from all times cultures and religions as well as personal anecdotes and stories imagined by the author provide manifold paradigm shifts in the detailed consideration of one and the same thing the ultimate reason of our existence and the meaning of life

*Quest for Silence* Harry A. Wilmer, 2000 What ever happened to silence Actually nothing and Harry Wilmer takes great pains to show how we have submerged it under a toxic barrage of noise Using both clinical examples of the power of silence from his case histories and cultural values of silence he uncovers a astonishing theme in the Japanese idea of MA as silence Wilmer points out how silence gives meaning to words dreams thought action and music From his long experience as a Jungian analyst he weaves his ideas into an eminently practical treatise on the phenomenology of silence With many references to literature as well as his personal life experiences and crises he offers a readable and important new story of the universal and spiritual significance of silence in a world of jackhammer noise

**Modern Buddhist and Christian Mysticism** Charles M. Mueller, Peter Richardson, 2025-03-01 Investigations of mysticism often focus on the past while largely ignoring current developments This book contributes to a reversal of that trend with a rigorous examination of a wide selection of

contemporary Buddhist and Christian authors The focus is on the intriguing intersections and subtle divergences now emerging in areas such as ineffability nonconceptuality paradox inverted agency unity and self dissolution The analysis combines the theoretical framework of Cognitive Linguistics with a range of methodological approaches from discourse and thematic analysis to corpus linguistics Wide ranging systematic and informative the book is invaluable to all of those interested in the phenomenon of mysticism within the modern world      *The Poetics of Adonis and Yves Bonnefoy* Kareem James Abu-Zeid, 2021-06-15 This book examines the work of two major poets who wrote in the second half of the twentieth century Yves Bonnefoy of France and the Syrian born Adonis born Ali Ahmed Said In conducting close readings of key moments from their respective poetry the author illustrates how both of these writers in their own unique ways construct poetry as a form of spiritual practice that is as a way of transforming both the poet s and the implied reader s ontological perceptual and creative relationships with their internal and external worlds
